2.2 App Download and Pairing

1. Download the **DaFit** app from your smartphone's app store (compatible with iOS 9.0+ and Android 4.4+).
2. Ensure your phone's Bluetooth is turned on.

3. Open the DaFit app and follow the on-screen instructions to add your device. Select "H52" from the list to connect.
4. Confirm successful binding within the DaFit app.

2.3 Bluetooth Call Setup

To enable Bluetooth calling functionality:

1. After successful binding with the DaFit app, go to your phone's Bluetooth settings.
2. Find "H52" in the list of available devices and click to bind.
3. Once connected, you can use the watch for making and receiving calls.

8. TROUBLESHOOTING

8.1 Watch Not Working Properly

If your watch is not functioning as expected, try the following steps:

- Charge the Watch:** Connect the watch to a power source and charge it for at least two hours to ensure it is fully activated.
- Reset and Reconnect:** Reset the watch to its factory settings and then reconnect it to the DaFit mobile app.
- Update Software:** Ensure both the watch firmware and the DaFit mobile app are updated to their latest versions.

8.2 Inaccurate Health Measurements

For more accurate health measurements:

- Personal Information:** Verify that your personal information (age, height, weight) in the "DaFit" app is filled in correctly.
- Wearing Position:** Ensure the watch is worn correctly – not too tight or too loose. Avoid excessive arm swinging or making a fist during measurements.

3. **Skin Contact:** Individual differences such as skin color, hair, tattoos, or scars can affect blood circulation and measurement signals. Ensure good skin contact.
4. **Elevated Measurement:** You can turn on the elevated measurement function in the "DaFit" app if available.

9. WARRANTY AND SUPPORT

EGQINR offers the following for your H52 Smart Watch:

- **Return Policy:** 30-day free return policy.
- **Warranty:** 1-Year limited warranty.
- **Technical Support:** 24/7 lifetime technical support for any assistance you may need.
