## 3. ASSEMBLY INSTRUCTIONS

Adult assembly is required. Please follow the steps carefully. Recommended tools include a Phillips-head screwdriver or an electric screwdriver (not included).

### Assembly Video Guide

Video: Detailed assembly guide for a similar Kids Wooden Doctor Playset. Follow the visual instructions for step-by-step assembly.

### General Assembly Steps:

1. Identify all wooden panels and hardware (screws, pegs) by their labels.
2. Attach the base panels to the side panels using the provided screws, ensuring a stable foundation.
3. Insert the shelves into the designated slots on the side panels, securing them with screws.
4. Assemble the countertop with the sink and faucet, then attach it to the main structure.
5. Secure the back panels, including the eye chart and X-ray display area.
6. Attach the top decorative panel and any remaining accessories like the clock.
7. Ensure all screws are tightened securely before use.

## 4. OPERATING INSTRUCTIONS

The play set offers various interactive elements for children to engage in pretend play:

- **Medical Check-ups:** Use the stethoscope to 'listen' to heartbeats, the blood pressure monitor to 'check' vitals, and the thermometer to 'take' temperatures.
- **X-Ray Examinations:** Place the X-ray films in the designated slot to 'diagnose' conditions.
- **Administering Treatment:** Use the syringe for 'injections' and the pill bottles/ointment tubes for 'medication'.
- **Hygiene:** Utilize the sink and faucet for pretend handwashing, promoting good hygiene habits.
- **Record Keeping:** Use the ID card and file folder to 'document' patient information.

Video: Showcases the Svan Wooden Medical Pretend Playset, highlighting its features and how children can engage in medical role-play.

## 5. MAINTENANCE

- **Cleaning:** Wipe down all wooden and plastic surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Ensure all parts are completely dry before storing to prevent warping or mold.
- **Storage:** Store the play set in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check for any loose screws, damaged parts, or splinters. Tighten screws as needed.

## 6. TROUBLESHOOTING

- **Loose Parts:** If any parts become loose, re-tighten the screws using a Phillips-head screwdriver. Do not over-tighten.

- **Missing Components:** If any components were missing upon arrival, please contact customer support for assistance.
- **Damage:** In case of damage, discontinue use and contact customer support for guidance on repair or replacement.
