SETUP

The BIRANCO. Deluxe Beading Set requires minimal setup, allowing for immediate creative play.

1. Unpack the storage container from its packaging.
2. Open the lid of the storage container to access the pop beads and insect components.
3. Ensure all small parts are kept away from very young children who may put them in their mouths. Adult supervision is recommended for children aged 3-8.

The beading set is ready for use directly from its storage container.

OPERATING INSTRUCTIONS

Assembling Your Creations

The pop beads are designed for easy connection without the need for string, glue, or tools. Each bead has a unique shape that allows it to snap securely into another.

1. Select two beads you wish to connect.
2. Align the male end of one bead with the female receptacle of another.
3. Gently push the two beads together until you hear or feel a click, indicating they are securely fastened.
4. Continue adding beads in this manner to create necklaces, bracelets, rings, or other decorative items.

Jewelry Designer's Dream

Simple but fun to make necklaces, bracelets and rings and so on.

Creative Play and Design

Encourage experimentation with different bead shapes, colors, and insect components to create unique designs. The possibilities are endless, from simple bracelets to elaborate necklaces and rings. Children can also share and combine beads with friends for collaborative projects.

MAINTENANCE

To ensure the longevity and hygiene of your BIRANCO. Deluxe Beading Set, follow these simple maintenance guidelines:

- **Cleaning:** The beads can be easily cleaned with mild soap and water. Rinse thoroughly and allow them to air dry completely before storing.
- **Storage:** Always store the beads and components in the provided storage container when not in use. This helps prevent loss of pieces and keeps the set organized.

Easy To Clean

You can clean them every time before your child playing them.

The beads are waterproof and can be easily cleaned.

TROUBLESHOOTING

Beads are difficult to snap together:

Ensure that the male and female ends are correctly aligned. Some beads may require a firm push to connect, especially when new. If a bead consistently fails to connect, inspect it for any deformities or debris.

Completed jewelry falls apart easily:

Verify that each bead connection has been fully secured with a distinct click. Loose connections can lead to the structure coming apart. Re-snap any loose beads firmly.

Missing pieces:

Always store all beads and components in the provided container after use to prevent loss. If pieces are missing upon initial unboxing, please contact customer support.
