### **4.3 Software Usage (Windows 11 Home)**

Your Dell Inspiron 3530 comes pre-installed with Windows 11 Home. Familiarize yourself with the operating

system's interface, including the Start Menu, Taskbar, and File Explorer. Regular software updates are recommended for security and performance.

## 5. MAINTENANCE

### 5.1 Cleaning Your Laptop

- Use a soft, lint-free cloth dampened with water or a screen cleaner to clean the display.
- For the keyboard and chassis, use a soft cloth. Avoid harsh chemicals.
- Periodically clean the air vents to prevent dust buildup, which can affect thermal performance.

### 5.2 Battery Care

To maximize battery lifespan, avoid extreme temperatures and fully discharging the battery frequently. For long-term storage, charge the battery to approximately 50% and store the laptop in a cool, dry place.

### 5.3 Software Updates

Regularly check for and install Windows updates and Dell driver updates to ensure optimal performance, security, and compatibility.

## 6. TROUBLESHOOTING

### 6.1 Common Issues

- **Laptop not powering on:** Ensure the AC adapter is securely connected and the power outlet is functional. Try a different outlet if necessary.
- **Screen blanking out intermittently:** Check for loose display connections if using an external monitor. For the built-in display, ensure graphics drivers are up to date.
- **Slow performance:** Close unnecessary applications, check for background processes, and ensure sufficient free space on the SSD.

### 6.2 Contacting Support

If you encounter issues that cannot be resolved using this guide, please refer to the Dell support website or contact Dell customer service for assistance. Your product may include onsite service as part of its warranty.
