SETUP

Your LED Cup Holder Lights are designed for simple plug-and-play installation. Follow these steps to get started:

1. **Initial Charge:** Before first use, fully charge the cup holder lights using the provided USB charging cable. Connect the cable to the USB port on the coaster and a standard USB power source (e.g., car USB port, computer, wall adapter). The light will automatically turn off when fully charged.
2. **Placement:** Place the charged LED Cup Holder Lights into your vehicle's cup holders. Ensure they fit snugly.

SIMPLE OPERATIONS COOL ATMOSPHERE

Press the back button for 3 seconds to flash, then you can turn on/off

USB port charging

Coast mat photosensitive hole

Hidden switches

Intelligent induction

OPERATING INSTRUCTIONS

The LED Cup Holder Lights feature intelligent controls for ease of use.

Power On/Off and Mode Selection:

- **To Turn On/Off:** Locate the hidden button on the back of the coaster. Press and hold this button for approximately 3 seconds. The light will flash, indicating it is turning on or off.
- **To Change Light Mode:** Once the light is on, short press the hidden button to cycle through the available light modes. These include three dynamic modes and seven single-color options (Blue, Red, White, Yellow, Green, Pink, Purple, Ice Blue).

Colorful lights render atmosphere

Use colors to change the atmosphere, colorful cycle/monochrome/color lights as you like

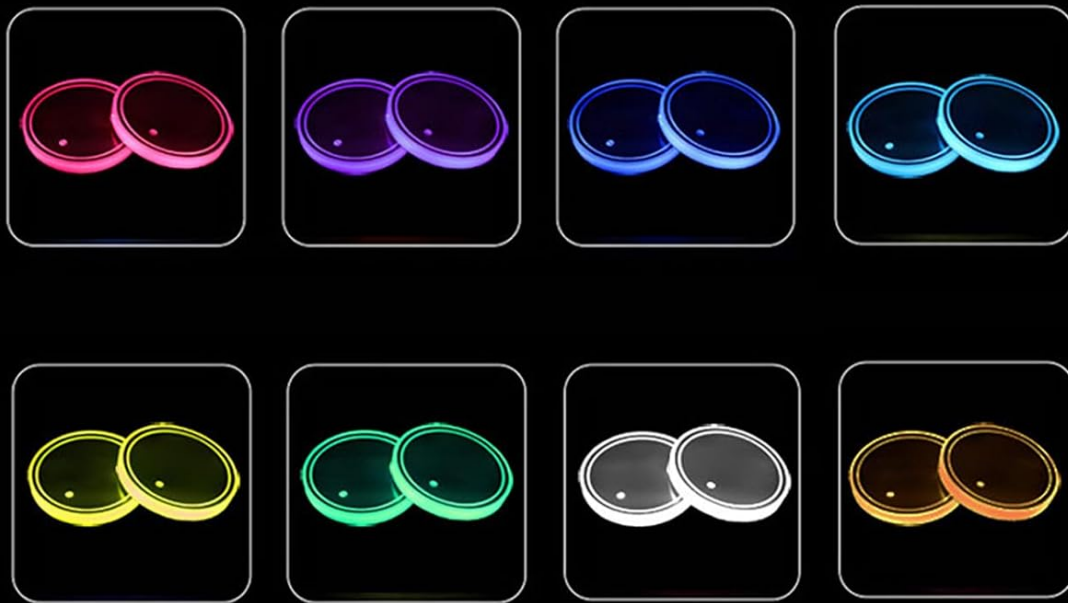

Figure 4: Examples of the colorful light options available, including various single colors and dynamic modes.

Smart Detection Feature:

The lights are equipped with a vibration sensor and an intelligent light sensor. This allows for energy-saving automatic operation:

- The lights will automatically shut down if stationary for 15 seconds.
- The lights will also automatically shut down in conditions of strong ambient light.
- The lights will turn on automatically when it is dark and motion is detected.

TURN ON AND OFF, TURN ON AND OFF TURN ON WHEN IT IS DARK

Vibration sensor/intelligent light sensor, it will automatically shut down when it is stationary for 15 seconds or when it encounters strong light

Figure 5: The LED cup holder lights automatically activate in dark conditions, illuminating beverages.

MAINTENANCE

To ensure the longevity and optimal performance of your LED Cup Holder Lights, follow these maintenance guidelines:

- **Cleaning:** The coasters are waterproof. Wipe them clean with a damp cloth as needed. Do not use abrasive cleaners or solvents.
- **Charging:** Recharge the lights when the brightness diminishes or they stop illuminating. The light will automatically turn off when fully charged, preventing overcharging.
- **Storage:** If storing for an extended period, ensure the lights are fully charged and stored in a cool, dry place.

TROUBLESHOOTING

If you encounter any issues with your LED Cup Holder Lights, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	Battery is depleted.	Charge the lights using the provided USB cable.
Lights turn off unexpectedly.	Smart detection activated (stationary for 15 seconds or strong ambient light).	This is normal operation. Move the coaster or ensure it's in a dark environment for activation.
Cannot change light modes.	Button not pressed correctly or light is off.	Ensure the light is on. Short press the hidden button on the back to cycle modes.
Lights are dim.	Low battery.	Recharge the lights fully.
