## 4. SETUP AND ASSEMBLY

Assembly is required for this product. It is recommended to have two people for easier and safer assembly. Tools are not included.

1. **Prepare the Area:** Clear a spacious, clean, and flat area for assembly. Lay down a blanket or cardboard to protect the desk components and your floor.
2. **Unpack and Identify:** Carefully unpack all parts and hardware. Compare them with the components list and the assembly diagram provided in the separate instruction manual to ensure everything is present.
3. **Assemble the Frame:** Begin by attaching the side panels to the crossbars using the provided hardware. Ensure all connections are secure but do not overtighten screws until the entire frame is loosely assembled.
4. **Attach the Desktop:** Carefully place the desktop onto the assembled frame. Align the pre-drilled holes and secure the desktop using the appropriate screws.
5. **Assemble and Install Drawers:** Assemble the two drawer boxes according to the instructions. Attach the drawer handles. Slide the assembled drawers into their respective slots in the desk frame.
6. **Install Power Strip:** Secure the built-in power strip to the designated area on the desk, typically on the side or back, using the provided screws.
7. **Final Tightening and Inspection:** Once all components are in place, carefully tighten all screws and connections. Ensure the desk is stable and level. Adjust as necessary.

- **Opening:** Gently pull the metal handles to open the drawers.
- **Closing:** Push the drawers firmly until they are fully closed.
- **Storage:** Utilize the drawers for storing office supplies, documents, or personal items to maintain a tidy workspace.

## 6. MAINTENANCE

Proper care and maintenance will extend the life and appearance of your YOMILUVE desk.

Figure 6.1: The desk's surface is designed to be waterproof and dirt-repellent.

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the finish.
- **Spills:** Immediately wipe up any spills to prevent staining or water damage, especially on the desktop.
- **Protection:** Use coasters for drinks and placemats for hot items to protect the desktop from heat and moisture rings.
- **Hardware:** Periodically check and tighten all screws and connections to ensure the desk remains stable.
- **Environment:** Avoid placing the desk in direct sunlight or near heat sources, as this can cause fading or warping of the wood.

## 7. TROUBLESHOOTING

If you encounter any issues with your desk, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Desk is wobbly or unstable	Loose hardware; uneven floor	Check and tighten all screws and bolts. Ensure the desk is on a level surface; use furniture pads if necessary.
Drawers do not slide smoothly	Misaligned drawer slides; obstruction	Ensure drawers are assembled correctly and slides are aligned. Check for any objects obstructing the drawer path.
Power outlets are not working	Desk not plugged in; faulty wall outlet; overloaded circuit	Verify the desk's power cord is securely plugged into a functional wall outlet. Test the wall outlet with another device. Reduce the number of devices plugged into the power strip.
