CARE AND MAINTENANCE

Proper care will extend the life and appearance of your Madesa Venus Wardrobe.

Cleaning:

- Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the rustic finish and engineered wood material.
- For stubborn marks, use a mild soap solution and immediately dry with a clean cloth.

General Care:

- Avoid exposing the wardrobe to direct sunlight or extreme temperature changes, which can cause warping or fading.
- Do not place hot items directly on the surface without protection.
- Periodically check all screws and fittings to ensure they are tight. Retighten if necessary to maintain structural integrity.
- Ensure the wardrobe is placed on a level surface to prevent doors and drawers from misaligning.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Doors do not close properly:

- Check if the wardrobe is level. Adjust the feet or place shims underneath if needed.
- Inspect hinges for any loose screws and tighten them.
- Ensure nothing is obstructing the door's path inside the wardrobe.

Drawers are stiff or difficult to open/close:

- Verify that the drawer slides are clean and free of debris.
- Check if the drawer is overloaded, exceeding its weight capacity.
- Ensure the drawer is correctly seated on its slides.

Wobbling or instability:

- Confirm all assembly screws and fasteners are securely tightened.
- Ensure the wardrobe is on a flat, stable surface.
- Do not attempt to move the wardrobe while fully loaded. Empty it first.
