

Timco PGE920

Timco PGE920 Rechargeable 3-in-1 Body Shaver User Manual

Model: PGE920 | Brand: Timco

1. INTRODUCTION AND OVERVIEW

Thank you for choosing the Timco PGE920 Rechargeable 3-in-1 Body Shaver. This versatile grooming tool is designed for safe and efficient hair removal, featuring SkinSafe technology, a ceramic blade, and a powerful motor. It is suitable for both wet and dry use and includes multiple attachments for comprehensive personal care.

Please read this manual thoroughly before first use to ensure proper operation, maintenance, and safety.

2. SAFETY INFORMATION

Important Safety Warnings:

- Although this shaver features SkinSafe technology, cuts or nicks may occur if not used with caution. Always use gentle pressure and follow the contours of your body.
- While the device is water-resistant, do not fully submerge the shaver in water.
- Ensure the shaver is thoroughly dried after shower use to prevent damage and injury.
- Keep out of reach of children.
- Do not disassemble or attempt to repair the device yourself. Contact customer support for assistance.
- Do not use if the blade or any part of the device is damaged.

3. PRODUCT COMPONENTS

The Timco PGE920 package includes the following items:

- Main Shaver Unit with Body Shaving Head
- Nose Hair Trimmer Head
- Foil Shaving Head
- 2 Adjustable Guide Combs (for 3, 6, 9, and 12 mm hair lengths)
- Charging Base
- USB Type-C Charging Cable
- Cleaning Brush

4. SETUP

4.1 Charging the Device

1. Place the main shaver unit into the charging base.
2. Connect the USB Type-C cable to the charging base and then to a compatible USB power adapter (not included).
3. The LED display on the shaver will indicate the charging status. A full charge takes approximately 1.2 hours and provides up to 70 minutes of cordless use.
4. Ensure the device is fully charged before its first use for optimal battery performance.

4.2 Attaching and Detaching Heads

- To attach a head: Align the desired head (body shaver, foil shaver, or nose trimmer) with the main unit and press firmly until it clicks into place.
- To detach a head: Hold the main unit firmly and gently pull the attached head upwards to remove it.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press the power button located on the front of the shaver to turn the device on or off. The LED display will illuminate when the device is active.

5.2 Body Shaving (Main Head)

1. Ensure the body shaving head is securely attached.
2. For trimming longer hair, attach one of the adjustable guide combs (3, 6, 9, or 12 mm) to achieve your desired length.
3. Hold the shaver at a slight angle against your skin and move it slowly against the direction of hair growth.
4. For a closer shave, remove the guide comb and use the body shaving head directly on the skin.
5. The integrated LED spotlight helps illuminate hard-to-reach areas for precise grooming.

5.3 Nose Hair Trimming

1. Attach the nose hair trimmer head to the main unit.
2. Gently insert the trimmer tip into your nostril or ear canal.
3. Move the trimmer in a circular motion to cut unwanted hair. Do not insert too deeply.

5.4 Wet and Dry Use

The Timco PGE920 is designed for both wet and dry use. You can use it:

- **Dry:** For quick touch-ups or regular grooming without water.
- **Wet:** In the shower with shaving foam or gel for a smoother, more comfortable experience. Remember to dry the unit thoroughly after wet use.

6. MAINTENANCE

6.1 Cleaning the Shaver Heads

1. After each use, turn off the shaver and detach the head.
2. Use the provided cleaning brush to remove any loose hairs from the blades and inside the head.
3. For a more thorough clean, rinse the detached head under running water. Ensure the head is completely dry before reattaching or storing.
4. Do not use harsh chemicals or abrasive cleaners on any part of the shaver.

6.2 Storage

Store the shaver in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the device is clean and dry before storing. Keep the protective cap on the shaving head if available.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted.	Charge the shaver for at least 1.2 hours.
Poor shaving performance.	Blades are clogged with hair or dull.	Clean the shaver head thoroughly. If performance does not improve, consider replacing the head.
Shaver stops during use.	Battery is low.	Recharge the shaver.
Irritation or nicks.	Incorrect technique or sensitive skin.	Use gentle pressure, shave against hair growth, and consider using shaving cream for wet shaves. Ensure blades are clean and sharp.
