

Rythflo SK300 Fi

Rythflo 60W Bluetooth Sound Bar SK300 Fi - Instruction Manual

Brand: Rythflo

Model: SK300 Fi

1. INTRODUCTION AND OVERVIEW

The Rythflo 60W Bluetooth Sound Bar (Model SK300 Fi) is designed to enhance your audio experience for TV, PC, projector, and gaming. It features powerful sound output, dynamic lighting, and multiple connectivity options for versatile use in your home theater setup.

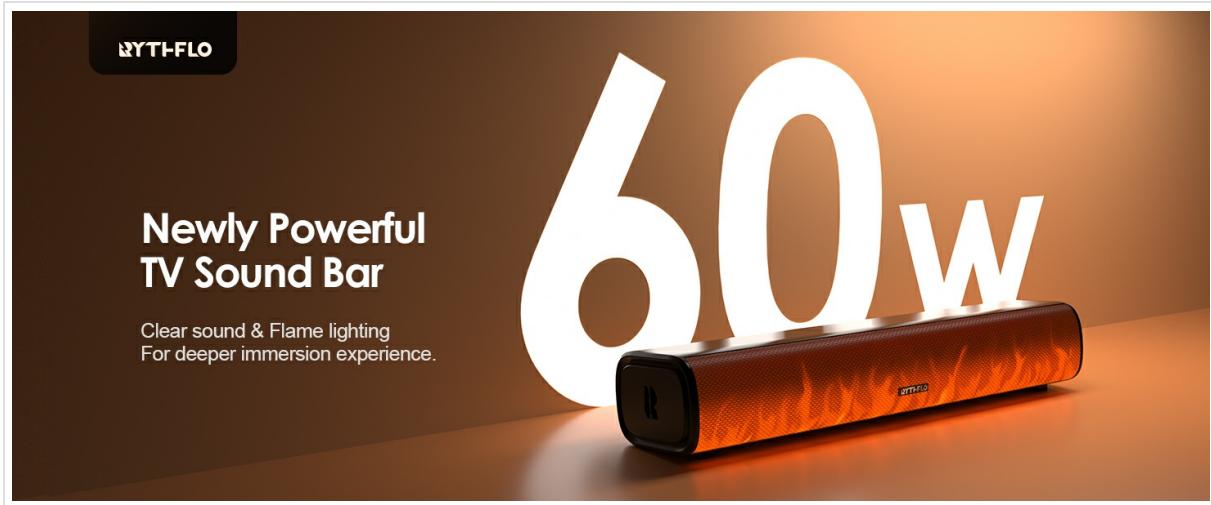

Image: Rythflo 60W Bluetooth Sound Bar highlighting 60W power, 85dB max volume, and 60-20kHz frequency response. Equipped with 2 full-range drivers and a Mica Fiber Diaphragm, this soundbar delivers up to 85dB of rich, balanced sound, ideal for medium-sized living rooms. Enjoy crystal-clear dialogue and reduced distortion even at high volumes, with three optimized modes: Movie, Music, and TV.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

To turn on, hold down the power button for 2 seconds. To turn off, hold down the power button for 2 seconds or press the power button on the soundbar's remote.

4.2 Switching Input Modes

Press the 'BT' button on the soundbar or the corresponding input button (ARC, OPT, AUX, BT) on the remote to switch between modes. The LED will flash blue and you'll hear a beep in default mode (Bluetooth mode).

4.3 Adjusting Volume

Use the volume up (+) and volume down (-) buttons on the soundbar or remote control to adjust the audio level.

4.4 Sound Modes

The soundbar features three optimized sound modes: Movie, Music, and TV. Select the desired mode using the remote control to enhance your listening experience.

- **Movie Mode:** Enhances cinematic clarity and powerful bass.
- **Music Mode:** Provides rich detail and balanced tones.
- **TV Mode:** Delivers crystal-clear dialogue and reduced distortion.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Rythflo Sound Bar, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the soundbar. Avoid using liquid cleaners or

abrasive materials.

- **Placement:** Keep the soundbar away from direct sunlight, heat sources, and excessive moisture.
- **Ventilation:** Ensure proper ventilation around the unit to prevent overheating.

6. TROUBLESHOOTING

If you encounter any issues with your Rythflo Sound Bar, please refer to the following common troubleshooting tips:

- **No Sound:** Check all cable connections (power, audio input). Ensure the correct input mode is selected on the soundbar and your TV. Verify that the volume is not muted or set too low.
- **Bluetooth Connection Issues:** Ensure the soundbar is in Bluetooth pairing mode (LED flashes blue). Turn off and on Bluetooth on your device. Make sure your device is within 33ft (10 meters) of the soundbar.
- **Remote Control Not Working:** Check if the remote control batteries need replacement. Ensure there are no obstructions between the remote and the soundbar.
- **Distorted Sound:** Try adjusting the volume or switching sound modes. Ensure audio cables are securely connected and not damaged.

For further assistance, please contact customer support.
