6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your VINGLI sofa. The chenille fabric is designed for durability and ease of cleaning.

6.1. General Cleaning

- **Vacuuming:** Regularly vacuum the sofa using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for chenille, testing on an inconspicuous area first.

6.2. Fabric Care

- The chenille fabric is washable. Refer to the care label attached to the cushions for specific washing instructions. Typically, covers can be removed (using Velcro on seat cushions, if applicable) and machine washed on a gentle cycle with cold water.

- Air dry or tumble dry on low heat. Avoid high heat, which can damage the fabric.
- Do not use harsh chemicals, bleach, or abrasive cleaners.

6.3. Frame and Legs

- Wipe the legs and exposed frame parts with a soft, damp cloth.
- Periodically check and tighten all screws and bolts to ensure stability.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your sofa.

Problem	Possible Cause	Solution
Sofa feels wobbly or unstable.	Loose legs or connectors.	Ensure all legs are securely tightened. Check and tighten all connecting bolts between sofa sections.
Cushions appear flattened or lumpy.	Normal wear and compression of filling.	Fluff and rotate cushions regularly to maintain their shape and even out wear.
Fabric has minor wrinkles or creases.	Packaging or compression during shipping.	Allow time for the fabric to relax. Gentle steaming (from a distance) can help, but test on an inconspicuous area first.
Difficulty connecting sofa sections.	Misalignment of connectors.	Ensure sections are properly aligned before attempting to engage connectors. Lift slightly if needed to align hooks/slots.
