

TRUYOK 1

TRUYOK 106CM Outdoor Ceiling Fan with Light - Instruction Manual

Model: 1

INTRODUCTION

Thank you for choosing the TRUYOK 106CM Outdoor Ceiling Fan with Light. This manual provides essential information for the safe installation, operation, and maintenance of your new ceiling fan. Please read it thoroughly before installation and keep it for future reference.

This fan is designed for both indoor and outdoor use, featuring an IP65 waterproof rating, adjustable light color temperature and brightness, 6 fan speeds, and a reversible motor for year-round comfort.

SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these basic precautions:

- Read all instructions carefully before installation and use.
- Ensure the power supply is disconnected at the main circuit breaker before installation or servicing.
- All electrical connections must be made in accordance with local codes, ordinances, and the National Electrical Code. If you are unfamiliar with wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting the weight of the fan (approximately 5.64 kg).
- Do not operate the fan with a damaged power cord or plug.
- Avoid placing objects in the path of the fan blades.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- For outdoor use, ensure the fan is installed in a covered area to protect it from direct exposure to extreme weather conditions, despite its IP65 rating.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Ceiling Fan with Integrated Lamp
- Remote Control
- Mounting Hardware
- Instruction Manual (this document)

Highest IP65 Waterproof Standard

Suitable for all kinds of bad weather

SETUP AND INSTALLATION

Installation of this ceiling fan requires basic electrical knowledge. If you are unsure, please consult a qualified electrician.

1. Prepare for Installation:

- Turn off power at the circuit breaker.

- Ensure the mounting location is suitable and can support the fan's weight.

2. Mounting Bracket Installation:

- Secure the mounting bracket to the ceiling joist or an approved outlet box using the provided hardware.

3. Assemble Downrod and Fan Motor:

- Attach the downrod to the fan motor assembly. The fan supports two downrod heights (15cm and 25cm).

4. Wiring Connections:

- Connect the fan's electrical wires to the household supply wires according to the wiring diagram in the full manual (not provided here). Ensure all connections are secure.

5. Secure Fan to Mounting Bracket:

- Carefully lift the fan assembly and hang it onto the mounting bracket.

6. Attach Fan Blades:

- Attach the fan blades to the motor housing. Note that the blades are two-sided, allowing you to choose between light wood grain and dark wood grain finishes.

7. Install Light Kit:

- Connect and secure the integrated LED light kit to the fan motor housing.

8. Final Checks:

- Ensure all screws are tightened and connections are secure.
- Restore power at the circuit breaker.

Image: Diagram showing the fan's dimensions (106cm diameter, 48cm blade length, 20cm height) and available downrod lengths (15cm and 25cm) for ceiling mounting. Also shows examples of installation in patios, gazebos, and pavilions.

2 Colors in One Blade

It's time to update your fan lights!

Image: Close-up view of the fan blades, highlighting their two-color design (white beige and white) for aesthetic versatility.

OPERATING INSTRUCTIONS

The TRUYOK ceiling fan is operated using the included 2.4 GHz remote control.

Remote Control Functions:

Easy to Use Remote Control (No Beep)

Fix it as a wall switch(ncluded)

Use it as a Wall Switch
(Wall Cradle Included)

Hand Remote

Image: Diagram illustrating the remote control layout and its various functions, including power on/off, light on/off, fan on/off, 1-6 fan speed settings, quick timer settings (1H, 4H, 8H), forward & reverse rotation, anti-theft mode, mute, and natural wind mode.

- **Power On/Off:** Press the power button to turn the fan and light on or off.
- **Light On/Off:** Independently control the light.
- **Fan On/Off:** Independently control the fan.
- **Fan Speed (1-6):** Select from 6 fan speeds.
 - Speed 1-2: Soft Wind
 - Speed 3-4: Natural Wind
 - Speed 5-6: Cool Wind
- **Timer Settings:** Set the fan to turn off automatically after 1, 4, or 8 hours.
- **Forward & Reverse Rotation:**
 - **Summer Mode (Counter-clockwise):** Pushes air downwards, creating a cooling effect.
 - **Winter Mode (Clockwise):** Pushes air upwards, circulating warm air near the ceiling for even room heating.
- **Light Color Temperature Adjustment:** The LED light offers adjustable color temperatures from 3000K (warm white) to 6000K (cool white). Use the K+/- buttons to adjust.
- **Light Brightness Adjustment:** The light brightness is continuously adjustable from 10% to 100%. Use the brightness adjustment button.
- **Anti-theft Mode:** When activated, the light and fan will turn off, then the light and fan will run for 5 minutes. (Consult full manual for detailed usage).
- **Mute:** Silences remote control beeps.
- **Natural Wind:** Simulates natural breeze by varying fan speed.

Image: Illustration showing the fan light changing color temperature from 3000K (warm) to 4500K (natural) to 6000K (cool), demonstrating the adjustable lighting feature.

Reversible 6 - Speed Adjustable Fan

Image: Diagram explaining the reversible fan function. In summer mode, blades rotate counter-clockwise for downward airflow. In winter mode, blades rotate clockwise for upward airflow, circulating warm air.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

• Cleaning:

- Always turn off the power before cleaning.
- Use a soft, damp cloth to wipe down the fan blades and motor housing. Do not use abrasive cleaners or solvents.
- For outdoor installations, periodically clean the fan to remove dust, dirt, and debris.

• Blade Balance:

- If the fan wobbles, check that all blade screws are tight.
- Ensure blades are not bent or damaged.
- A blade balancing kit (often sold separately) can be used to correct excessive wobble.

• Light Source:

- The LED light source is integrated and not user-replaceable. If the light fails, contact customer support.

TROUBLESHOOTING

Before contacting customer support, try these troubleshooting steps:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Fan does not start	No power to the fan. Loose wire connections. Remote control battery is dead.	Check circuit breaker and wall switch. Verify all wire connections are secure (ensure power is off first). Replace remote control battery.
Light does not work	No power to the light. Loose wire connections. Integrated LED failure.	Check power supply. Verify light kit wiring (ensure power is off first). Contact customer support for integrated LED issues.
Fan wobbles excessively	Loose blade screws. Unbalanced blades. Loose mounting bracket.	Tighten all blade screws. Use a blade balancing kit. Ensure mounting bracket is securely fastened to the ceiling.
Remote control not working	Dead battery. Interference. Not paired with fan.	Replace battery. Ensure no strong 2.4 GHz interference nearby. Refer to the full manual for remote pairing instructions if necessary.

SPECIFICATIONS

Feature	Detail
Brand	TRUYOK
Model Number	1
Product Dimensions (L x W x H)	106 x 106 x 20 cm (41.7 x 41.7 x 7.9 inches)
Weight	5.64 kg (12.43 lbs)
Color	Black (Fan body), Two-color blades (Light/Dark Wood Grain)
Material	Metal (Fan body), Plastic (Shade material)
Style	Contemporary
Room Type	Indoor/Outdoor
Specific Uses	Home, Garden, Terraces, Pergolas, Farms, Shops
Power Source	Corded Electric
Control Method	Remote Control (2.4 GHz)
Light Type	Integrated LED
Number of Bulbs	1 (Integrated LED panel)
Light Color	Warm White to Cool White (3000K - 6000K)
Wattage	45 Watts (Total), 24 Watts (LED Light)

Feature	Detail
Luminous Efficacy	4500 Lumens (Max)
Switch Type	Touch (on remote)
Waterproof Level	IP65 (Waterproof)
Energy Label	D
Mounting Type	Ceiling Mount
Components Included	Mounting hardware, Remote control, Ceiling fan with integrated lamp
UPC	692090133661
GTIN	692090133661
