5. OPERATING INSTRUCTIONS

This remote control operates via infrared (IR) signals. Ensure there is a clear line of sight between the remote control and the air conditioner's IR receiver for proper function.

5.1 Power On/Off

Press the **Power** button () located in the center of the circular control pad to turn the air conditioner on or off.

5.2 Temperature Adjustment

Use the **+** and **-** buttons on the circular control pad to increase or decrease the desired temperature setting.

5.3 Mode Selection

Press the **MODE** button (above the power button) to cycle through the available operating modes (e.g., Cool, Heat, Fan, Dry, Auto).

5.4 Fan Speed Adjustment

Press the **FAN** button (below the power button) to adjust the fan speed settings (e.g., Low, Medium, High, Auto).

5.5 Menu and Settings

The **MENU** and **SET** buttons (left rectangular button) are used to access and confirm additional settings or functions within the air conditioner's menu system. Refer to your air conditioner's specific manual for detailed menu options.

5.6 Swing Function

Press the **SWING** button (top of the right rectangular button) to activate or deactivate the automatic louver swing function, which helps distribute air evenly.

5.7 Turbo Function

Press the **TURBO** button (bottom of the right rectangular button) to quickly reach the desired temperature by operating the air conditioner at maximum power for a short period.

6. MAINTENANCE

6.1 Cleaning the Remote Control

- Wipe the surface of the remote control with a soft, dry cloth.
- Do not use liquid cleaners, abrasive cleaners, or chemical solvents, as these may damage the remote's surface or internal components.

6.2 Battery Replacement

- Replace batteries when the remote control's response becomes sluggish or the display dims.
- Always replace both batteries at the same time with new AAA batteries.
- Remove batteries if the remote control will not be used for an extended period to prevent leakage.

7. TROUBLESHOOTING
