GRUSIGN 40-50 Gallon Fish Tank Stand

GRUSIGN 40-50 Gallon Fish Tank Stand with Power Outlets

Model: 40-50 Gallon Fish Tank Stand

Brand: GRUSIGN

Introduction

Thank you for choosing the GRUSIGN 40-50 Gallon Fish Tank Stand. This stand is designed to provide a stable and functional base for your aquarium, featuring a robust metal and engineered wood construction, integrated power outlets, and convenient storage. Please read this manual carefully before assembly and use to ensure proper setup and safe operation.

Image: The GRUSIGN 40-50 Gallon Fish Tank Stand, shown with a large aquarium on top and a smaller one on the bottom shelf, featuring a dark finish and cabinet doors.

Safety Information

- **Weight Capacity:** The top surface supports up to 660 lbs. The middle shelf supports 110 lbs, and the bottom shelf supports 220 lbs. Do not exceed these limits.
- **Anti-Tip Device:** Always install the included anti-tip devices to prevent accidental tip-over, especially in households with children or pets.
- **Level Surface:** Ensure the stand is placed on a flat, level, and stable surface to prevent instability and potential damage to your aquariums.
- **Electrical Safety:** The integrated power outlets are rated for 120V/12A. Do not overload the outlets. Ensure all electrical connections are secure and away from water.
- **Water Exposure:** While the material is moisture-resistant, avoid prolonged exposure to standing water. Wipe up spills immediately.

Package Contents

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Top Panel
- Side Panels (Left & Right)
- Bottom Shelf
- Middle Shelf
- Cabinet Doors (2)
- Back Panels
- Legs/Support Beams
- Hardware Pack (screws, dowels, hinges, handles, magnetic catches)
- Integrated Power Strip (3 AC outlets, 2 USB ports, 6.5ft cord)
- Anti-Tip Kit
- Assembly Tools (Hex key, screwdriver - may be included or required)

Setup and Assembly Instructions

Assembly typically requires two people. Follow these steps carefully.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Compare parts with the provided list.
2. **Assemble the Frame:** Attach the side panels to the main support beams using the provided hardware. Ensure all connections are secure.
3. **Install Shelves:** Insert the middle and bottom shelves into their designated slots or attach them with screws.
4. **Attach Top Panel:** Secure the top panel to the assembled frame.
5. **Install Back Panels:** Fasten the back panels to the rear of the stand.
6. **Mount Cabinet Doors:** Attach hinges to the cabinet doors and then to the stand. Adjust hinges for proper alignment. Install handles and magnetic catches.
7. **Integrate Power Outlets:** Secure the power strip into the designated recessed area on the side of the stand. Ensure the power cord is routed safely.
8. **Install Anti-Tip Device:** Attach the anti-tip bracket to the back of the stand and secure it to a wall stud using the provided hardware. This is a critical safety step.

Operating Instructions

- **Placement:** Position the stand on a firm, level floor, ensuring it is away from direct sunlight, heat sources, and areas with high foot traffic.
- **Aquarium Installation:** Carefully place your 40-50 gallon aquarium on the top surface. Ensure it is centered and stable. A smaller 5-10 gallon aquarium or fish tank kit can be placed on the bottom shelf.
- **Power Outlet Usage:** Plug the stand's power cord into a grounded wall outlet. Use the integrated AC and USB outlets to power aquarium equipment such as lights, heaters, and air pumps. Do not exceed the maximum electrical load of 120V/12A.
- **Cabinet Storage:** Utilize the enclosed cabinet for storing fish food, cleaning supplies, and other aquarium accessories to maintain an organized space.

Maintenance

- **Cleaning:** Wipe the stand's surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spill Management:** Immediately wipe away any water spills to prevent moisture damage to the engineered wood components.
- **Hardware Check:** Periodically check all screws and connections to ensure they remain tight and secure. Retighten if necessary.
- **Electrical Inspection:** Regularly inspect the power cord and outlets for any signs of wear or damage. Discontinue use if damage is found and contact a qualified electrician for repair or replacement.

Troubleshooting

- **Stand is Wobbly:**
  Solution: Ensure the stand is on a level surface. Check all assembly hardware and tighten any loose screws. Verify that the anti-tip device is properly installed.
- **Cabinet Doors Do Not Close Properly:**
  Solution: Adjust the hinges to align the doors. Check if the magnetic catches are properly installed and aligned.
- **Power Outlets Not Working:**
  Solution: Ensure the stand's power cord is securely plugged into a functional wall outlet. Check if the wall outlet itself is receiving power (e.g., by testing with another device). Do not attempt to repair the power strip yourself; contact customer support if it is faulty.
- **Missing or Damaged Parts:**
  Solution: Do not proceed with assembly. Contact GRUSIGN customer support immediately for assistance.

Specifications

Feature	Detail
