Samsung Flip7 Anti-Reflecting Film

Samsung Galaxy Flip7 Anti-Reflecting Film User Manual

Model: Flip7 Anti-Reflecting Film (EF-UF766)

Introduction

The Samsung Galaxy Flip7 Anti-Reflecting Film is designed to provide enhanced protection and improved visibility for your device's display. This high-quality optical film offers super low reflection performance, ensuring excellent visibility even in direct sunlight. It also protects your screen from scratches, dust, and fingerprints, while maintaining high transmittance and low haze for a clear viewing experience. This film is optimized for the Samsung Galaxy Flip7, ensuring a perfect fit and compatibility with official Samsung cases.

Package Contents

Please verify that all items listed below are included in your package:

- Anti-Reflecting Film (2 pieces)
- Dust Removal Stickers (2 pieces)
- Applicator Tool
- Cleaning Cloth

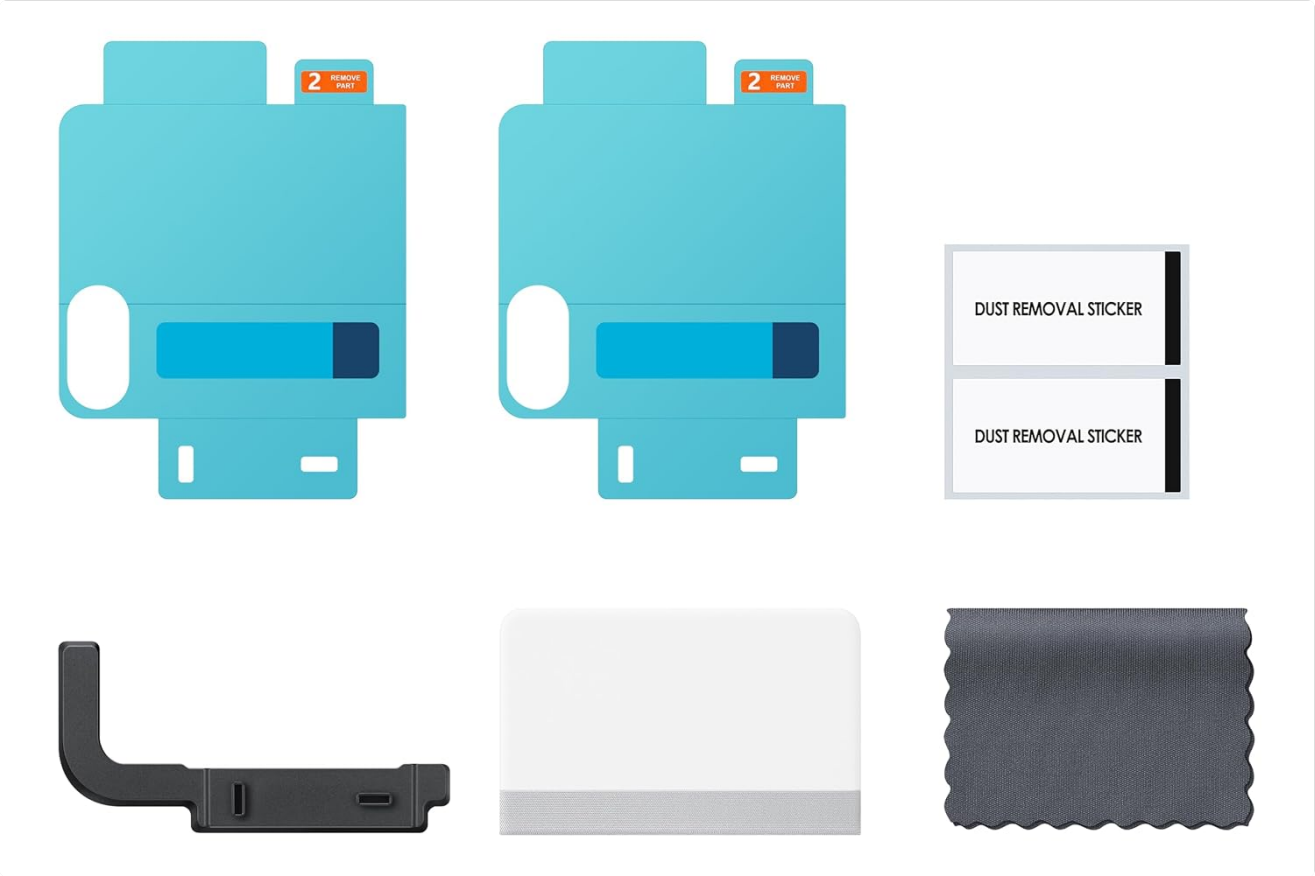

Image: The package includes two anti-reflecting films, two dust removal stickers, a white applicator card, a black applicator tool, and a gray cleaning cloth.

Installation Guide

Follow these steps carefully for optimal application of your anti-reflecting film:

1. **Preparation:** Ensure your Samsung Galaxy Flip7 screen is completely clean and free of dust, smudges, and fingerprints. Use the provided cleaning cloth to wipe the screen thoroughly. For stubborn dust particles, use the dust removal stickers to lift them off the screen.
2. **Alignment:** Carefully peel off the protective layer labeled '1' from the film. Align the film precisely with your device's screen, paying close attention to the camera cutout and edges. Do not press down yet.
3. **Application:** Once aligned, gently place the film onto the screen. Use the applicator tool to slowly press down the film from one end to the other, pushing out any air bubbles as you go. Apply even pressure.
4. **Finishing:** After the film is fully adhered, carefully peel off the top protective layer labeled '2'. If any small bubbles remain, gently push them towards the nearest edge with the cleaning cloth or applicator tool. Some minor bubbles may disappear naturally within 24-48 hours.

Usage and Care

The anti-reflecting film is designed for daily use and offers robust protection. Its anti-fingerprint and anti-scratch properties help maintain a clear screen. To clean the film, gently wipe it with the provided cleaning cloth or a soft, lint-free cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the film's surface. The film is also wireless charging compatible.

Troubleshooting

- **Bubbles after installation:** Small bubbles often disappear within 24-48 hours. For larger bubbles, try gently lifting the nearest edge of the film and reapplying with the applicator tool, pushing the air out. Ensure the screen is dust-free before reapplication.
- **Dust particles trapped under film:** If dust is trapped, carefully lift the film near the dust particle using a piece of tape. Use another piece of tape to gently dab and remove the dust from both the screen and the film's adhesive side. Reapply the film.
- **Film not adhering properly:** Ensure the screen was thoroughly cleaned and dry before application. Avoid touching the adhesive side of the film during installation.

Product Specifications

Brand	Samsung
Model Name	Anti-Reflecting Film
Model Number	EF-UF766
Compatible Devices	Samsung Galaxy Flip7
Material	Optical Film
Item Hardness	3H
Special Features	Anti-Fingerprint, Anti-Yellowing, Wireless Charging Compatible, Anti-Reflecting
Screen Surface Description	Matte
Clarity	10
Item Weight	2 Grams
Number of Items	3 (Film is 1 count, but package contains 3 items including film, stickers, cloth)
