## Philips Hue Devote Smart LED Panel User Manual

Model: 929004297501

### INTRODUCTION

---

The Philips Hue Devote Smart LED Panel provides uniform and powerful illumination with a wide range of white and colored light options. This round, 43 cm panel features a white frame and a semi-flush design, making it a versatile lighting solution for various indoor spaces.

## SETUP AND INSTALLATION

The Philips Hue Devote Smart LED Panel is designed for straightforward installation. No complex setup is required beyond physical mounting. Once installed, connect the panel to the Philips Hue app to begin controlling your lighting.

### Installation Steps:

- 1. Prepare the Installation Area:** Ensure power is turned off at the main circuit breaker before beginning any electrical work.
- 2. Mount the Panel:** Securely attach the LED panel to the ceiling according to standard electrical fixture installation practices.

3. **Connect to Power:** Wire the panel to the electrical supply, ensuring all connections are secure and insulated.
4. **Restore Power:** Turn the power back on at the circuit breaker.
5. **Connect to Philips Hue App:** Download the Philips Hue app on your smartphone or tablet. Follow the in-app instructions to discover and add your new Devote Smart LED Panel.

Designed to fit seamlessly  
into your home decor

## OPERATING INSTRUCTIONS

The Philips Hue Devote Smart LED Panel offers extensive control over light color and intensity through the Philips Hue app or compatible voice assistants.

### Color and White Light Control:

- **High Color Styles:** Access 16 million colors to create various ambiances. Use the Philips Hue app to select specific colors or pre-set scenes for different activities or moods.
- **Infinite White Light Declinations:** Adjust between 50,000 dimmable shades of white light, from warm to cool. This allows for optimal lighting for tasks, relaxation, or energizing environments.

Choose from dozens of premade scenes  
in the Hue app (or make your own!)

Image: A split view illustrating the Philips Hue Devote Panel's versatility, displaying a room lit with a soft pink light and another with a warm, inviting glow.

### Control Options:

- **Philips Hue App:** The primary method for controlling the panel. The app allows for scene creation, color selection, dimming, and scheduling.
- **Voice Control:** Compatible with Amazon Alexa and Google Assistant. When paired with a Google Nest or Amazon Echo device, simple voice commands can control individual lights or groups of lights.  
*(Requires Philips Hue Bridge for full functionality)*
- **Smart Accessories:** Integrate with Philips Hue smart switches and motion sensors for additional control options.  
*(Requires Philips Hue Bridge)*

Control with the Hue app, smart accessories, or your voice

#### Philips Hue Bridge vs. Bluetooth:

The Philips Hue Devote Smart LED Panel can be controlled via Bluetooth directly from the app for single-room control. For advanced features, whole-home control, and integration with smart accessories or voice assistants, a Philips Hue Bridge (sold separately) is required.

# Start with Hue Bridge or Bluetooth

Image: A comparative chart outlining the features available when controlling Philips Hue lights via a Hue Bridge versus direct Bluetooth connection, indicating the expanded capabilities with the Bridge.

## MAINTENANCE

The Philips Hue Devote Smart LED Panel requires minimal maintenance. Ensure the power is off before cleaning.

- **Cleaning:** Gently wipe the surface of the panel with a soft, dry, or slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or electronic components.
- **Light Source:** This product contains an integrated LED light source that is not user-replaceable. If the light source fails, the entire fixture may need to be replaced.

## TROUBLESHOOTING

If you encounter issues with your Philips Hue Devote Smart LED Panel, consider the following troubleshooting steps:

- **Light Not Turning On:**

- Check the power supply to the fixture. Ensure the circuit breaker is on.
- Verify that the panel is securely connected to the electrical wiring.
- Confirm that the light is not turned off via the app or a smart switch.

- **Cannot Connect to Philips Hue App:**

- Ensure Bluetooth is enabled on your mobile device and you are within range of the panel.
- If using a Hue Bridge, ensure the Bridge is powered on and connected to your network.
- Try restarting the Philips Hue app or your mobile device.
- Perform a factory reset on the light if necessary (refer to Philips Hue support for specific instructions).

- **Inconsistent Light Performance:**

- Check for any interference from other wireless devices.
- Ensure your Philips Hue app and Bridge firmware are up to date.

For further assistance, refer to the official Philips Hue support resources.
