Juskys Lilia Dressing Table with LED Mirror User Manual

Model: 301761

INTRODUCTION

Thank you for choosing the Juskys Lilia Dressing Table with LED Mirror. This modern dressing table, featuring seven drawers and an integrated LED mirror, is designed to provide ample storage and optimal lighting for your daily routine. This manual provides essential information for safe assembly, operation, maintenance, and troubleshooting to ensure long-lasting enjoyment of your product.

SAFETY INSTRUCTIONS

Please read all instructions carefully before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always follow the assembly instructions provided with the product.
- Ensure all electrical components, especially the LED lamp set, are handled according to safety guidelines.
- Use only the included parts and tools for assembly. Do not substitute parts.
- Verify that the dressing table is stable and securely assembled before use.
- Do not overload the dressing table or its drawers. The maximum load capacity is 50 kg.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Inspect the product for any damage upon delivery. Do not proceed with assembly if significant damage is found; contact customer support.

PACKAGE CONTENTS

Before beginning assembly, please ensure all components listed below are present and undamaged. If any parts are missing or damaged, please contact Juskys customer support.

- 1 x Dressing Table (disassembled components)
- 1 x LED Lamp Set
- 1 x Mounting Material (screws, dowels, etc.)
- 1 x Instruction Manual (this document and/or a printed version)

Note: Product images showing package contents would be placed here if available.

SETUP AND ASSEMBLY

The Juskys Lilia Dressing Table is supplied as a self-assembly kit. Follow the detailed step-by-step instructions provided in the separate assembly guide included in your package. All parts are typically numbered for easier identification.

1. **Unpack and Inspect:** Carefully unpack all components and check them against the parts list in the assembly guide. Inspect for any manufacturing defects or transit damage.
2. **Prepare Workspace:** Clear a spacious, clean, and level area for assembly. Lay down a soft cloth or cardboard to protect the furniture surfaces.
3. **Follow Assembly Guide:** Adhere strictly to the numerical sequence of steps in the provided assembly guide.
4. **Handle with Care:** Engineered wood can be susceptible to damage if screws are overtightened. Apply appropriate force to secure connections without stripping screws or cracking the material.
5. **LED Mirror Installation:** Integrate the LED lamp set as directed in the assembly guide. Ensure all electrical connections are secure before plugging into a power source.
6. **Final Check:** Once assembled, ensure all screws are tightened, and the dressing table is stable and level.

Note: Assembly diagrams and images of key steps would be placed here if available.

OPERATING INSTRUCTIONS (LED MIRROR)

The integrated LED mirror features adjustable brightness and color temperature to suit your preferences and lighting needs.

- **Power On/Off:** Locate the power button or touch sensor on the mirror. Press once to turn the LED lights on or off.
- **Adjust Brightness:** While the lights are on, press and hold the power button or use the designated brightness control (if separate) to cycle through brightness levels. Release when the desired brightness is achieved.
- **Change Color Temperature:** The mirror offers multiple color temperature settings (e.g., 3000K warm white, 4500K neutral white, 6000K cool white). Use the dedicated button or a specific touch gesture (refer to the assembly guide for details) to switch between these settings.

Note: A video demonstrating LED mirror operation would be placed here if available.

MAINTENANCE

Proper care will help maintain the appearance and longevity of your Juskys Lilia Dressing Table.

- **Cleaning:** Regularly clean the dressing table surfaces with a damp cloth. Immediately wipe dry with a clean, dry cloth to prevent water marks or moisture damage to the melamine coating.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the finish.
- **Mirror Care:** Clean the mirror surface with a glass cleaner and a soft, lint-free cloth. Avoid spraying cleaner directly onto the LED components.

- **Prevent Scratches:** Use coasters or protective pads under items placed on the table surface to prevent scratches.
- **Check Connections:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

If you encounter issues with your dressing table, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
LED mirror does not light up.	Power cable not connected; faulty power outlet; loose connection in LED set.	Ensure the power cable is securely plugged into a working outlet. Check all connections within the LED lamp set.
Dressing table is wobbly or unstable.	Screws are loose; uneven floor; incorrect assembly.	Check and tighten all assembly screws. Ensure the table is on a level surface. Review assembly steps.
Parts are missing or damaged upon arrival.	Shipping damage; packaging error.	Do not proceed with assembly. Contact Juskys customer support immediately with your purchase details and a description of the issue.
Material damage during assembly (e.g., cracks).	Overtightening screws; improper handling.	Always follow assembly instructions carefully and avoid overtightening screws. If damage occurs, contact customer support for replacement parts.

SPECIFICATIONS

Brand	Juskys
Model Number	301761
Color	White
Material	Engineered Wood (Chipboard, melamine-coated)
Dimensions (W x D x H)	108 x 41 x 140 cm (approx. 42.52"W x 16.14"D x 55.12"H)
Item Weight	Approx. 45 kg (97.9 pounds)
Load Capacity	Max. 50 kg
LED Mirror	Integrated with 10 lamps, infinitely adjustable brightness and color temperature
Color Temperature	3000K / 4500K / 6000K

Luminous Flux	223 lm
Energy Consumption	5 kWh/1000 h
Assembly Required	Yes
