Image 1.2: The Gizoon 71" H Storage Cabinet functioning as a kitchen pantry.

2. SAFETY INFORMATION

- Always assemble the cabinet according to the provided instructions to prevent tipping.
- Keep the cabinet away from heat sources and hot appliances.
- Never insert objects into the power outlets or USB ports while they are in use.
- Always unplug the cabinet when not in use or when cleaning.
- Ensure the anti-tip hardware is properly installed to secure the cabinet to the wall.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- 1 x Pantry Cabinet (unassembled parts)
- 1 x Hardware Pack (screws, dowels, connectors, etc.)

- 1 x Instruction Manual
- Anti-tip hardware

4. SETUP AND ASSEMBLY

The assembly process is designed to be straightforward. Follow the numbered parts and clear instructions provided in the included instruction manual. It is recommended to assemble the cabinet on a soft, clean surface to prevent scratches.

4.1. Dimensions Overview

Image 4.1: Detailed dimensions of the storage cabinet.

4.2. Anti-Tipping Device Installation

For safety, install the anti-tipping device as instructed in the assembly manual. This device secures the cabinet to the wall, preventing accidental tipping.

6. MAINTENANCE

To ensure the longevity and appearance of your Gizoon storage cabinet, follow these maintenance guidelines:

- **Cleaning:** The product surface is designed to be easy to scrub. Use a soft, damp cloth with a mild cleaner to wipe down surfaces. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Spills:** Wipe up spills immediately to prevent staining or damage to the wood.
- **General Care:** Periodically check all hardware and tighten if necessary to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your Gizoon 71" H Storage Cabinet, please refer to the following common solutions:

Problem	Possible Cause	Solution
LED lights not working	Power cable not connected; LED strip damaged; switch malfunction.	Ensure power cable is securely plugged into an outlet. Check the LED strip for visible damage. Contact customer support if the issue persists.
Charging ports not functioning	Power hub not connected; device cable faulty; power surge.	Verify the power hub is connected to a live outlet. Try a different charging cable or device. If the issue continues, contact customer support.

Problem	Possible Cause	Solution
Cabinet feels unstable	Loose assembly hardware; anti-tip device not installed or improperly secured.	Retighten all screws and connections. Ensure the anti-tip hardware is correctly installed and anchored to a wall stud.
