8. TROUBLESHOOTING

If you encounter issues with your DOOGEE Fire 3 Pro, consider the following common solutions:

- **Device not powering on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- **Poor network signal:** Check your SIM card insertion. Ensure you are within network coverage. Note that Verizon/Cricket and AT&T are not supported.
- **Apps crashing or freezing:** Close background applications. Clear the cache of the problematic app or reinstall it. If the issue persists, consider a factory reset (back up your data first).
- **Touchscreen unresponsive:** Restart the device. If unresponsive, force restart by holding the power button for an extended period.
- **Water or dust exposure:** While the phone is rugged, ensure all port covers are securely closed before exposure to water or dust. If wet, dry thoroughly before charging.

For more complex issues, refer to the official DOOGEE support resources.
