Aquaguard GWPDEA2XS10B00

Aquaguard Enrich Astor RO+UV+Alk 2X Water Purifier User Manual

Model: GWPDEA2XS10B00

1. INTRODUCTION

The Aquaguard Enrich Astor RO+UV+Alk 2X Water Purifier is designed to provide safe and healthy drinking water through an advanced 8-stage purification process. This system incorporates NanoPore Filter Technology, UV e-boiling, and 2-in-1 Alkaline Boost to ensure comprehensive water treatment. It features a durable stainless steel storage tank and is suitable for various water sources.

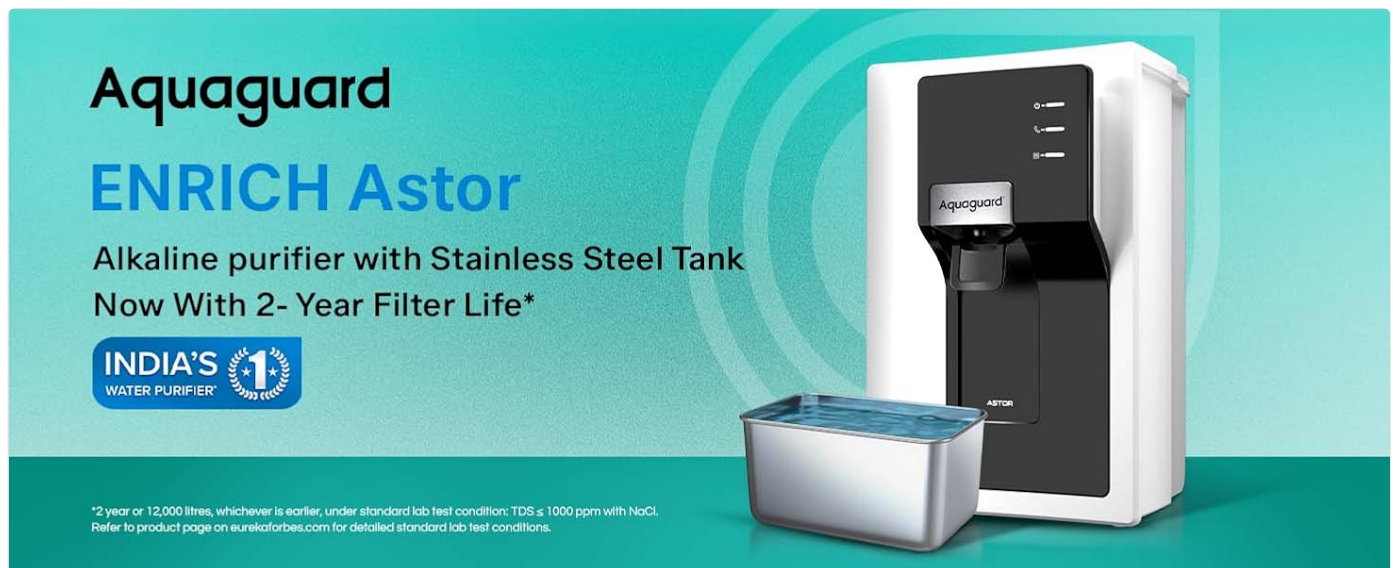

Image: Aquaguard Enrich Astor Water Purifier highlighting its core technologies like NanoPore, UV, and Alkaline Boost.

Key Features:

- **NanoPore Filter Technology:** Provides protection against microplastics, pesticides, and industrial waste like lead and mercury.
- **2-in-1 Alkaline Boost:** Infuses water with essential minerals like Calcium and Magnesium, increasing pH levels.
- **Stainless Steel Storage Tank:** A 5-liter tank made of surgical grade 304 stainless steel, ensuring durability and corrosion resistance.
- **8-Stage Purification:** Comprehensive purification including RO and UV e-boiling for pure water.
- **Water Saving RO Technology:** Designed for over 40% water recovery.

- **Mega Sediment Filter:** An additional filter to remove fine dust, dirt, and mud particles, extending the life of internal filters.

2. SETUP AND INSTALLATION

The Aquaguard Enrich Astor water purifier is designed for wall-mount installation. Professional installation is recommended to ensure proper setup and optimal performance. A free installation service is typically included with your purchase.

Package Contents:

- Aquaguard Enrich Astor Water Purifier Unit
- Input Pipe
- Diverter Valve
- Warranty Card

Installation Steps (Professional Service):

1. **Site Selection:** Choose a suitable wall location near a water source and electrical outlet. Ensure sufficient space for maintenance.
2. **Mounting:** The service technician will securely mount the purifier on the wall.
3. **Water Connection:** Connect the input pipe to the water source using the diverter valve.
4. **Drain Connection:** Establish a connection for the reject water drain.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.
6. **Initial Flush:** The technician will perform an initial flush to prepare the filters and tank for use.

3. OPERATING INSTRUCTIONS

Once installed, operating your Aquaguard Enrich Astor water purifier is straightforward. The unit is designed to purify water from various sources, including municipal, borewell, or tanker water, with a maximum TDS level of 2000 mg/L.

Starting the Purifier:

1. **Power On:** Ensure the purifier is connected to a power source and switch it on.
2. **Water Flow:** Open the water supply to the purifier. The purification process will begin automatically.
3. **First Use:** For the first use, allow the tank to fill completely and then drain the first few liters of purified water. This helps flush out any residual impurities from new filters.

Water Dispensing:

To dispense purified water, place a container under the dispenser tap and press the lever or button (depending on the

model's design). The 5-liter stainless steel tank ensures a ready supply of purified water.

8-Stage Purification Process:

The purifier employs a multi-stage process to deliver clean water:

- 1. **Mega Sediment Filter:** Removes large suspended particles like dust and mud.
- 2. **Sedi Shield 2X:** Filters finer sediment particles.
- 3. **Particulate Filter:** Further removes pathogenic particles and suspended matter.
- 4. **Chemi Block 2X:** Absorbs chemicals, bad taste, and odor-causing elements.
- 5. **RO Maxx 2X (NanoPore RO):** Reduces TDS, removes microplastics, pesticides, lead, and mercury.
- 6. **UV E-Boiling:** Ensures purity equivalent to water boiled for over 20 minutes.
- 7. **2-in-1 Alkaline Boost:** Adds essential minerals (Calcium, Magnesium) and balances pH.

4. MAINTENANCE

Regular maintenance is crucial for the longevity and efficient performance of your Aquaguard Enrich Astor water purifier. The filters are designed for a long life, but timely replacement and servicing are essential.

Filter Life and Replacement:

The filters in your Aquaguard Enrich Astor are designed to last for **2 years or 12,000 liters**, whichever comes first, under standard lab test conditions (TDS ≤ 1000 ppm with NaCl). The additional Mega Sediment Filter helps prevent choking and extends the life of internal filters.

Scheduled Servicing:

Your purchase includes a free service plan for the first year, which typically covers:

- Free Installation
- 2 Free Cleaning Services
- Unlimited Repair Visits (valid for the first year only)

It is recommended to schedule regular maintenance checks with authorized service technicians to ensure optimal performance and water quality. Refer to your warranty card or contact customer support for details on scheduling services.

5. TROUBLESHOOTING

This section provides general guidance for common issues. For complex problems, always contact authorized service personnel.

Problem	Possible Cause	Solution
No water dispensing	No power, water supply off, or tank empty.	Check power connection, ensure water supply is open, wait for tank to fill.
Slow water flow	Clogged filters, low water pressure.	Contact service for filter inspection/replacement. Check household water pressure.
Unusual taste or odor	Filters need replacement, initial flushing incomplete.	Ensure initial flushing is done. If issue persists, contact service for filter check.
Water leakage	Loose connections, damaged components.	Immediately turn off water supply and power. Contact authorized service.

If you encounter any issues not listed here or if the suggested solutions do not resolve the problem, please contact Aquaguard customer support.

6. SPECIFICATIONS

Feature	Detail
Brand	Aquaguard
Model Name/Number	GWPDEA2XS10B00
Special Features	NanoPore RO 2X, UV e-boiling, 2-in-1 Alkaline Boost, Mega Sediment Filter
Product Dimensions (L x W x H)	32L x 28W x 47.6H Centimeters
Material	Stainless Steel (Tank)
Capacity	5 Liters
Installation Type	Wall Mount
Purification Method	Reverse Osmosis (RO)
Power Source Type	Corded Electric
Supported Water TDS Level Maximum	2000 ppm
Item Weight	9.5 Kilograms
Manufacturer	Eureka Forbes Ltd.

7. WARRANTY AND SUPPORT

Aquaguard provides comprehensive support and warranty for your Enrich Astor water purifier.

Warranty Information:

- **General Warranty:** Refer to the warranty card included in your package for specific terms and conditions.
- **Stainless Steel Tank:** The surgical grade 304 stainless steel storage tank comes with a Lifetime Warranty.
- **Filter Life:** Filters are designed for 2 years or 12,000 liters, whichever is earlier, under standard conditions.

Customer Support:

Aquaguard boasts India's widest service network, ensuring accessible support across 19,500+ pin-codes with over 8,500 certified technicians.

- **Free Service Plan:** Your purchase includes a free service plan for the first year, covering installation, cleaning services, and unlimited repair visits.
- **Service Booking:** Instant service booking is available via the Eureka Forbes App.
- **Contact:** For any queries, service requests, or technical assistance, please refer to the contact details provided in your warranty card or visit the official Aquaguard website.
