## 5. OPERATING INSTRUCTIONS

### 5.1. Basic Navigation

The tablet uses a touch-sensitive screen. Tap to select, swipe to scroll, and pinch to zoom. Familiarize yourself with the Android interface for optimal use.

### 5.2. Using Split Screen

To activate split screen mode, open an application, then swipe up from the bottom of the screen to reveal the recent apps. Drag one app to the top or side of the screen, then select another app to fill the remaining space. You can adjust the division ratio between the two apps.

Your browser does not support the video tag.

*Video 1: This video demonstrates various functions of a PHILIPS tablet, including split-screen multitasking with Google Maps and YouTube, smooth web browsing, and camera functionality. While the video mentions model T8015, the features shown are generally applicable to the PHILIPS T7315 tablet.*

### 5.3. Wireless Projection

To project your tablet's screen wirelessly to a compatible TV or projector, navigate to Settings > Connected devices > Connection preferences > Cast. Select your desired display device from the list to begin mirroring.

### 5.4. Camera Usage

Open the Camera app from your home screen or app drawer. Tap the shutter button to take a photo. Switch between front and rear cameras using the camera icon. Tap and hold to record a video.

### 5.5. GPS Navigation

Utilize pre-installed map applications or download your preferred navigation app from the Google Play Store. The tablet's multi-satellite GPS support ensures accurate positioning for reliable navigation.

## 6. MAINTENANCE

- **Screen Protection:** The tablet comes with a pre-applied protective film. For enhanced protection, a stronger glass film (e.g., B0FG7Z433J) can be purchased and applied.
- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid using harsh chemicals or abrasive materials.
- **Battery Care:** To prolong battery life, avoid exposing the tablet to extreme temperatures.

## 7. TROUBLESHOOTING

### 7.1. Power Does Not Turn On

If the tablet does not power on, try the following steps:

1. Ensure the tablet is fully charged. Connect it to the charger for at least 30 minutes.
2. If still unresponsive, disconnect the charger, leave the tablet untouched for approximately one week (to allow for full discharge), then reconnect the charger and immediately press and hold the power button.
3. If the issue persists, please contact customer support.

### 7.2. Screen Refresh Rate Update

As of October 14, 2025, the tablet's refresh rate has been upgraded from 60Hz to 90Hz via an OTA update. To ensure your tablet has the latest update:

1. Go to "Settings" ( ).
2. Select "System" ( ).
3. Select "System Update" ( ).
4. Execute the update. (New system: Philips\_T7315\_2539\_V10\_JP)
