Razer Kraken Kitty V2 BT Wireless RGB Headset (Kuromi Edition) User Manual

INTRODUCTION

The Razer Kraken Kitty V2 BT Wireless RGB Headset, Kuromi Edition, is designed for immersive audio experiences and personalized style. This headset features Razer Chroma RGB lighting on the kitty ears and earcups, Bluetooth 5.2 connectivity with a dedicated Gaming Mode, and Razer TriForce 40 mm Drivers for clear sound. It also includes integrated beamforming noise-cancelling microphones and offers up to 40 hours of battery life with USB Type-C charging. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance of your headset.

What's in the Box

- Razer Kraken Kitty V2 BT Headset
- USB Type-C Charging Cable
- User Manual

SETUP

1. Charging the Headset

Before initial use, fully charge your headset. Connect the provided USB Type-C charging cable to the headset's charging port and to a powered USB port. The LED indicator will show charging status and turn off when fully charged. A full charge provides up to 40 hours of battery life.

2. Bluetooth Pairing

1. Ensure the headset is powered off.
2. Press and hold the Power button until the LED indicator blinks blue, indicating pairing mode.
3. On your device (smartphone, PC, etc.), enable Bluetooth and search for available devices.
4. Select "Razer Kraken Kitty V2 BT" from the list of found devices.
5. Once connected, the LED indicator will turn solid blue.

3. Software Installation (Razer Synapse)

For advanced customization of RGB lighting and audio settings, download and install Razer Synapse software from the official Razer website. This software allows you to personalize Chroma RGB effects, adjust equalizer settings, and configure microphone sensitivity.

OPERATING THE HEADSET

Power On/Off

- To power on: Press and hold the Power button until the LED indicator lights up.
- To power off: Press and hold the Power button until the LED indicator turns off.

Volume Control

Use the volume wheel located on the earcup to adjust the audio output level. Rotate upwards to increase volume and downwards to decrease volume.

Microphone Usage

The headset features integrated beamforming noise-cancelling microphones for clear voice capture. These microphones are built into the earcups and do not require a boom arm. Ensure the microphone is enabled in your device's audio settings for communication.

Razer Chroma RGB Lighting

Customize the RGB lighting on the kitty ears and earcups using Razer Synapse software. Choose from 16.8 million colors and various lighting effects to match your personal style or react to in-game events.

Gaming Mode

Activate Gaming Mode for reduced audio latency, providing a more synchronized experience during competitive gaming. Refer to the Razer Synapse software for instructions on enabling and configuring Gaming Mode.

MAINTENANCE

Cleaning the Headset

- **Ear Cushions:** Gently wipe the fabric and leatherette ear cushions with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Headset Body:** Use a dry, soft cloth to wipe down the headset's surface. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying.
- **Charging Port:** Ensure the USB Type-C port is free of dust and debris. Use a soft brush or compressed air if

necessary.

Storage

Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset to prevent damage. When traveling, consider using a protective case.

TROUBLESHOOTING

Bluetooth Connectivity Issues

- **Headset not pairing:** Ensure the headset is in pairing mode (blinking blue LED). Turn off and on your device's Bluetooth.
- **Frequent disconnections:** Ensure the headset is within the Bluetooth range (up to 10.1 meters). Reduce interference from other wireless devices.
- **No sound after connecting:** Check your device's audio output settings to ensure the Razer Kraken Kitty V2 BT is selected. Adjust headset volume.

Audio Quality Issues

- **Distorted or low volume:** Check volume levels on both the headset and your connected device. Ensure the headset is fully charged.
- **No sound:** Verify Bluetooth connection. Restart both the headset and the connected device.

Microphone Issues

- **Microphone not working:** Ensure the microphone is enabled in your device's audio input settings. Check for any mute functions on the headset or software.
- **Poor microphone clarity:** Ensure the integrated microphones are not obstructed. Adjust microphone sensitivity in Razer Synapse.

RGB Lighting Not Functioning

- Ensure Razer Synapse software is installed and running.
- Check lighting settings within Razer Synapse for enabled effects.
- Verify the headset has sufficient battery charge.

SPECIFICATIONS
