JmGO PicoPlay

JMGO PicoPlay 1080P Smart Portable Projector User Manual

Model: PicoPlay

1. INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your JMGO PicoPlay 1080P Smart Portable Projector with Projector Floor Stand. Please read this manual thoroughly before using the product to ensure proper functionality and longevity.

The JMGO PicoPlay is a versatile 1080P smart portable projector designed for various entertainment and presentation needs. It features advanced display technology and comes with a dedicated floor stand for flexible placement.

3. SETUP GUIDE

3.1 Assembling the Floor Stand

1. Unpack all components of the floor stand. Identify the base, the main pole, and the projector mounting plate.

2. Attach the main pole to the weighted base. Ensure it is securely tightened to provide stable support.

Aerospace-Grade Aluminum, Engineered for Steady Support

Reinforced with a weighted base
and premium materials to stay firmly in place,
even on uneven surfaces.

Figure 3: The weighted base of the floor stand, designed for stability.

3. Secure the projector mounting plate to the top of the main pole. The stand features a 1/4" universal screw mount.

1/4" Universal Screw Mount for Multi-Device Use

Supports projectors, phones, DSLR cameras, and more—within a 10kg weight limit.

Figure 4: The 1/4" universal screw mount at the top of the stand, compatible with various devices.

3.2 Placing the Projector

1. Carefully place the JMGO PicoPlay projector onto the mounting plate of the assembled stand. Align the projector's mounting hole with the screw on the stand.
2. Tighten the screw to secure the projector firmly to the stand.

Designed by JMGO, Made to Elevate Any Home

The all-in-one minimalist stand blends effortlessly into any décor—from modern to classic interiors.

Figure 5: The JMGO PicoPlay projector seamlessly integrated with its stand in a modern interior.

3. Position the projector and stand in your desired viewing area. Ensure there is adequate space for the projected image and proper ventilation around the projector.

3.3 Power Connection

1. Connect the power adapter to the projector's power input port.
2. Plug the other end of the power adapter into a wall outlet.
3. The projector will typically indicate power status with an LED light.

4. OPERATING INSTRUCTIONS

4.1 Initial Power On and Setup

1. Press the power button on the projector or the remote control to turn on the device.
2. Follow the on-screen prompts for initial setup, including language selection, Wi-Fi connection, and account login (if applicable).

4.2 Image Adjustment

The JMGO PicoPlay features automatic image correction capabilities:

- **Auto Focus:** The projector automatically adjusts the focus for a clear image.
- **Auto Keystone Correction:** Corrects trapezoidal distortion to ensure a rectangular image, even if the projector is not perfectly aligned.
- **Smart Screen Alignment:** Automatically adjusts the image to fit the screen or wall.
- **Eye Protection:** Features designed to reduce eye strain during prolonged viewing.

Instant Gimbal-like Display Correction

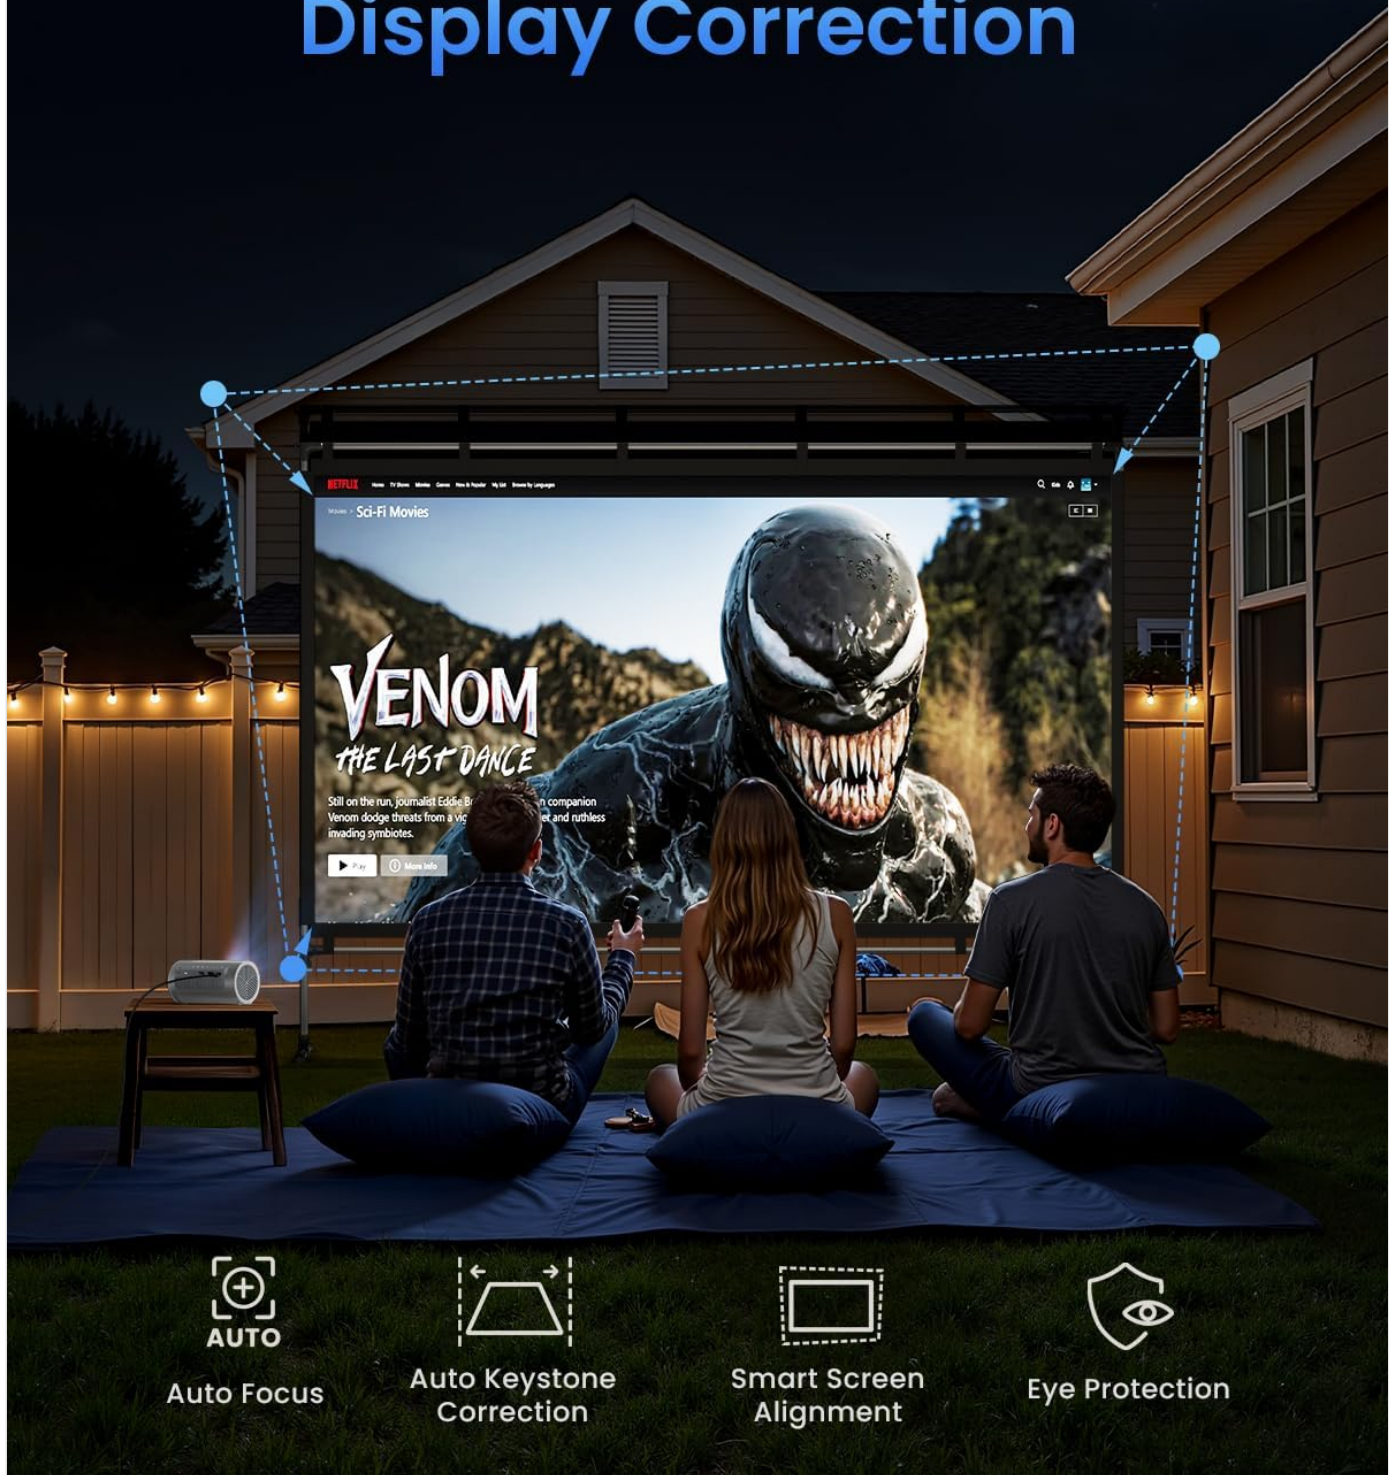

Figure 6: The projector's automatic correction features, including auto focus and keystone correction, ensuring a perfect display.

4.3 Content Playback

The PicoPlay supports various content sources and modes:

- **Streaming Apps:** Access pre-installed streaming services (e.g., Netflix, YouTube TV, Google TV) via Wi-Fi.
- **External Devices:** Connect devices via available input ports (e.g., HDMI, USB - check specific model ports).
- **Bluetooth Speaker Mode:** Use the PicoPlay as a standalone Bluetooth speaker.

- **Aurora Light Creator:** Engage the projector's ambient light features for a unique atmosphere.

More Than a Projector

Figure 7: The PicoPlay's multi-functional capabilities, serving as a mini projector, Bluetooth speaker, and an aurora light creator.

4.4 Portrait Full-Screen Mode

The projector supports a unique portrait full-screen mode, ideal for viewing vertical content such as social media feeds or specific video formats.

5. MAINTENANCE

5.1 Cleaning the Projector

- **Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners or excessive force.

- **Exterior:** Wipe the projector's exterior with a dry, soft cloth. For stubborn marks, slightly dampen the cloth with water, then wipe dry.

5.2 Storage

When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to use the original packaging for storage to protect against dust and physical damage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No Power	Power cable not connected; Power outlet faulty.	Ensure power cable is securely connected. Try a different power outlet.
No Image Displayed	Input source not selected; Lens cap on; Projector in standby.	Select correct input source. Remove lens cap. Press power button to wake from standby.
Blurred Image	Out of focus; Projector too close/far from screen.	Allow auto-focus to adjust. Adjust projector distance from screen.
No Sound	Volume too low; Muted; External audio device not connected.	Increase volume. Unmute. Check external audio connections.

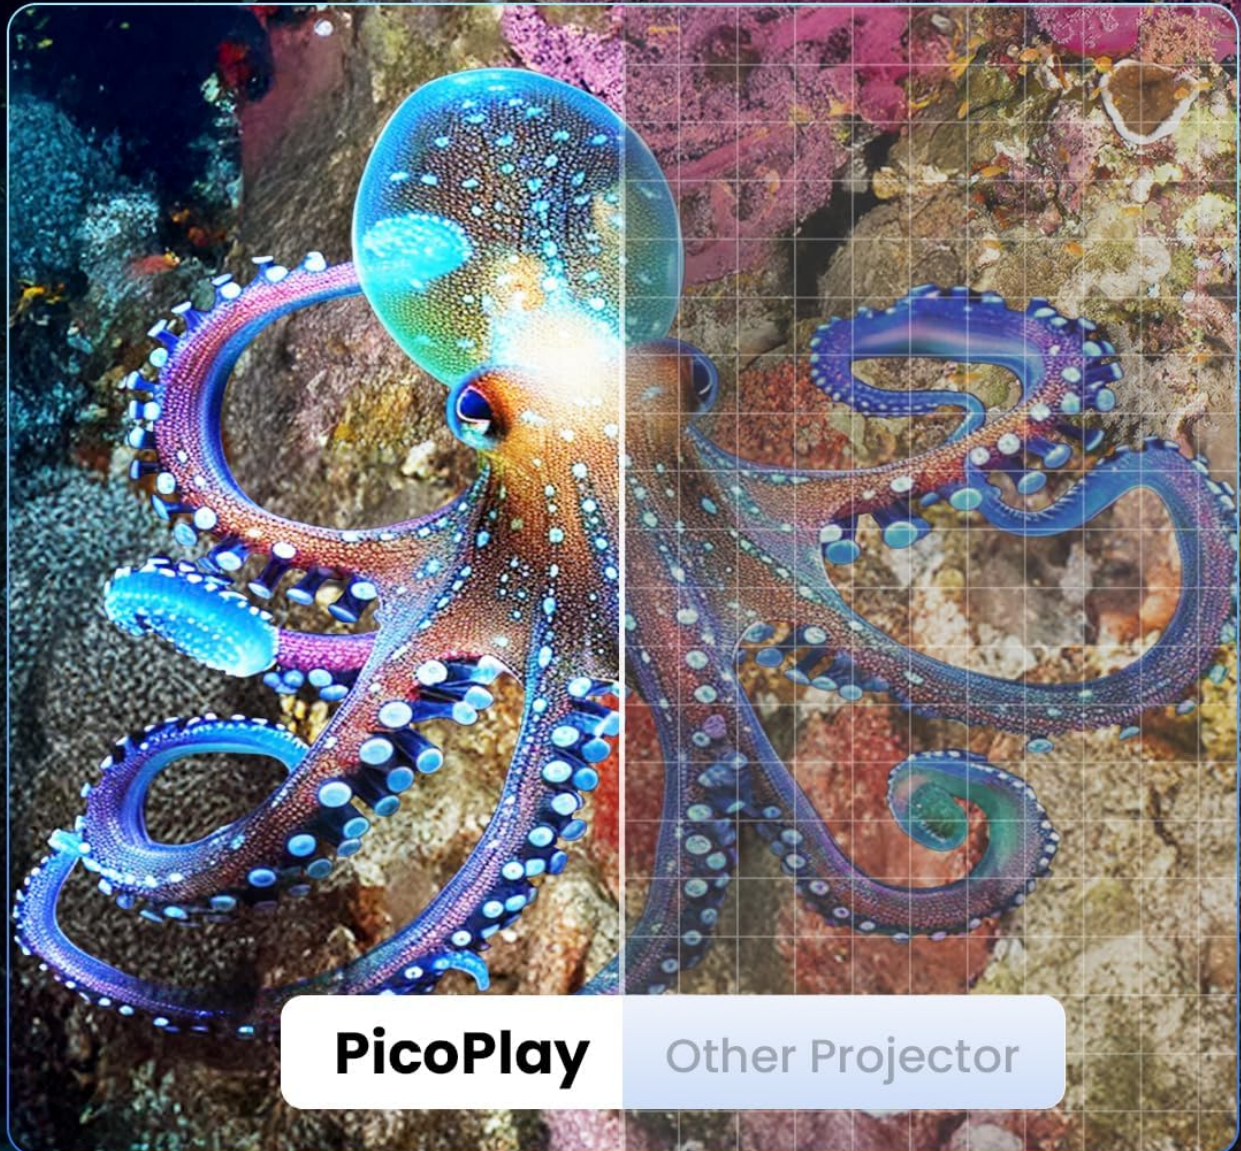

If the issue persists after attempting these solutions, please contact customer support.
