## FirFurd P537

# FirFurd Dog Crate Furniture Instruction Manual

Model: P537
Brand: FirFurd

## Introduction

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your FirFurd Dog Crate Furniture, model P537. This versatile piece combines a spacious dog kennel with a functional furniture item, designed for large dogs. Please read these instructions carefully before assembly and use to ensure safe and correct operation.

## Safety Instructions

- Always follow assembly instructions precisely.
- Ensure all screws and fasteners are securely tightened before use.
- Do not exceed the maximum weight capacity of the tabletop (50 kg).
- Keep small parts away from children and pets during assembly.
- Place the dog crate on a flat, stable surface.
- Regularly inspect the crate for any loose parts or damage. Do not use if damaged.
- This product is designed for indoor use only.
- Ensure adequate ventilation for your pet at all times.

## Package Contents

Your FirFurd Dog Crate Furniture is delivered in two separate packages. It is essential to receive both packages before beginning assembly. Please verify that all components listed below are present and undamaged.

- Wooden panels (various sizes)
- Metal tube panels
- Sliding door mechanism
- 2 x Rotatable 360° feeders
- Assembly hardware (screws, dowels, cam locks, etc.)

- Illustrated assembly instructions

*Note: The two packages may arrive at different times. Please wait for both before starting assembly.*

## Setup and Assembly

Assembly requires following the included illustrated instructions. All parts are numbered for easy identification. It is recommended to have at least two people for assembly due to the size and weight of the components.

1. **Unpack Components:** Carefully remove all parts from both packages. Lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Match each component with the corresponding number in the instruction manual.
3. **Assemble Base:** Follow the diagrams to connect the base panels using the provided hardware.
4. **Attach Side Panels:** Secure the side panels, ensuring the openings for the feeders are correctly oriented.
5. **Install Metal Tubes:** Insert and secure the metal tube panels into the designated slots.
6. **Assemble Top Panel:** Attach the tabletop (120 x 60 cm) to the assembled structure.
7. **Install Sliding Doors:** Mount the sliding doors according to the instructions. Note that the left door is removable, and the right door is fixed.
8. **Attach Feeders:** Install the two 360° rotatable feeders on the left side. Adjust their position as needed.
9. **Final Check:** Ensure all connections are tight and the structure is stable.

## Operating Instructions

- **Door Operation:** The crate features sliding doors for easy access. Slide the doors gently to open or close. The left door can be removed for larger access or cleaning.
- **Feeder Use:** The two 360° rotatable feeders on the left side allow for flexible feeding positions. Rotate them inward for use and outward for refilling or cleaning.
- **Multifunctional Use:** The sturdy tabletop (load capacity up to 50 kg) can be used as a sideboard for dog supplies, toys, or as a decorative surface for books and other items.
- **Ventilation:** The metal tube design ensures good air circulation and light inside the crate, providing a comfortable environment for your dog.

## Maintenance

- **Cleaning:** The waterproof tabletop can be wiped clean with a damp cloth. For other wooden surfaces, use a soft, dry cloth. Avoid harsh chemicals.
- **Metal Parts:** The metal tubes are chew-resistant. Clean them with a damp cloth as needed.
- **Feeders:** The rotatable feeders should be removed and cleaned regularly with soap and water to maintain hygiene.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Damage:** If any part of the crate becomes damaged, discontinue use and contact customer support for replacement parts or advice.

## Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Crate feels unstable or wobbly. | Loose connections or uneven surface. | Ensure all screws are tightened. Move the crate to a flat, level surface. |
| Sliding door is stiff or not moving smoothly. | Debris in the track or misalignment. | Clean the door tracks. Check if the door is properly seated in its runners. |

| Problem | Possible Cause | Solution |
|---|---|---|
| Feeders are difficult to rotate. | Food residue or debris in the rotation mechanism. | Remove feeders and clean thoroughly. Ensure no obstructions. |
| Missing parts during assembly. | Packages may have arrived separately. | Verify both packages have been received. If parts are still missing, contact customer support. |
