NAVEE GT3 MAX-U

NAVEE GT3 MAX Electric Scooter User Manual

Model: **GT3 MAX-U** | Brand: **NAVEE**

INTRODUCTION

Thank you for choosing the NAVEE GT3 MAX Electric Scooter. This manual provides essential information for the safe operation, maintenance, and troubleshooting of your new electric scooter. Please read this manual thoroughly before your first ride to ensure optimal performance and safety.

SAFETY GUIDELINES

Your safety is paramount. Always wear a helmet and appropriate protective gear when riding. Adhere to local traffic laws and regulations. Avoid riding in adverse weather conditions or on slippery surfaces.

- Familiarize yourself with all controls before riding.
- Perform a pre-ride check: ensure brakes are functional, tires are in good condition, and all parts are secure.
- Maintain a safe speed and distance from other vehicles and pedestrians.
- Do not ride under the influence of alcohol or drugs.
- The scooter is designed for one rider only. Do not carry passengers.

SETUP

Unboxing and Initial Assembly

Upon receiving your NAVEE GT3 MAX, carefully remove all components from the packaging. The package includes the GT3 MAX Electric Scooter, a Power Adapter, a User Manual, a T-Shaped Lever, and 4 Screws for assembly.

1. Unfold the scooter stem until it locks into place.
2. Attach the handlebars to the stem using the provided screws and T-shaped lever. Ensure they are securely fastened.
3. Check all connections and ensure no cables are pinched.

Initial Charging

Before your first ride, fully charge the scooter's battery. The charging time is approximately 10 hours.

- Locate the charging port on the scooter.
- Connect the power adapter to the charging port, then plug it into a power outlet.
- The LED display will indicate charging status. Disconnect once fully charged.

Premium 597Wh Lithium Battery

Outlasts recycled packs by 5X

The infographic features a large, glowing blue 3D rendering of a battery pack composed of numerous cylindrical cells. Overlaid on the top of the pack are five circular icons, each representing a different safety feature: 'Short-Circuit Protection' (an 'X' symbol), 'Over-Temperature Control' (a thermometer icon), 'Overcurrent Protection' (a lightning bolt icon), 'Overvoltage Protection' (a network icon), and 'Fire Resistance' (a flame icon). To the right of the pack is a gold-colored UL 2272 certification seal. At the bottom, two callout boxes compare the battery's lifespan: 'NAVEE' (1000 Cycles ≈ 5 Years) and 'OTHER' (200 Cycles ≈ 1 Year).

NAVEE
1000 Cycles ≈ 5 Years

OTHER
200 Cycles ≈ 1 Year

OPERATING YOUR SCOOTER

Power On/Off and Riding Modes

To power on the scooter, press and hold the power button. The clear LED display will show real-time speed, battery level, and current mode. The scooter offers three optimized riding modes:

- **Walk Mode (3 MPH):** For safe pedestrian zones.
- **Daily Mode (12 MPH):** For efficient commuting.
- **Sport Mode (20 MPH):** For thrilling speed and maximum performance.

Switch between modes by pressing the power button once while the scooter is on.

Braking System

The NAVEE GT3 MAX is equipped with a professional dual braking system (front drum + rear EABS) for confident stopping power. The integrated Traction Control System (TCS) prevents wheel spin on wet roads, enhancing stability and safety. TCS functionality can be activated through the NAVEE APP.

Lighting and Indicators

Integrated auto-sensing headlights and turn signals enhance night visibility and safety. Use the turn signals to indicate your direction to others.

NAVEE Smart APP & Apple Find My

Stay fully connected with the NAVEE electric scooter Bluetooth App for ride diagnostics and customization. The app allows for hands-free unlocking via Bluetooth and automatic locking when you're not around. With the Apple Find My network, you can quickly locate your scooter even when it's offline.

MAINTENANCE

Tire Care

The scooter is built with 10-inch tubeless tires that are designed to be puncture-proof and offer a 2x longer lifespan. While they require zero maintenance, regularly inspect them for any signs of wear or damage.

Cleaning and Storage

- Clean the scooter with a damp cloth. Do not use high-pressure water or corrosive cleaners.
- Store the scooter in a cool, dry place away from direct sunlight and extreme temperatures.

- The scooter features a smart 1-step folding design for easy storage and portability.

TROUBLESHOOTING

If you encounter any issues with your NAVEE GT3 MAX, please refer to the following common solutions:

Problem	Possible Cause	Solution
Scooter not powering on	Low battery; loose connection	Charge the battery; check all cable connections.
Reduced range/speed	Under-inflated tires; heavy load; uphill riding	Check tire pressure; reduce load; use appropriate riding mode.
Brakes not responsive	Brake cable adjustment needed	Consult the full manual or contact customer support for brake adjustment.

For more complex issues, please contact NAVEE customer support.

SPECIFICATIONS

Feature	Detail
Motor Power	1000W
Max Speed	25 MPH (40 km/h)
Max Range	47 Miles (75 km)
Tire Size	10 Inches (Tubeless)
Max Load	265 Pounds (120 kg)
Item Weight	23 Kilograms
Charging Time	10 Hours
