OPERATING INSTRUCTIONS

Converting Between Table and Bench

To convert the unit from a picnic table to a garden bench, or vice versa, carefully follow the mechanism's design. Typically, this involves releasing latches or pins and folding/unfolding the components. Ensure the area is clear of obstructions and that the conversion is performed on a stable, level surface. Always secure the unit in its desired configuration before use.

Using the Umbrella Hole

The table features a 1.57-inch diameter umbrella hole. To use, simply insert a standard patio umbrella pole into the hole. Ensure the umbrella base is stable and weighted appropriately to prevent tipping, especially in windy conditions.

MAINTENANCE AND CARE

- Cleaning:** Wipe with a dry cloth to remove dust and debris. For deeper cleaning, use a damp cloth with mild soap and water, then dry thoroughly.
- Wood Care:** As the product is made of natural fir wood, consider applying a wood sealant or stain periodically to protect it from weathering and prolong its lifespan, especially if exposed to harsh outdoor elements.
- Inspection:** Regularly check all bolts and screws for tightness and re-tighten as needed to maintain structural integrity.
- Storage:** When not in use for extended periods, especially during inclement weather, store the unit in a dry, covered area to prevent damage from moisture, extreme temperatures, or UV exposure.

TROUBLESHOOTING

- **Unit feels wobbly:** Ensure all assembly bolts and screws are fully tightened. Check that the unit is placed on a flat, level surface.
- **Difficulty converting:** Verify that no parts are obstructed or misaligned. Apply gentle, even pressure during conversion. Do not force the mechanism.
- **Wood discoloration/cracking:** This can occur due to prolonged exposure to sun and moisture. Regular application of a wood sealant or stain can help prevent this. Store indoors or cover when not in use.
