TROUBLESHOOTING

If you encounter any issues with your MELLCOM sofa, please consider the following:

- **Cushion Firmness:** If cushions feel too soft or firm initially, allow additional time for full decomposition (up to 72 hours). Regular use will also help the foam settle.
- **Fabric Imperfections:** For minor snags or loose threads, carefully trim with scissors. Avoid pulling.
- **Stability:** Ensure the sofa sections are properly aligned and placed on a flat surface. If the back feels too

flexible, position it against a wall for added support.

- **Persistent Issues:** If you experience any quality problems or issues not addressed here, please contact MELLCOM customer support.
