2. SAFETY INFORMATION

- Always handle glass components with care to prevent breakage and injury.
- Wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during installation.
- Due to the weight of the door panels, it is recommended that two people handle and install the door to prevent injury and damage.
- Ensure all hardware is securely fastened according to the instructions to prevent the door from falling or malfunctioning.
- Keep children and pets away from the installation area.

3. PACKAGE CONTENTS

Verify that all components listed below are present and undamaged before beginning installation. If any parts are missing or damaged, please contact customer service immediately.

Size Options	Door Panel Width	Door Panel Height	Fit Finished Opening Width	Fit Finished Opening Height
24" x 80"	23 11/25"	77 3/4"	24"	80"
30" x 80"	29 11/25"	77 3/4"	30"	80"
36" x 80"	35 11/25"	77 3/4"	36"	80"

Note: Please review the actual dimensions of the door panel and measure the finished opening before making a purchase.

5.2 General Installation Steps (Consult detailed instructions provided with hardware kit)

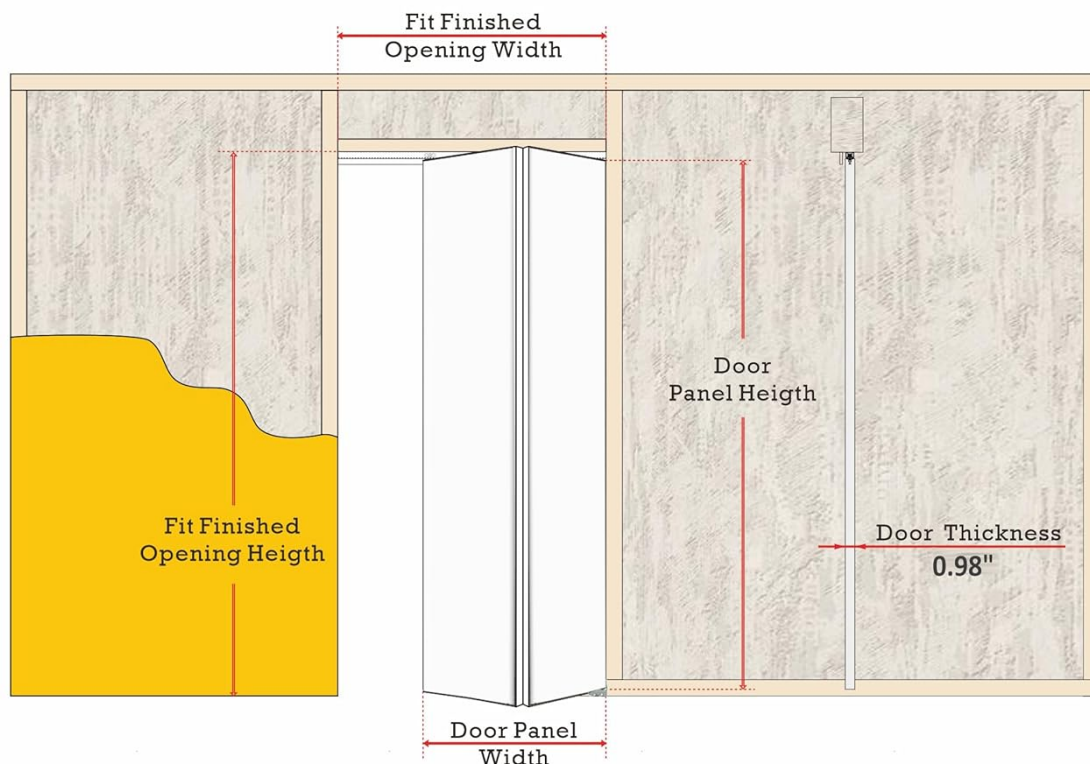

- 1. Prepare the Opening:** Ensure the door opening is clean, plumb, and square. Verify that the finished opening dimensions match the requirements for your door size.
- 2. Install Top Track:** Secure the sliding track to the top of the door frame using the provided screws. Ensure it is level and centered.

3. **Attach Hinges:** Connect the bifold door panels using the provided hinges. Ensure they are aligned correctly for smooth folding.
4. **Install Pivots and Rollers:** Attach the top pivot and bottom pivot/roller assemblies to the door panels as indicated in the hardware instructions.
5. **Mount Door Panels:** Insert the top pivot into the track and the bottom pivot into the floor guide. Adjust the pivots to ensure the door hangs plumb and operates smoothly.
6. **Install Floor Guide:** Secure the floor guide to the floor, aligning it with the bottom pivot of the door.
7. **Attach Door Pulls:** Install the door pulls or handles to the desired location on the door panels.
8. **Final Adjustments:** Test the door operation. Adjust pivots and rollers as needed to ensure the door opens and closes smoothly, and the panels align correctly when closed.

6. OPERATING INSTRUCTIONS

Your SOLRIG bifold mirror door is designed for easy operation. To open, gently pull the door handle, allowing the panels to fold inward or outward, depending on the installation. The versatile design allows you to stack the panels on the right, left, or center of the opening, providing flexible access to your closet or room.

Standard Sizes & Measuring Bifold Doors

Sizing Guide for Single Bifold Doors

Size Options	Door Panel Width	Door Panel Height	Fit Finished Opening Width	Fit Finished Opening Height
24" x 80"	23 11/25"	77 3/4"	24"	80"
30" x 80"	29 11/25"	77 3/4"	30"	80"
36" x 80"	35 11/25"	77 3/4"	36"	80"

Note: Please review the **Actual Dimensions of the Door Panel** and **Measure the Finished Opening** before **Making a Purchase**. **Finished Opening**= the resulting opening after any trim work is completed. measure these dimensions for proper door fitting.

7. MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your bifold mirror door.

- **Cleaning the Mirror:** Use a soft, lint-free cloth and a glass cleaner to wipe the mirror surfaces. Avoid abrasive cleaners or materials that could scratch the glass or frame.
- **Cleaning the Frame:** Wipe the aluminum alloy frame with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by drying with a clean cloth.
- **Lubricating Hardware:** Periodically apply a silicone-based lubricant to the sliding rollers and tracks to maintain smooth and quiet operation. Avoid oil-based lubricants which can attract dust.
- **Checking Fasteners:** Annually inspect all screws and fasteners to ensure they are tight. Retighten if necessary to prevent wobbling or misalignment.
- **Inspecting Hinges and Pivots:** Check hinges and pivots for any signs of wear or damage. Replace components if they appear compromised.

8. TROUBLESHOOTING

If you encounter any issues with your bifold mirror door, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Door does not close properly or leaves a gap.	Misaligned pivots or floor guides; improperly installed door handle.	Adjust the top and bottom pivots to ensure the door is plumb and square. Verify the floor guide is correctly positioned. Check that the door handle is installed correctly and not obstructing closure.
Door is difficult to open or close, or makes noise.	Dirty or dry sliding tracks/rollers; damaged rollers or hinges.	Clean the tracks and rollers. Apply a silicone-based lubricant to the rollers and tracks. Inspect rollers and hinges for damage and replace if necessary.
Door panels are not aligned evenly.	Incorrect pivot adjustments; uneven floor or header.	Adjust the top and bottom pivots to level the door. If the floor or header is uneven, shims may be required during installation.
Hardware component (e.g., bracket) breaks.	Material fatigue; manufacturing defect; excessive force during use.	Contact SOLRIG customer service for a replacement part. Avoid applying excessive force to the door.
Product arrived damaged (e.g., broken mirror).	Shipping damage.	Immediately contact SOLRIG customer service with proof of damage for a free replacement.

9. WARRANTY AND SUPPORT

SOLRIG is committed to providing excellent customer service and ensuring your satisfaction. While specific warranty details are not provided in this manual, we offer robust after-sales support.

9.1 Customer Service
