Gaderth Large Outdoor Dog Kennel Instruction Manual

Model: PHO_15AM19HB

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Gaderth Large Outdoor Dog Kennel. Please read all instructions carefully before assembly and use to ensure safe and proper installation and functionality. This kennel is designed to provide a secure and comfortable outdoor enclosure for medium to large dogs.

2. SAFETY INFORMATION

- Always ensure the kennel is assembled on a flat, level, and stable surface to prevent tipping.
- Regularly inspect all connections and components for tightness and damage. Replace any damaged parts immediately.
- Do not allow children to play unsupervised near or inside the kennel.
- Ensure the locking mechanism on the gate is always engaged when a pet is inside.
- Provide adequate water, food, and shelter from extreme weather conditions for your pet within the kennel.
- This kennel is intended for pets. Do not use it for purposes other than its intended design.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact Gaderth customer support.

- Galvanized Iron Pipe Frame Sections
- Wire Mesh Panels
- Gate Assembly with Lock

- Feeding Door Assembly with Stainless Steel Bowl
- Waterproof Canopy Cover
- Canopy Support Poles
- Connection Hardware (bolts, nuts, clamps, etc.)
- Ground Stakes (recommended for added stability)
- Assembly Tools (e.g., wrench, screwdriver - may not be included)

4. SETUP AND ASSEMBLY

Assembly typically requires two adults. Follow these steps carefully:

1. **Unpack and Identify Parts:** Lay out all components and compare them against the package contents list. Familiarize yourself with each part.
2. **Assemble the Base Frame:** Connect the bottom horizontal pipes to form the rectangular base. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.
3. **Install Vertical Supports:** Attach the vertical support pipes to the base frame.
4. **Attach Side Panels:** Secure the wire mesh panels to the vertical supports and horizontal frame sections. Pay attention to the orientation of panels, especially those with the gate and feeding door.
5. **Install Gate and Feeding Door:** Integrate the gate assembly and feeding door assembly into their designated panel sections. Test the locking mechanisms to ensure they operate smoothly.
6. **Assemble Top Frame:** Connect the top horizontal pipes, mirroring the base frame assembly.
7. **Secure All Connections:** Once the entire metal frame is upright and all panels are in place, fully tighten all bolts and connections. Ensure the structure is rigid and stable.
8. **Install Canopy Supports:** Attach the canopy support poles to the top frame as indicated in the diagrams.
9. **Attach Waterproof Canopy:** Drape the waterproof canopy over the support poles. Secure it using the provided straps or bungee cords. For enhanced durability, consider using heavy-duty wire ties as an alternative to standard bungee cords.
10. **Ground Anchoring (Recommended):** For additional stability, especially in windy conditions, use ground stakes to anchor the kennel to the ground.

Figure 2: Key features of the kennel, including the feeding bowl, stable metal base, strong straps for the canopy, and the secure doorlock design.

5. OPERATING INSTRUCTIONS

- **Pet Entry/Exit:** Use the main gate for your pet to enter and exit the kennel. Always ensure the gate is securely latched and locked when your pet is inside.
- **Feeding:** Utilize the dedicated feeding door to provide food and water without needing to enter the main enclosure. The included stainless steel bowl fits into this access point.
- **Canopy Use:** The waterproof canopy provides protection from rain and harmful UV rays. Ensure it is properly secured to maximize its effectiveness.
- **Placement:** Position the kennel in an area that offers additional natural shade or protection from harsh weather when possible, even with the canopy.

WATERPROOF AND ANTI-UV COVER

6. MAINTENANCE

- **Cleaning:** Regularly clean the metal frame and panels with mild soap and water. Rinse thoroughly and dry to prevent rust. The canopy can be wiped clean with a damp cloth.
- **Inspection:** Periodically check all bolts, nuts, and connections for tightness. Re-tighten as necessary. Inspect the wire mesh for any damage or sharp edges.
- **Canopy Care:** Ensure the canopy remains taut to prevent water pooling, which can lead to damage or collapse. Inspect for tears or wear and repair or replace as needed.
- **Ground Stability:** Verify that the kennel remains securely anchored to the ground, especially after strong winds or heavy rain.

7. TROUBLESHOOTING

- **Kennel feels flimsy after assembly:** Ensure all bolts are fully tightened. Verify that the kennel is on a perfectly level surface. Consider adding additional ground anchors or reinforcing the base with external supports if necessary for very active or large dogs.

- **Canopy collects water:** Ensure the canopy is stretched tightly over the support poles and secured properly. Adjust the tension of the straps or ties.
- **Gate or feeding door sticks:** Check for any obstructions or bent components. Apply a silicone-based lubricant to hinges if needed.
- **Missing or damaged parts:** Do not attempt to force assembly with incorrect or damaged parts. Contact Gaderth customer support for replacements.

8. SPECIFICATIONS

Feature	Detail
Model Number	PHO_15AM19HB
Advertised Size	8x4x6 FT
Assembled Dimensions (L x W x H)	Approx. 94.49 in (240 cm) x 47.24 in (120 cm) x 70.87 in (180 cm)
Main Material	Heavy-Duty Galvanized Iron Pipe
Canopy Material	Waterproof and Anti-UV Fabric
Color	Black (Frame), Grey (Canopy)
Item Weight	94.3 pounds
Target Audience	Medium and Large Dogs
