

SPYPOINT FORCE-PRO

SPYPOINT FORCE-PRO 30 Megapixel 4K Trail Camera User Manual

Model: FORCE-PRO

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your SPYPOINT FORCE-PRO 30 Megapixel 4K Trail Camera. Designed for outdoor monitoring, this camera captures high-resolution photos and videos, making it ideal for wildlife observation and security. Please read this manual thoroughly to ensure proper use and optimal performance of your device.

PACKAGE CONTENTS

Verify that all items listed below are present in your package. If any items are missing or damaged, please contact SPYPOINT customer support.

- 2 x SPYPOINT FORCE-PRO 30 Megapixel Trail Camera
- 2 x SPYPOINT MicroSD 32GB Ultra High Speed Class 10 Memory Card
- 1 x Focus All-In-One High Speed Card Reader

WHAT'S IN THE BOX

- **2 x Spypoint FORCE-PRO 30 Megapixel Trail Camera**
- **2 x Spypoint MicroSD 32GB Memory Card**
- **Focus All-In-One High Speed Card Reader**

Image: The package contents, showing one SPYPOINT FORCE-PRO camera, one 32GB MicroSD card, and the Focus All-In-One High Speed Card Reader. Note: The bundle includes two cameras and two SD cards.

PRODUCT OVERVIEW

The SPYPOINT FORCE-PRO is a robust trail camera designed for reliable performance in outdoor environments. It features advanced imaging capabilities and user-friendly controls.

Key Features

- **High Resolution:** 30 Megapixel photos and 4K video recording with sound.
- **Fast Trigger Speed:** Ultra-fast 0.2-second trigger speed to capture quick movements.
- **Wide Detection Range:** 110-foot detection range.
- **Powerful Flash:** 90-foot flash range with 54 LEDs for clear night images.
- **Integrated Solar Panel:** For extended battery life and reduced maintenance.
- **Dual-SIM Cellular:** Automatically connects to the best available network for reliable transmission (if cellular model).

Image: The SPYPOINT FORCE-PRO trail camera bundle, showcasing two cameras and included accessories.

The infographic features a central image of the SPYPOINT FORCE-PRO-S trail camera, which is black and grey with a camouflage pattern. It is set against a dark, textured wooden background with some antlers visible. To the right of the camera, several specifications are listed in large, bold, white numbers, each underlined with a thin orange line. Below these specifications, the text 'FORCE-PRO' is written in large, white, sans-serif capital letters, followed by the 'SPYPOINT' logo in orange and black. The specifications listed are:

- 4K** VIDEOS WITH SOUND
- 30** MEGAPIXELS
- 0.2s** TRIGGER SPEED
- 110'** DETECTION RANGE
- 90'** FLASH RANGE
- 54** LED

Image: An infographic highlighting the core specifications of the FORCE-PRO camera, including video resolution, photo megapixels, trigger speed, and flash capabilities.

YOUR **ENTIRE HUNT** IN THE PALM OF YOUR HAND

Effortlessly manage cameras, photos, and videos while accessing customizable maps and real-time weather updates from virtually any location.

Image: Screenshots of the SPYPOINT mobile application, demonstrating how users can manage cameras, view photos and videos, and perform firmware updates remotely.

Image: A smartphone displaying high-quality 4K video footage captured by the camera, set against a scenic outdoor backdrop.

SETUP

1. Power Source Installation

The FORCE-PRO camera is equipped with an integrated solar panel for charging its internal battery. For initial setup or extended use without sufficient sunlight, an external power source can be used.

1. **Internal Battery:** Ensure the camera's internal battery is charged. The integrated solar panel will charge it during daylight hours.
2. **External Power (Optional):** If using an external 12V power source (not included), connect it to the camera's 12V jack.

2. MicroSD Card Insertion

A MicroSD card is required to store photos and videos. Two 32GB MicroSD cards are included in this bundle.

1. Locate the MicroSD card slot on the camera.

2. Insert the MicroSD card with the gold contacts facing the back of the camera until it clicks into place.
3. To remove, press the card gently until it springs out.

3. Initial Power On and Basic Configuration

1. Turn the camera ON using the power switch.
2. Follow the on-screen prompts (if available) or refer to the camera's menu for initial settings such as date, time, and language.
3. Format the MicroSD card through the camera's menu for optimal performance.

4. Mounting the Camera

The camera can be mounted using a strap, tripod, or other compatible mounting accessories. While specifications mention 'Tabletop Mount', for outdoor use, secure mounting is crucial.

- Choose a location that provides a clear view of the desired monitoring area.
- Ensure the camera is securely fastened to prevent movement from wind or animals.
- Position the camera to avoid direct sunlight into the lens, which can cause overexposure.

OPERATING INSTRUCTIONS

Camera Modes

- **Photo Mode:** Captures still images when triggered.
- **Video Mode:** Records video clips when triggered.
- **Photo + Video Mode:** Captures a photo followed by a video clip.

Adjusting Settings

Access the camera's menu using the built-in screen and navigation buttons to customize settings:

- **Resolution:** Select desired photo (up to 30MP) and video (up to 4K) resolution. Higher resolutions consume more storage.
- **Trigger Delay:** Set the delay between consecutive triggers.
- **Sensitivity:** Adjust the motion sensor sensitivity to suit the environment and avoid false triggers.
- **Operating Hours:** Define specific times the camera should be active.
- **Date/Time Stamp:** Enable or disable the date and time overlay on images/videos.

Data Retrieval

- **MicroSD Card:** Remove the MicroSD card from the camera and insert it into the included Focus All-In-One High Speed Card Reader. Connect the card reader to a computer to access files.
- **SPYPOINT App:** For cellular models, use the SPYPOINT mobile application to view and manage captured media remotely. The app also allows for camera settings adjustments and firmware updates.

MAINTENANCE

- **Cleaning:** Regularly clean the camera lens and housing with a soft, dry cloth. Avoid abrasive

materials or harsh chemicals.

- **Battery Check:** Monitor battery levels, especially during periods of low sunlight. The integrated solar panel helps maintain charge, but supplemental charging may be needed.
- **Firmware Updates:** Periodically check for and install firmware updates via the SPYPOINT app or website to ensure optimal performance and access to new features.
- **Storage:** When not in use, store the camera in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

- **Camera Not Triggering:** Check motion sensor sensitivity, ensure no obstructions, and verify battery level.
- **Poor Image/Video Quality:** Clean the lens, check resolution settings, and ensure proper lighting conditions.
- **Power Issues:** Ensure the internal battery is charged or an external power source is properly connected. Check for any damage to power cables.
- **MicroSD Card Errors:** Reformat the MicroSD card (backing up data first) or try a different card. Ensure the card is properly inserted.
- **Connectivity Problems (Cellular Models):** Verify cellular signal strength in the camera's location. Check your SPYPOINT app for data plan status.

SPECIFICATIONS

Feature	Specification
Model	FORCE-PRO
Photo Resolution	30 Megapixels
Video Resolution	4K
Trigger Speed	0.2 seconds
Detection Range	110 feet
Flash Range	90 feet
LEDs	54
Power Source	Integrated Solar Panel, Corded Electric (external 12V option)
Connectivity	USB, Wired (for data transfer), Cellular (for remote management)
Material	Plastic
Water Resistance	Water Resistant
Focus Type	Auto Focus
UPC	196271434986

WARRANTY AND SUPPORT

For warranty information, technical support, or service inquiries, please refer to the official SPYPOINT website or contact their customer service department directly. Keep your proof of purchase for warranty claims.
