IMPORTANT SAFETY INFORMATION

- Do not load more than 1,000 pounds on the bed frame.
- Exercise caution around potential sharp edges during assembly and use.
- Ensure all connections for the charging station and LED lights are secure before use.

SETUP AND ASSEMBLY

Assembly of the YITAHOME Queen Size Floating Bed Frame is required. Please refer to the detailed installation manual included with your product for step-by-step instructions. Ensure all components are present before beginning assembly.

Key Assembly Considerations:

- **Component Identification:** Before starting, identify all parts using the provided parts list in the installation manual.
- **Slat Installation:** The bed frame utilizes 13 wood slats. Ensure they are properly secured to the frame.

- **Noise Reduction:** A mute sponge strip is integrated into the middle beam to prevent friction and noise. Ensure this strip is correctly positioned during assembly.

MAINTENANCE

To ensure the longevity and appearance of your YITAHOME bed frame, follow these maintenance guidelines:

- **Upholstery Cleaning:** The lambswool upholstered platform is smooth and easy to clean. For general cleaning, gently wipe with a soft, damp cloth. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Frame Cleaning:** Wipe down the frame with a soft, dry cloth to remove dust.
- **Slat Inspection:** Periodically check the wooden slats and their connections to ensure they remain secure and free from damage.
- **Electrical Components:** Ensure the charging station and LED light connections are free from dust and debris. Do

not attempt to repair electrical components yourself.

TROUBLESHOOTING

If you encounter any issues with your YITAHOME bed frame, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Bed frame makes squeaking noises.	Loose connections or friction between metal parts.	Ensure all bolts and screws are tightened. Verify the mute sponge strip on the middle beam is correctly positioned to prevent metal-on-metal contact.
LED lights are not working.	Power connection issue, remote control battery, or app connectivity.	Check if the power adapter is securely plugged into a working outlet and the bed frame. Replace remote control batteries. Ensure your smart device is properly paired with the bed frame via the app.

Problem	Possible Cause	Solution
Charging station is not providing power.	Power connection issue or device compatibility.	Verify the bed frame's main power cord is plugged in. Ensure the device you are charging is compatible with the USB/Type-C ports and AC outlets. Try a different device to confirm the station's functionality.
