Domi 8'x10' Lean-to Gazebo Instruction Manual

Model: LGCF1695-8x10 | Brand: domi outdoor living

INTRODUCTION

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your Domi 8'x10' Lean-to Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference. Proper assembly and maintenance will ensure the longevity and safe use of your gazebo.

IMPORTANT SAFETY INSTRUCTIONS

- Always secure the gazebo properly to the wall and ground before use.
- Exercise caution during assembly and disassembly.
- Do not exceed the product's weight limit.
- Consult the manual for specific handling instructions.
- Ensure all connections are tight and secure before use.
- Regularly inspect the structure for any signs of wear or damage.

PRODUCT OVERVIEW

Product Features

- **Heavy-Duty Metal Frame:** Features a robust rust-resistant and corrosion-resistant steel frame for long-lasting outdoor durability. Pre-drilled holes and ground stakes enhance stability.
- **Expand Your Outdoor Living Space:** Designed to attach seamlessly to an existing wall or structure, extending your patio, deck, or pool area. Includes wall buckles for reinforced mounting.
- **High Load-Bearing Capacity:** Engineered to withstand heavy snow and harsh weather, thanks to its reinforced structure and triangular roof supports.
- **Sloped Galvanized Steel Roof:** The durable galvanized roof provides excellent UV protection (99% UV-proof, UPF 50+) and efficiently sheds rain and snow, preventing buildup.
- **Upgraded Drainage System:** The advanced gutter design ensures optimal water and snow runoff, safeguarding roof longevity.

Product Images

ASSEMBLY INSTRUCTIONS

The Domi Lean-to Gazebo is designed for straightforward assembly. It is recommended that two people assemble the unit. All parts are numbered for easy identification.

Step-by-Step Assembly

1. Unpack all components and verify against the parts list (refer to the included physical manual for a complete list).
2. Assemble the main frame structure, ensuring all connections are secure.
3. Attach the roof panels, aligning them carefully to ensure proper drainage.
4. Secure the gazebo to your chosen wall or structure using the provided wall buckles and anchoring plates.
5. Ensure all screws and fasteners are tightened to prevent stripping, using appropriate drill bits.

This video provides an up-close look at the Domi Lean-to Gazebo, demonstrating its features and offering insights into the

assembly process. It highlights the galvanized steel roof, sturdy frame, and overall construction.

USAGE

Intended Use

This lean-to gazebo is designed to provide a shaded and sheltered outdoor living space. It can be attached to a house or other building, or used as a freestanding structure. It is suitable for patios, decks, and backyard areas.

Extending Your Outdoor Space

The wall-mounted design allows for seamless integration with your existing home, expanding your usable outdoor area for relaxation or entertainment. Multiple units can be connected using separate connector sets (available separately) to create a larger covered space.

MAINTENANCE

Care and Maintenance

- **Regular Cleaning:** Clean the roof and frame periodically with mild soap and water to remove dirt, debris, and prevent buildup.
- **Drainage System:** Ensure the upgraded drainage system and gutters are clear of leaves and other obstructions to maintain optimal water runoff.
- **Structural Inspection:** Periodically check all bolts, screws, and connections for tightness. Re-tighten as necessary to maintain structural integrity.
- **Winter Care:** While designed to withstand heavy snow, it is advisable to remove excessive snow accumulation from the roof to prevent undue stress on the structure.
- **Rust Prevention:** The frame is rust-resistant, but regular inspection and touch-up of any scratches or chips in the paint can further prevent corrosion.

TROUBLESHOOTING

Water Leakage

If water leakage occurs, inspect the roof panels for proper alignment and ensure all screws are securely fastened. Check the gutter system for blockages and clear any debris.

Instability

If the gazebo feels unstable, verify that all anchoring plates are securely fastened to the ground or deck. Ensure all frame connections are tight. For wall-mounted units, confirm the wall buckles are properly installed and secured to the house structure.

Difficulty in Assembly

Refer to the step-by-step manual with numbered parts provided with your product. If issues persist, or if you encounter missing or damaged parts, contact customer service for assistance.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	domi outdoor living

Model Number	LGCF1695-8x10
