PACKAGE CONTENTS

Upon unboxing, please verify that all the following items are included:

- GT826 Gaming Headset
- USB Type-C Charging Cable
- 2.4GHz Wireless USB Dongle
- User Manual

Image: The GT826 headset laid out with its accessories: a USB-C charging cable, a 2.4GHz wireless dongle, and the instruction manual.

SETUP

1. Charging the Headset

Before initial use, fully charge the headset.

1. Connect the supplied USB Type-C charging cable to the charging port on the headset.
2. Connect the other end of the cable to a USB power source (e.g., computer USB port, USB wall adapter).
3. The LED indicator on the headset will show charging status (e.g., red for charging, off or blue for fully charged).
4. A full charge typically takes approximately 2 hours.

2. Connecting the Headset

The GT826 headset supports three connectivity modes: 2.4GHz Wireless, Bluetooth 5.4, and Wired (via USB Type-C).

2.1. 2.4GHz Wireless Connection (Recommended for Gaming)

1. Insert the 2.4GHz USB dongle into an available USB port on your PC, PlayStation, or other compatible device.
2. Power on the headset by pressing and holding the Power button.
3. The headset will automatically attempt to connect to the dongle. A successful connection is indicated by a stable LED light (refer to LED indicator section for details).
4. On your device, select "GT826" as the audio output and input device.

2.2. Bluetooth 5.4 Connection

1. Ensure the headset is powered on.
2. Press and hold the Mode button (or a dedicated Bluetooth button if available) until the LED indicator flashes, indicating pairing mode.
3. On your mobile device, tablet, or computer, enable Bluetooth and search for available devices.
4. Select "GT826" from the list of found devices to pair.
5. Once paired, the LED indicator will become stable.

2.3. Wired Connection (USB Type-C)

1. Connect the USB Type-C cable directly from the headset to your device's USB-C port.
2. The headset will function as a wired audio device. No battery power is consumed in this mode.

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Press and hold the Power button for approximately 3 seconds until the LED indicator lights up.
- **Power Off:** Press and hold the Power button for approximately 3 seconds until the LED indicator turns off.

Volume Control

Use the volume roller or buttons located on the earcup to adjust the audio output level.

Microphone Usage

The GT826 features a 120-degree adjustable microphone for clear communication.

- **Adjusting the Microphone:** Gently pivot the microphone boom to position it optimally near your mouth. The microphone can rotate up to 120 degrees.
- **Mute/Unmute:** Use the dedicated microphone mute button on the earcup to toggle the microphone on or off. An LED indicator on the microphone or headset may show its status.

RGB Lighting Control

The headset features vibrant RGB lighting effects on the earcups.

- **Toggle RGB:** Press the RGB lighting button (if available) or a combination of buttons to cycle through lighting modes or turn the lighting on/off.
- Note that using RGB lighting will reduce battery life.

Switching Connectivity Modes

To switch between 2.4GHz Wireless and Bluetooth modes, press the Mode button on the headset. The LED indicator will change to reflect the active mode.

MAINTENANCE

Cleaning

- Use a soft, dry cloth to clean the headset's surfaces.
- For earcups, a slightly damp cloth with mild soap can be used, but ensure no moisture enters the speaker grilles.
- Avoid using harsh chemicals, solvents, or abrasive materials.

Storage

- Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.

- When not in use, it is recommended to store the headset in its original packaging or a protective case to prevent damage.

Battery Care

- To prolong battery life, avoid fully discharging the headset frequently.
- Charge the headset regularly, even if not in constant use.
- Do not expose the battery to high temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from headset	<ul style="list-style-type: none">• Headset not powered on• Volume too low• Not connected to device• Incorrect audio output selected	<ul style="list-style-type: none">• Ensure headset is powered on• Increase volume on headset and device• Reconnect headset (2.4GHz, Bluetooth, or Wired)• Select "GT826" as default audio output on your device
Microphone not working	<ul style="list-style-type: none">• Microphone muted• Incorrect audio input selected• Microphone not properly connected (if detachable)	<ul style="list-style-type: none">• Unmute microphone using the button• Select "GT826" as default audio input on your device• Ensure microphone is securely attached
Headset not connecting wirelessly	<ul style="list-style-type: none">• Headset or dongle not powered on• Out of range• Interference• Not in pairing mode (Bluetooth)	<ul style="list-style-type: none">• Ensure both devices are powered on• Move closer to the device• Try connecting in a different environment• Re-enter Bluetooth pairing mode
Short battery life	<ul style="list-style-type: none">• RGB lighting enabled• Battery degradation	<ul style="list-style-type: none">• Turn off RGB lighting for extended use• Ensure full charge before use

SPECIFICATIONS

Feature	Detail
Model Name	GT826
Connectivity Technology	2.4GHz Wireless, Bluetooth 5.4, Wired (USB Type-C)
Audio Driver Size	40mm
Frequency Response	20Hz - 20KHz
Sensitivity	117 ± 3dB
Impedance	32 Ohms
Microphone	120° Adjustable, Detachable
Battery Capacity	1000mAh
Usage Time (No RGB)	Up to 60 hours

Feature	Detail
Usage Time (With RGB)	Up to 20 hours
Charging Time	Approximately 2 hours
Wireless Range	Up to 49 feet (15 meters)
Weight	12.8 ounces
Material	Memory Foam, Mesh, Plastic
Noise Control	Passive Noise Cancellation
