

Ketive KET-PET48-49

Ketive Large Wooden Dog House (Model KET-PET48-49) Instruction Manual

This manual provides detailed instructions for the assembly, operation, and maintenance of your Ketive Large Wooden Dog House.

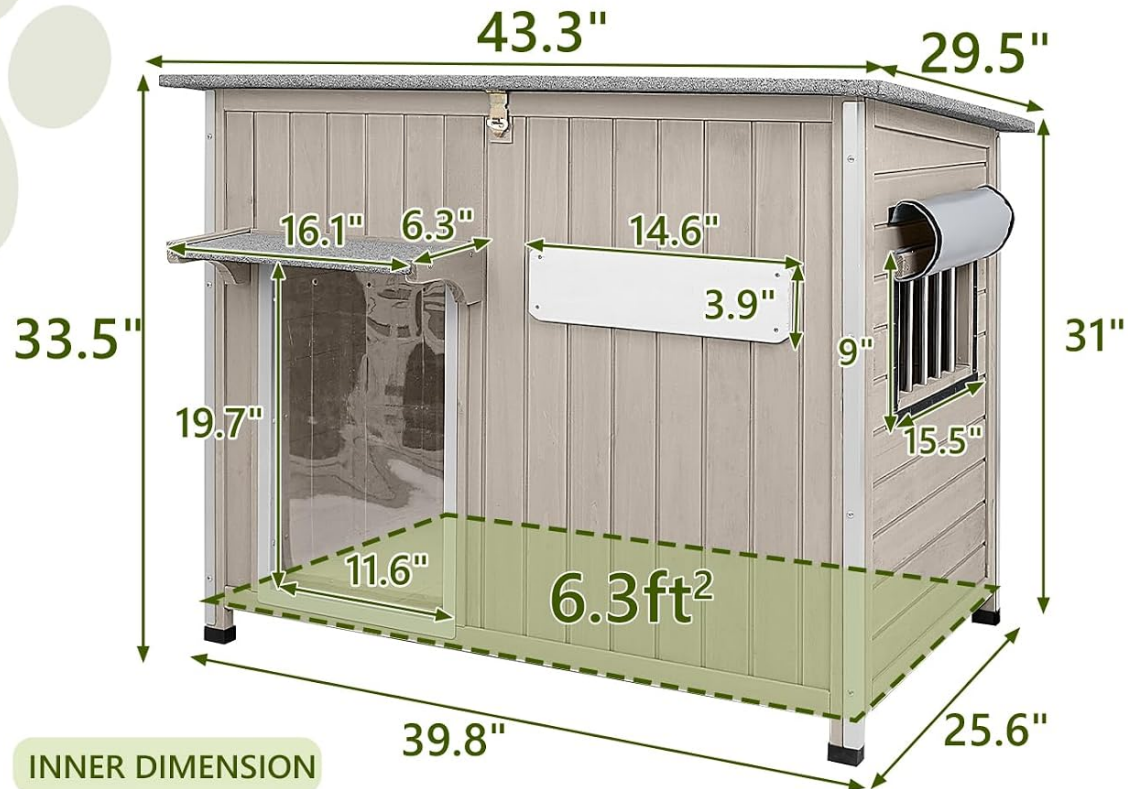

PRODUCT OVERVIEW

The Ketive Large Wooden Dog House is designed to provide a comfortable and secure shelter for medium to large dogs. It features durable construction, weather protection, and easy maintenance, suitable for both indoor and outdoor use.

Key Features

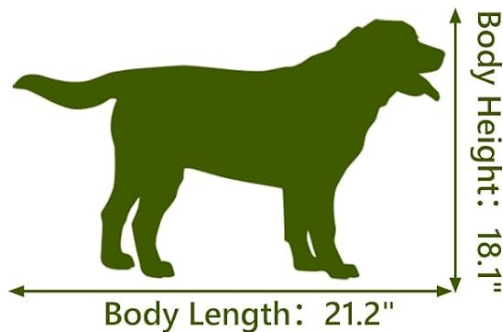

- **Durable & Chew-Resistant Design:** Crafted from solid fir wood and reinforced with a chew-resistant iron frame. The sloped asphalt roof is weatherproof, preventing water and snow buildup.
- **Elevated Base & All-Season Protection:** Features a 2.1-inch raised floor and sturdy hexagonal cross-support structure, keeping pets dry and stable. A PVC door curtain and adjustable window curtain provide excellent airflow and protection from elements.
- **Spacious Interior & Personalized Nameplate:** Offers ample space for pets to stand, turn, and relax. The removable nameplate allows for personalization.
- **Easy to Clean & Maintain:** Designed with a removable floor and an openable sloped roof with a secure support rod for effortless cleaning and interior access.
- **Dimensions:** Overall dimensions are 43.3"L x 29.5"W x 33.5"H.

COZY SAFETY HOME FOR YOUR PETS

INNER DIMENSION

FOR SMALL- MEDIUM DOGS

Tips:

Measure your pet to make sure that its body length is within 21.2 inches and height within 18.1 inches.

SETUP AND ASSEMBLY

This dog house requires assembly. Please follow the instructions carefully to ensure proper construction and stability.

Package Contents

- Asphalt roof panels
- Wooden side, front, and back panels

- Iron frame components
- Removable floor panels
- PVC door curtain
- Adjustable window curtain
- Personalized nameplate
- Assembly hardware (screws, bolts, etc.)
- Instruction manual

Assembly Steps

Refer to the detailed assembly diagrams and numbered parts. Pre-drilled holes simplify the process. It is recommended to assemble the dog house on a flat, clear surface.

Video: This video demonstrates the assembly process for the Ketive Wooden Dog House, highlighting key steps for quick and hassle-free setup.

Placement

Place the dog house on a level surface to ensure stability and proper water drainage. The elevated base helps protect against ground moisture. Ensure adequate space around the house for ventilation and easy access for cleaning.

OPERATION

PVC Door Flap

The transparent PVC door flap provides protection from wind, rain, and cold while allowing your pet easy entry and exit. It can be easily removed or reattached as needed, depending on weather conditions or your pet's preference.

Adjustable Window Curtain

The side window is equipped with an adjustable curtain. This feature allows you to control the amount of airflow and provide additional insulation or shade. Roll it up for increased ventilation during warmer weather or roll it down for better protection during colder or windy conditions.

INDOOR/OUTDOOR/BACKYARD

Personalized Nameplate

A removable nameplate is included for you to personalize your pet's home. Use a permanent marker or paint to add your pet's name or a custom design.

MAINTENANCE

Cleaning

The Ketive dog house is designed for effortless cleaning to ensure a hygienic environment for your pet.

- **Removable Floor:** The floor panels can be easily removed, allowing for thorough cleaning of the interior base.
- **Openable Roof:** The sloped roof can be opened and secured with a support rod, providing full and easy access to the entire interior for comprehensive cleaning.
- Use mild soap and water for cleaning wooden surfaces. Avoid harsh abrasive cleaners or chemicals that could harm your pet or damage the wood.

Roof Care

The asphalt roof provides excellent weather protection. Periodically inspect the roof for any signs of damage, cracks, or wear. Promptly repair any issues to ensure the continued integrity of its weatherproof capabilities.

Wood Care

The solid fir wood construction is designed for durability. To further extend its lifespan and maintain its appearance, especially in harsh outdoor conditions, consider applying a pet-safe wood sealant or stain annually.

TROUBLESHOOTING

Water Accumulation Inside

- Ensure the dog house is placed on a perfectly level surface to allow the sloped roof to drain water effectively.
- Check that all roof panels are securely installed and that the asphalt material is intact without any tears or gaps.
- Verify the PVC door curtain is properly attached and hangs correctly to minimize water entry during heavy rain.

Instability or Wobbling

- Confirm that all screws, bolts, and fasteners are tightened securely according to the assembly instructions.

- Ensure the dog house is situated on a firm, level ground. Uneven surfaces can cause instability.
- Inspect the elevated base legs for any damage or uneven wear.

Pet Not Using the House

- Introduce your pet to the house gradually. Place familiar bedding, toys, or treats inside to encourage exploration.
- Ensure the house is clean and free from any strong or unfamiliar odors.
- Adjust the window curtain and door flap to create a comfortable internal temperature and light level for your pet.
