Feekaa 0114-B Stainless Steel 4L Cool Mist Humidifier User Manual

Model: 0114-B

1. INTRODUCTION

Thank you for choosing the Feekaa 0114-B Stainless Steel Cool Mist Humidifier. This device is designed to improve air quality and comfort in your home or office by adding moisture to the air. Featuring a durable stainless steel tank, easy top-fill design, and quiet operation, it is suitable for various rooms including bedrooms, nurseries, living rooms, and offices.

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your humidifier. Please read it thoroughly before first use and retain it for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not operate the humidifier without water in the tank.
- Keep the humidifier out of reach of children and pets.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not immerse the base unit in water or other liquids.
- Use only clean, cool tap water. Distilled or demineralized water is recommended to prevent white dust.
- Do not add essential oils directly into the water tank, as this may damage the unit.
- Ensure the power cord is not damaged, pinched, or placed under heavy objects.
- This appliance operates at a low 24V safe voltage, minimizing the risk of electric shock.
- The product is made from BPA-free materials.

3. PACKAGE CONTENTS

Upon unpacking, please ensure all items are present and in good condition:

- Feekaa Humidifier Unit (Main Body and Water Tank)
- Mist Nozzle
- Power Adapter
- User Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your Feekaa humidifier:

Key Features:

- **Stainless Steel Tank:** Food-grade, dishwasher-safe, and durable 4L/1Gal capacity.
- **Visible Water Level Window:** Easily monitor water status.
- **Adjustable Mist Levels:** Three settings (low/medium/high) for customized humidity.
- **360° Rotating Nozzle:** Direct mist where needed, with options for single or dual mist streams.
- **Whisper-Quiet Operation:** Operates at 24dB for undisturbed sleep.
- **Programmable Timer:** Set for 2, 4, 6, or 8 hours.

- **Optional Blue Night Light:** Provides a calming ambiance.
- **Top-Fill Design:** Easy and leak-proof refilling.
- **Automatic Shut-off:** Activates when water runs low for safety.

5. SETUP INSTRUCTIONS

Follow these steps to set up your humidifier for the first time:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Remove Internal Packaging:** Take out the main body from the water tank. Locate and remove any internal foam padding or protective materials from the mist tube and atomizer head.
3. **Install Atomizer Head:** Ensure the atomizer head is correctly oriented (facing upwards) and securely placed inside the mist tube. Make sure the wire and protrusion of the atomizer head are aligned with the slot of the mist tube.
4. **Reinstall Mist Tube:** Insert the mist tube back into the main body and rotate clockwise to lock it into place.
5. **Fill Water Tank:** Place the stainless steel water tank on a flat surface. Fill the tank with clean, cool water. Ensure the water level is above the minimum line but does not exceed the maximum line.
6. **Assemble Unit:** Carefully place the main body (with the mist tube and atomizer head installed) onto the filled water tank.
7. **Attach Mist Nozzle:** Place the 360° rotating mist nozzle onto the top of the main body.
8. **Connect Power:** Plug the power adapter into the humidifier's power port, then plug the adapter into a standard electrical outlet.

6. OPERATING INSTRUCTIONS

Power & Mist Level Control:

The main button on the control panel manages power and mist output:

- **1st Tap:** Turns on the humidifier with high mist level.
- **2nd Tap:** Switches to medium mist level.
- **3rd Tap:** Switches to low mist level.
- **4th Tap:** Turns off the humidifier.

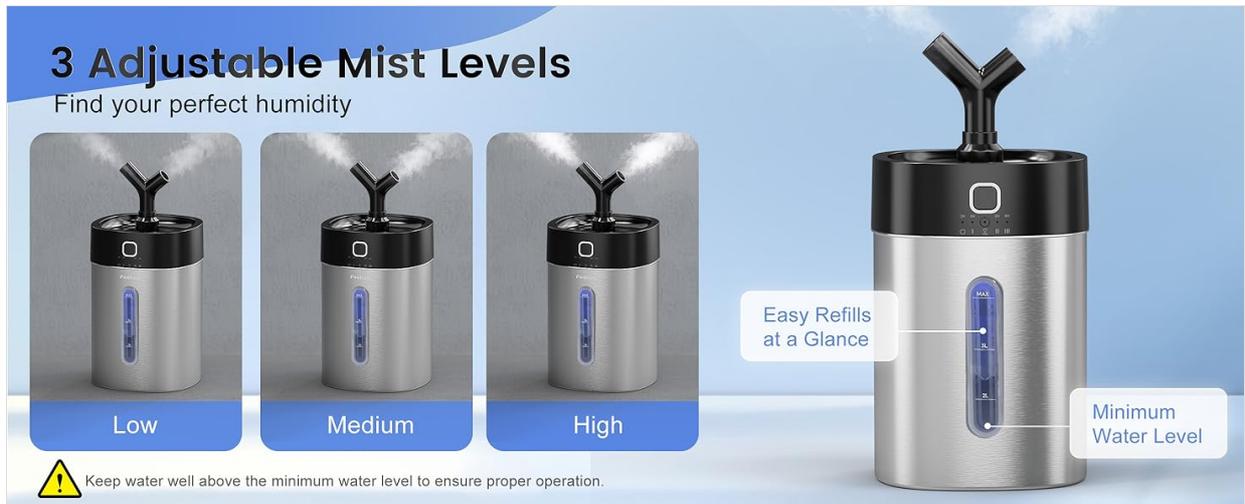

Image: Visual representation of the three adjustable mist levels (Low, Medium, High) from the humidifier.

Timer & Night Light Control:

The timer/light button allows you to set operation duration and control the night light:

- **Short Tap:** Cycles through timer settings (2H, 4H, 6H, 8H). A 5th tap exits the timer mode.
- **Long Press (3 seconds):** Enables or disables the blue night light.

Mist Nozzle Adjustment:

The 360° rotating nozzle allows you to direct the mist. You can also use a rubber plug (not included, but implied by product images) to block one nozzle for a single, targeted mist stream.

7. MAINTENANCE & CLEANING

Regular cleaning is crucial for optimal performance and hygiene. The Feekaa humidifier is designed for easy cleaning:

1. **Power Off and Unplug:** Always ensure the humidifier is turned off and unplugged from the power outlet before cleaning.
2. **Disassemble:** Remove the mist nozzle, then lift the main body from the water tank. Pour out any remaining water from the tank.
3. **Clean Water Tank:** The stainless steel water tank is dishwasher-safe. Alternatively, wash it by hand with warm water and mild soap. For descaling, fill the tank with diluted citric acid or white vinegar and let it soak for 15-20 minutes, then rinse thoroughly.
4. **Clean Mist Tube and Atomizer Head:** Remove the mist tube by rotating it counterclockwise. Carefully detach the atomizer head. Soak the atomizer head in diluted citric acid or white vinegar for 15-20 minutes to loosen mineral buildup. Use a soft brush or cloth to gently clean the atomizer head and mist tube. Rinse thoroughly under running water.

5. **Clean Main Body:** Wipe the outer surface of the main body with a damp soft cloth (below 104°F / 40°C). **Important:** Do not let water splash into the air outlet or air inlet openings on the main body.
6. **Dry All Parts:** Ensure all parts are completely dry before reassembling.
7. **Reassemble:** Reinstall the atomizer head into the mist tube (ensure it faces upward and aligns correctly), then rotate the mist tube clockwise to lock it into the main body. Place the main body back onto the water tank and attach the mist nozzle.

8. TROUBLESHOOTING

If you encounter issues with your humidifier, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or low mist output	Lack of water; Atomizer head not properly installed; Mineral buildup on atomizer; Air inlet/outlet blocked.	Refill water tank; Ensure atomizer head is facing upwards and correctly aligned; Clean atomizer head and mist tube; Check for obstructions in air inlets/outlets.
White dust around humidifier	Hard water used.	Use distilled or demineralized water. Clean the humidifier regularly to remove mineral deposits.
Unusual noise	Humidifier not on a flat surface; Water level too low; Foreign object in water tank.	Place on a flat, stable surface; Refill water tank; Check for and remove any foreign objects.
Water leakage	Main body not properly seated on tank; Tank overfilled.	Ensure main body is correctly placed and sealed; Do not exceed the MAX water level.

9. SPECIFICATIONS

Feature	Detail
Brand	Feekaa
Model Name	0114-B
Capacity	4 Liters (1 Gallon)
Operation Mode	Ultrasonic
Floor Area Coverage	Up to 500 Square Feet
