Spigen PA2400

Spigen ArcPack 5000mAh Power Bank PA2400 User Manual

Model: PA2400

1. INTRODUCTION

Thank you for choosing the Spigen ArcPack 5000mAh Power Bank. This manual provides essential information for the safe and efficient use of your device. Please read it thoroughly before operation and retain it for future reference.

The Spigen ArcPack PA2400 is a compact and portable power bank designed for on-the-go charging. It features a built-in foldable Type-C connector, an additional USB-C port, and an integrated stand for convenient media viewing while charging.

2. PRODUCT OVERVIEW

Key Features

- **5000mAh Capacity:** Provides reliable power for your devices.
- **Built-in Foldable USB-C Connector:** Eliminates the need for extra cables and protects the connector when not in use.
- **22.5W Fast Charging:** Supports rapid charging for compatible devices.
- **Integrated Stand:** Allows for hands-free viewing of media while charging.
- **Compact and Lightweight:** Designed for easy portability.
- **LED Indicator Lights:** Display remaining battery level.

Package Contents

- User Manual

Foldable Built-in USB-C Connector

22.5W MAX

Portable Charger for you.

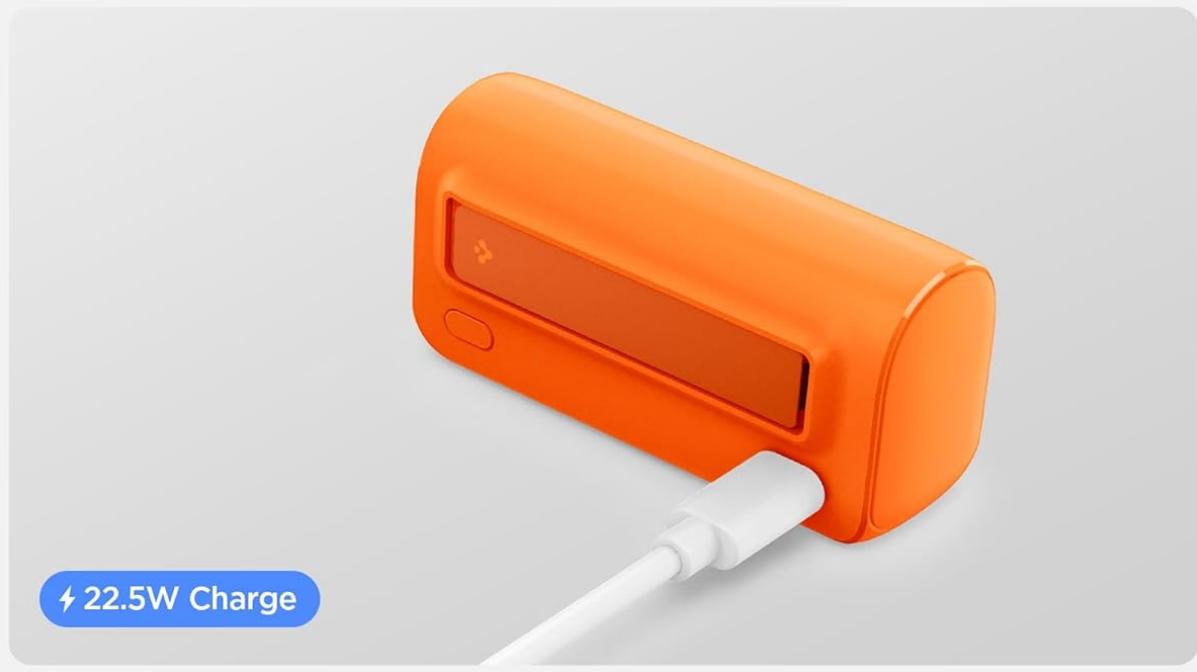

An overview of the Spigen ArcPack power bank, highlighting its 5000mAh capacity, 22.5W maximum output, and integrated foldable USB-C connector.

3. SETUP

Initial Charging of the Power Bank

1. For optimal performance, fully charge your Spigen ArcPack power bank before first use.
2. Connect a USB-C charging cable (not included) to the power bank's USB-C port.
3. Connect the other end of the cable to a compatible USB wall adapter (18W recommended for fast recharge).
4. The LED indicator lights will illuminate to show the charging progress. All four lights will be solid when fully charged.

Two-way Fast Charging.

This image illustrates the power bank's two-way fast charging capability, showing it being recharged at 18W and providing 22.5W output to a device.

4. OPERATING INSTRUCTIONS

Charging Your Devices

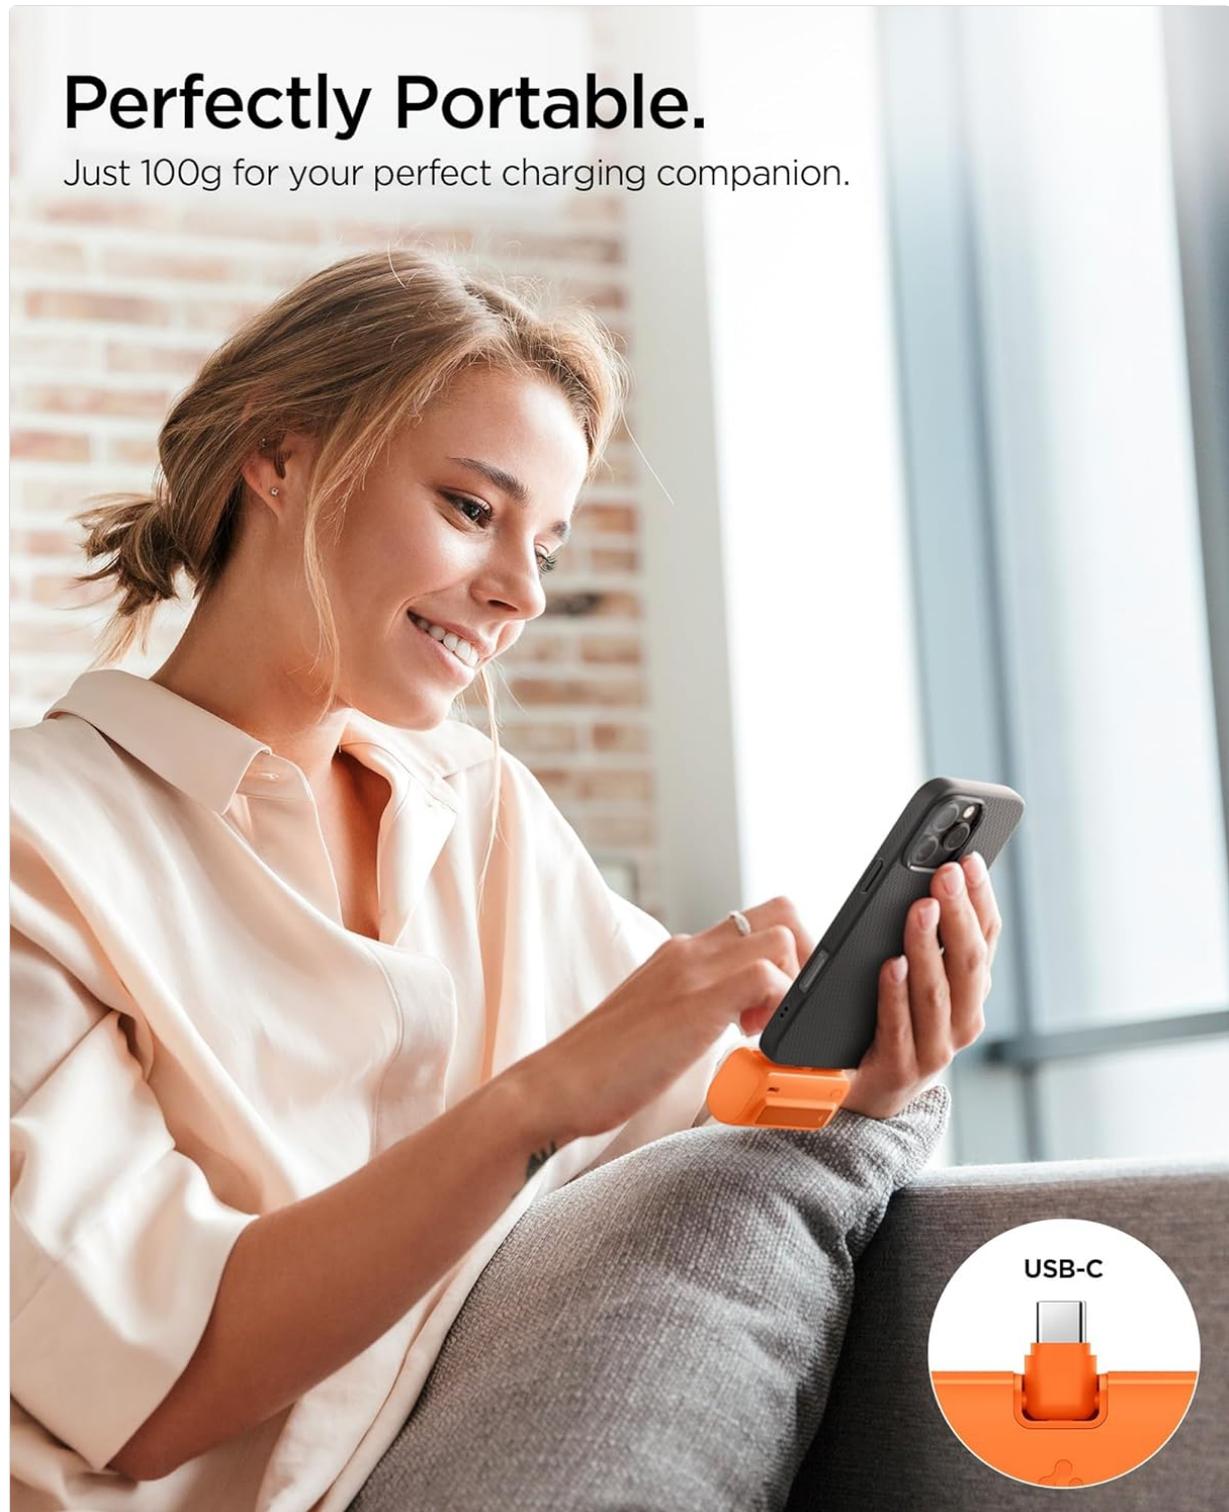

The Spigen ArcPack offers two methods for charging your devices:

Using the Built-in Foldable USB-C Connector:

1. Gently unfold the built-in USB-C connector from the power bank.
2. Plug the connector directly into your USB-C compatible device.
3. Charging will begin automatically. The LED indicators on the power bank will show its remaining battery level.

Using the USB-C Port:

1. Connect a USB-C charging cable (not included) to the power bank's USB-C port.
2. Connect the other end of the cable to your device. This port supports various devices, including those requiring a USB-C to Lightning cable.
3. Charging will commence automatically.

Using the Integrated Stand

The Spigen ArcPack features a built-in stand for hands-free viewing:

1. Locate the foldable stand on the side of the power bank.
2. Gently pull out the stand until it locks into position.

3. Place your smartphone or small tablet onto the stand. The stand supports both horizontal and vertical orientations.

Hands-free functionality.

Experience hands-free viewing.

*Supports both horizontal and vertical stands.

This video demonstrates the key features and usage of the Spigen ArcPack 5000mAh Power Bank, including its foldable connector, integrated stand, and charging capabilities.

5. MAINTENANCE

- **Cleaning:** Wipe the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, fully charge the power bank at least once every three months if not in regular use. Avoid fully discharging the battery frequently.
- **Avoid Impact:** Do not drop or subject the power bank to strong impacts, as this may damage internal components.

6. TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Power bank not charging	Charging cable or adapter faulty; power bank fully discharged; loose connection.	Try a different cable/adapter; ensure connections are secure; allow more time for charging if fully discharged.
Device not charging from power bank	Power bank battery empty; device cable faulty; incompatible device; loose connection.	Recharge power bank; try a different cable; ensure device is USB-C compatible; check connections.
Slow charging	Non-fast charging cable/adapter; device not supporting fast charging; high device usage during charging.	Use a fast-charging compatible cable/adapter; ensure device supports 22.5W fast charging; reduce device usage during charging.
LED indicators not working	Power bank faulty.	Contact customer support.
