MAINTENANCE

To ensure the longevity and appearance of your Cat-1512 Shrapnel Pouches, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the exterior and interior surfaces with a soft, damp cloth. For stubborn spots, a mild soap solution can be used, followed by wiping with a clean damp cloth.
- **Drying:** Allow the pouches to air dry completely after cleaning. Do not use direct heat sources like hair dryers, as this may damage the faux leather material.
- **Storage:** When not in use, store the pouches in a cool, dry place away from direct sunlight to prevent material degradation.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the faux leather and print.

TROUBLESHOOTING

If you encounter any issues with your Cat-1512 Shrapnel Pouches, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Pouch does not close securely.	Overfilling the pouch, or obstruction in the opening mechanism.	Remove some items to reduce bulk. Check for any small objects caught in the shrapnel plate mechanism and remove them carefully.
Pouch is difficult to open.	Insufficient pressure applied to the sides, or mechanism stiffness.	Apply firm, even pressure to both sides of the pouch opening. Repeated use may soften the mechanism over time.
Water spots or stains on the exterior.	Exposure to liquids.	Wipe immediately with a clean, damp cloth. For persistent stains, use a mild soap solution as described in the Maintenance section.
