K&F CONCEPT KF15.0002

K&F Concept KF15.0002 Selfie Stick Tripod User Manual

Model: KF15.0002 | Brand: K&F CONCEPT

INTRODUCTION

This manual provides detailed instructions for the K&F Concept KF15.0002 Selfie Stick Tripod. Please read this manual thoroughly before using the product to ensure proper operation and to maximize its features. Keep this manual for future reference.

PRODUCT OVERVIEW AND FEATURES

The K&F Concept KF15.0002 is a versatile selfie stick and tripod designed for mobile photography and videography. Key features include:

- **Auto Open & Close Tripod:** The tripod legs automatically deploy when dropped from a height of 3.94 inches (10 cm) and retract magnetically when lifted.
- **Dual-axis Adjustment:** Supports 360° horizontal rotation and 180° vertical rotation for flexible shooting angles.
- **Extendable Design:** Adjustable height from 13.6 inches (34 cm) to 68.9 inches (175 cm) for wide-angle shots.
- **9-Button Bluetooth Remote Control:** Rechargeable remote for photo capture, zoom control, camera switching (front/rear), and short video page flipping.
- **Universal Compatibility:** Phone clamp adjusts from 2.17 inches (5.5 cm) to 3.35 inches (8.5 cm), compatible with most smartphones.
- **Cold Shoe Interface:** Located at the top for attaching accessories like microphones or lighting.
- **Portable and Lightweight:** Weighs only 0.8 lbs (376g) and folds to 13.58 inches for easy transport.

WHAT'S IN THE BOX

- Selfie Stick Tripod
- 9-Button Bluetooth Remote Control
- Remote Control Lanyard
- Charging Cable (USB-C)
- User Manual

Video: An unboxing and overview of the K&F Concept Selfie Stick Tripod and its components.

SETUP INSTRUCTIONS

1. Unfolding the Tripod

1. To automatically open the tripod legs, hold the selfie stick vertically and gently drop it from approximately 3.94 inches (10 cm) above a flat surface. The legs will deploy automatically.
2. Alternatively, you can manually press the button at the bottom of the pole to release the legs.

Tap to Open Automatically & Lift Up to Close Magnetically

Drop vertically from 3.94in/10cm above the ground, the tripod will automatically unfold.

Gently lift upward, the tripod will automatically close.

Image: Visual demonstration of the automatic open and magnetic close functions of the tripod legs.

2. Extending the Selfie Stick

1. Grasp the base of the selfie stick firmly.
2. Pull the top section upwards to extend the pole to your desired length. The pole can extend up to 68.9 inches (175 cm).

3. Attaching Your Phone

1. Gently pull apart the phone clamp at the top of the selfie stick.
2. Insert your smartphone into the clamp, ensuring it is securely held. The clamp accommodates phones between 2.17 inches (5.5 cm) and 3.35 inches (8.5 cm) wide.

4. Pairing the Bluetooth Remote Control

1. Remove the remote control from its magnetic slot on the selfie stick.
2. Locate the power switch on the back of the remote control and slide it to the 'ON' position. The indicator light will flash, indicating it's in pairing mode.
3. On your smartphone, go to **Settings > Bluetooth** and turn on Bluetooth.
4. Search for available devices and select '**AB shutter3**' to connect. Once paired, the indicator light on the remote will stop flashing.
5. Attach the remote control lanyard to prevent loss.

Pop Open. Quick Fold

Image: The 9-button Bluetooth remote control, highlighting its various functions for camera operation and video browsing.

OPERATING INSTRUCTIONS

1. Using the Remote Control

- **Shutter Button:** Press to take photos or start/stop video recording.
- **Zoom In/Out:** Use the designated buttons to zoom in or out on your camera.
- **Camera Toggle:** Switch between front and rear cameras.
- **Short Video Page Flip:** Browse short videos or like content using the remote.

2. Adjusting Shooting Angles

1. The phone clamp allows for 360° horizontal rotation. Simply rotate your phone to switch between landscape and portrait modes.
2. The head also supports 180° downward and upward adjustment to find the perfect vertical angle.

Dual-axis Rotation Design

Head Articulates 360° for Capturing Every Angle

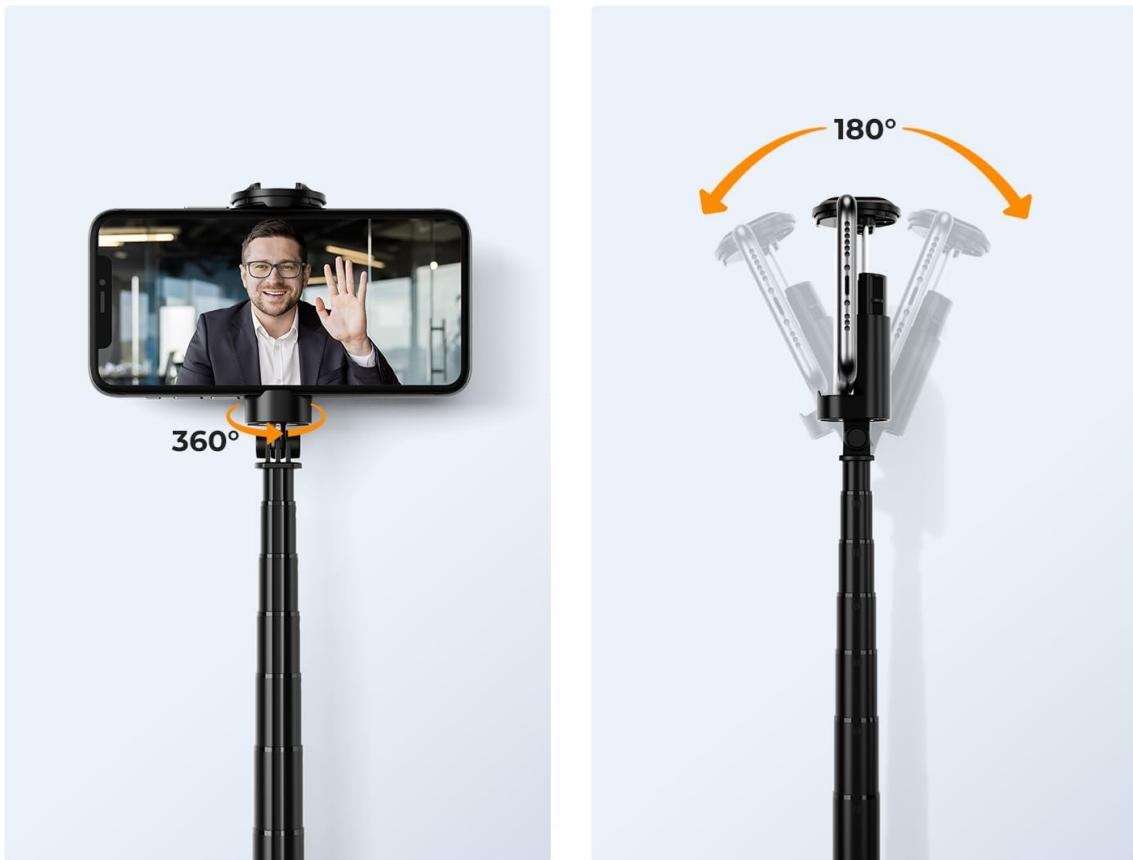

Image: Demonstrates the dual-axis rotation design, allowing for 360° horizontal and 180° vertical adjustments of the phone holder.

3. Using the Cold Shoe Interface

The top of the phone clamp features a cold shoe interface. This allows you to attach external accessories such as LED lights or microphones to enhance your content quality.

Stable Tripod Base

Video: Demonstrates the K&F Concept Selfie Stick's features, including its automatic tripod function and extendable length, suitable for various phone models.

Video: A short demonstration of the quick deployment and collapse mechanism of the selfie stick tripod.

MAINTENANCE

- Keep the selfie stick tripod clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures or moisture.
- Store the remote control securely in its magnetic slot when not in use to prevent loss.
- Charge the remote control regularly using the provided USB-C cable to ensure it is ready for use.

TROUBLESHOOTING

- **Remote Control Not Pairing:** Ensure the remote is charged and powered on. Check your phone's Bluetooth settings to confirm 'AB shutter3' is visible and attempt to re-pair.
- **Tripod Legs Not Opening/Closing Automatically:** Ensure the bottom button is not obstructed. For automatic

opening, ensure a slight vertical drop is applied. For automatic closing, lift the stick gently.

- **Phone Not Fitting in Clamp:** Verify your phone's width is within the 2.17-3.35 inch range. Remove any bulky phone cases if necessary.
- **Unstable Tripod:** Ensure the tripod legs are fully extended and placed on a flat, stable surface.
