Braun Series 9 PRO+ Electric Shaver 9697CC Instruction Manual

Model: 9697CC

1. PRODUCT OVERVIEW

The Braun Series 9 PRO+ Electric Shaver is engineered for men seeking perfect closeness and skin protection. It features Ultra Thin Precision Blades and 5+1 Technology, which includes a Direct&Cut Blade, ProTrimmer, skin-skimming OptiFoil, protective SkinGuard, and a titanium-coated ProLift Blade. The Pro SensoAdapt technology intelligently analyzes beard density 300 times per second and automatically adjusts shaving power for maximum efficiency.

This shaver is 100% waterproof, allowing for wet or dry use. It also comes with a 6in1 SmartCare Center for automated cleaning, drying, charging, and maintenance, ensuring optimal shaver performance and blade longevity. A ProComfort Head attachment is included for pre-shave preparation.

2. SETUP AND INITIAL USE

2.1 Charging the Shaver

Before first use, fully charge your shaver. The shaver can be charged using the provided power supply directly or via the SmartCare Center.

- **Direct Charging:** Connect the power supply to the shaver and a power outlet. A full charge takes approximately 1 hour, providing up to 60 minutes of shaving time. A 5-minute quick charge is sufficient for one shave.
- **SmartCare Center Charging:** Place the shaver head-down into the SmartCare Center. Ensure the shaver contacts align with the charging contacts in the station. The SmartCare Center will automatically charge the shaver.

3. OPERATING THE SHAVER

3.1 Shaving

For optimal results, shave before washing your face. Hold the shaver at a right angle (90°) to your skin and stretch your skin with your free hand. Shave against the direction of beard growth. The flexible head adapts to your facial contours, ensuring a close and comfortable shave.

4.3 Replacing the Cleaning Cartridge

Replace the Clean & Renew Cartridge when the indicator light on the SmartCare Center signals it's empty

(usually after about 30 cleaning cycles or 8 weeks). Press the release button to open the station, remove the old cartridge, and insert a new one.

5. TROUBLESHOOTING

- **Shaver not turning on:** Ensure the shaver is charged. If using the SmartCare Center, check if it's properly connected to power.
- **Poor shaving performance:** The shaving head might be worn. Replace the foil and cutter cassette (recommended every 18 months). Ensure the shaver is clean and free of debris.
- **Skin irritation:** Shave before washing your face. Ensure the shaver head is clean. Shave against the direction of hair growth. If irritation persists, consult a dermatologist.
- **SmartCare Center not cleaning:** Check the cleaning fluid level in the cartridge. Ensure the shaver is correctly placed in the station and the power supply is connected.
