## INTRODUCTION

This manual provides detailed instructions for the ANPABO 24V 2-Seater Electric Ride-On Car, Model 3558. This vehicle is designed for children aged 3 to 12 years, offering a safe and engaging driving experience. It features a robust 24V power system with four 200W motors, enabling speeds up to 5.1 mph, and is equipped with real enhanced suspension and wear-resistant tires for various terrains. The spacious two-seater design includes adjustable seatbelts, accommodating two toddlers (2-3 years) or one child (3-12 years) up to a maximum load of 140 pounds. For enhanced safety, it includes a parent remote control with three-speed settings and an emergency stop function. Additional features include integrated rainbow accent lights, headlights, a built-in music player, and Bluetooth connectivity for external audio. Please read this manual thoroughly before assembly and operation to ensure proper use and safety.

## SETUP AND ASSEMBLY

The ANPABO 24V 2-Seater Electric Ride-On Car requires assembly. Follow the steps below and refer to the provided video for visual guidance. Assembly typically takes approximately one hour.

### Assembly Steps:

1. **Connect Drive Motor Wires:** Connect the drive motor wires to the corresponding cables on both sides of the vehicle body. Ensure connections are secure.
2. **Install Wheels:** Attach the wheels to the axles. Secure them with the provided fasteners.
3. **Install Underbody Plates:** Secure the underbody protection plates to the chassis.
4. **Install Seats:** Place the seats into position and secure them according to the instructions.
5. **Install Steering Wheel:** Attach the steering wheel to the steering column.

6. **Connect Battery:** Connect the battery terminals. Ensure correct polarity.
7. **Final Checks:** Before first use, ensure all connections are tight, all parts are securely fastened, and the vehicle is fully charged.

## OPERATING INSTRUCTIONS

The ANPABO 24V Ride-On Car offers two primary driving modes: child-operated and parent remote control. Familiarize yourself with both modes for safe and enjoyable operation.

## Driving Modes:

- **Child-Operated Mode:** The child can drive the vehicle using the steering wheel and foot pedal. This mode is recommended for older children who have developed sufficient motor skills and understanding of vehicle controls.
- **Parent Remote Control Mode:** Parents can control the vehicle's direction and speed using the included 2.4GHz Bluetooth remote control. This mode is ideal for younger children or for situations requiring immediate parental intervention. The remote features three-speed settings (low, medium, high) and an emergency stop button.

## Key Features and Functions:

- **Speed Settings:** The vehicle has multiple speed settings, adjustable via the remote control or the in-car controls. Always start at the lowest speed for new drivers.
- **Emergency Stop:** The parent remote control includes an emergency stop button (P) to immediately halt the vehicle for safety.
- **Rainbow Accent Lights:** Turn on the light switch to activate the color-cycling rainbow lights on the hood. Headlights are also present for visibility.
- **Music and Bluetooth:** The built-in music player offers pre-loaded tunes. Connect a Bluetooth-enabled device to play custom music or stories. A USB port is also available for media playback.
- **Storage:** Utilize the convenient storage area for toys, snacks, or other small items during rides.

## MAINTENANCE

---

Regular maintenance ensures the longevity and safe operation of your ANPABO 24V Ride-On Car.

### Battery Care:

- **Charging:** Use only the provided charger. Charge the battery for the recommended duration (typically 8-12 hours) before first use and after each use. Do not overcharge.
- **Storage:** If storing the vehicle for an extended period, fully charge the battery and then disconnect it. Recharge every 3 months to maintain battery health.
- **Replacement:** If the battery performance significantly degrades, it may need replacement. Use only genuine ANPABO replacement batteries.

### General Care:

- **Cleaning:** Wipe the vehicle with a damp cloth. Avoid using harsh chemicals or abrasive cleaners. Do not spray water directly onto electrical components.
- **Tire Inspection:** Regularly check tires for wear and tear. Ensure they are free from debris that could affect performance.
- **Fasteners:** Periodically check all screws, bolts, and connections to ensure they are tight and secure.
- **Storage Environment:** Store the vehicle in a dry, covered area away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

---

This section addresses common issues you might encounter with your ANPABO 24V Ride-On Car.

### Common Issues and Solutions:

Problem	Possible Cause	Solution
Vehicle does not move	Battery is low or not connected; Power switch is off; Loose motor wire connection; Remote control not paired or batteries dead.	Charge the battery; Turn on the power switch; Check and secure motor wire connections; Replace remote control batteries (2 x 1.5 AAA, not included) or re-pair.
Vehicle moves slowly	Low battery; Overload (exceeding 140 lbs); Driving on unsuitable terrain (e.g., very steep hills, thick grass).	Fully charge the battery; Reduce load; Drive on appropriate surfaces.
Remote control not working	Batteries dead or incorrectly inserted; Not paired with the vehicle; Interference.	Replace batteries (2 x 1.5 AAA); Follow pairing instructions in the remote control manual; Move to an area with less interference.
Lights not working	Light switch is off; Loose connection.	Turn on the light switch; Check light connections.
Music/Bluetooth not working	Volume too low; Bluetooth device not connected; USB device not recognized.	Adjust volume; Ensure Bluetooth device is correctly paired; Check USB device compatibility and format.

If you encounter an issue not listed here or if the suggested solutions do not resolve the problem, please contact customer support.

## SPECIFICATIONS

Feature	Detail
Brand	ANPABO
Model Number	3558
Power Motors	4 x 200W
