MAINTENANCE

To ensure the longevity and appearance of your SICOTAS dresser, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surface with a clean, soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Immediately wipe up any spills to prevent water damage or staining.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Placement:** Avoid placing the dresser in direct sunlight or near heat sources, as this can cause warping or fading.

TROUBLESHOOTING

If you encounter any issues with your dresser, please refer to the following common troubleshooting tips:

- **Drawers sticking or not closing properly:** Check for any items obstructing the drawer slides. Ensure the dresser is on a level surface; uneven flooring can affect drawer alignment. Verify that the drawer slides are properly installed and lubricated if needed.
- **Dresser wobbles or feels unstable:** Confirm that all assembly hardware is securely tightened. Utilize the adjustable feet (if applicable) to level the dresser on uneven floors. Ensure the anti-tip wall anchor is properly installed and secured to a wall stud.
- **Minor surface scratches:** For small blemishes, a furniture repair marker matching the dark grey oak finish can be used to minimize visibility.
