SETUP

1. Initial Charging and App Download

Before installation, fully charge the camera using the provided power adapter and cable. Download the Arenti App from your device's app store (available for iOS and Android). It is recommended to set up the camera indoors first for easier configuration.

One Camera, Fits All Scenarios

2-Way Audio

Long Battery Life

Stable WiFi Connection

Magnetic Mount

2. Connecting to Wi-Fi

1. Open the Arenti App and create an account or sign in.
2. Tap "Add Device" and select "Outdoor Camera" (or the appropriate battery camera model).
3. Follow the on-screen prompts to power on the camera and hold the reset button for 4-5 seconds until the LED indicator flashes red.
4. Select your 2.4GHz Wi-Fi network (5GHz networks are not supported) and enter the password.
5. The app will guide you through the connection process. Once successful, the camera will be online.

Your browser does not support the video tag.

3. Mounting the Camera and Solar Panel

The camera offers flexible mounting options:

- **Magnetic Base:** For metal surfaces, use the magnetic base for quick and easy placement.
- **Screw Mount:** For more permanent installation on walls or wood, use the provided screws and bracket.
- **Adhesive Tape:** For smooth, clean surfaces, double-sided tape can be used. Ensure the surface is clean and dry for firm adhesion.

Position the solar panel in an area that receives ample direct sunlight throughout the day to ensure continuous charging of the camera's 5200mAh battery.

Wire-Free Setup, Wherever You Need It

No drills, no stress, install in seconds

Magnetic base

Screw mount

Adhesive tape

*Tip: When using the adhesive tape, please make sure to stick it on a smooth, clean surface. Remove any dust or debris beforehand to ensure firm adhesion and prevent the camera from falling.

OPERATING THE CAMERA

1. Live View and Pan Control

Access the live feed through the Arenti App. Use the on-screen controls to pan the camera 340° for wide-area coverage. The 3MP 2K resolution provides clear and sharp images.

Image: Demonstrating the 340° pan view capability.

2. Motion Detection and Smart Alerts

The camera features PIR motion detection and human detection for accurate alerts. You will receive instant notifications on your phone when movement is detected. The system can also trigger a spotlight and siren for deterrence.

3. Two-Way Audio

Utilize the built-in microphone and speaker for two-way communication. This allows you to talk to visitors, delivery personnel, or deter unwanted guests directly through the Arenti App from anywhere.

4. Night Vision

The camera provides color night vision, ensuring clear visibility even in low-light conditions without excessive power consumption.
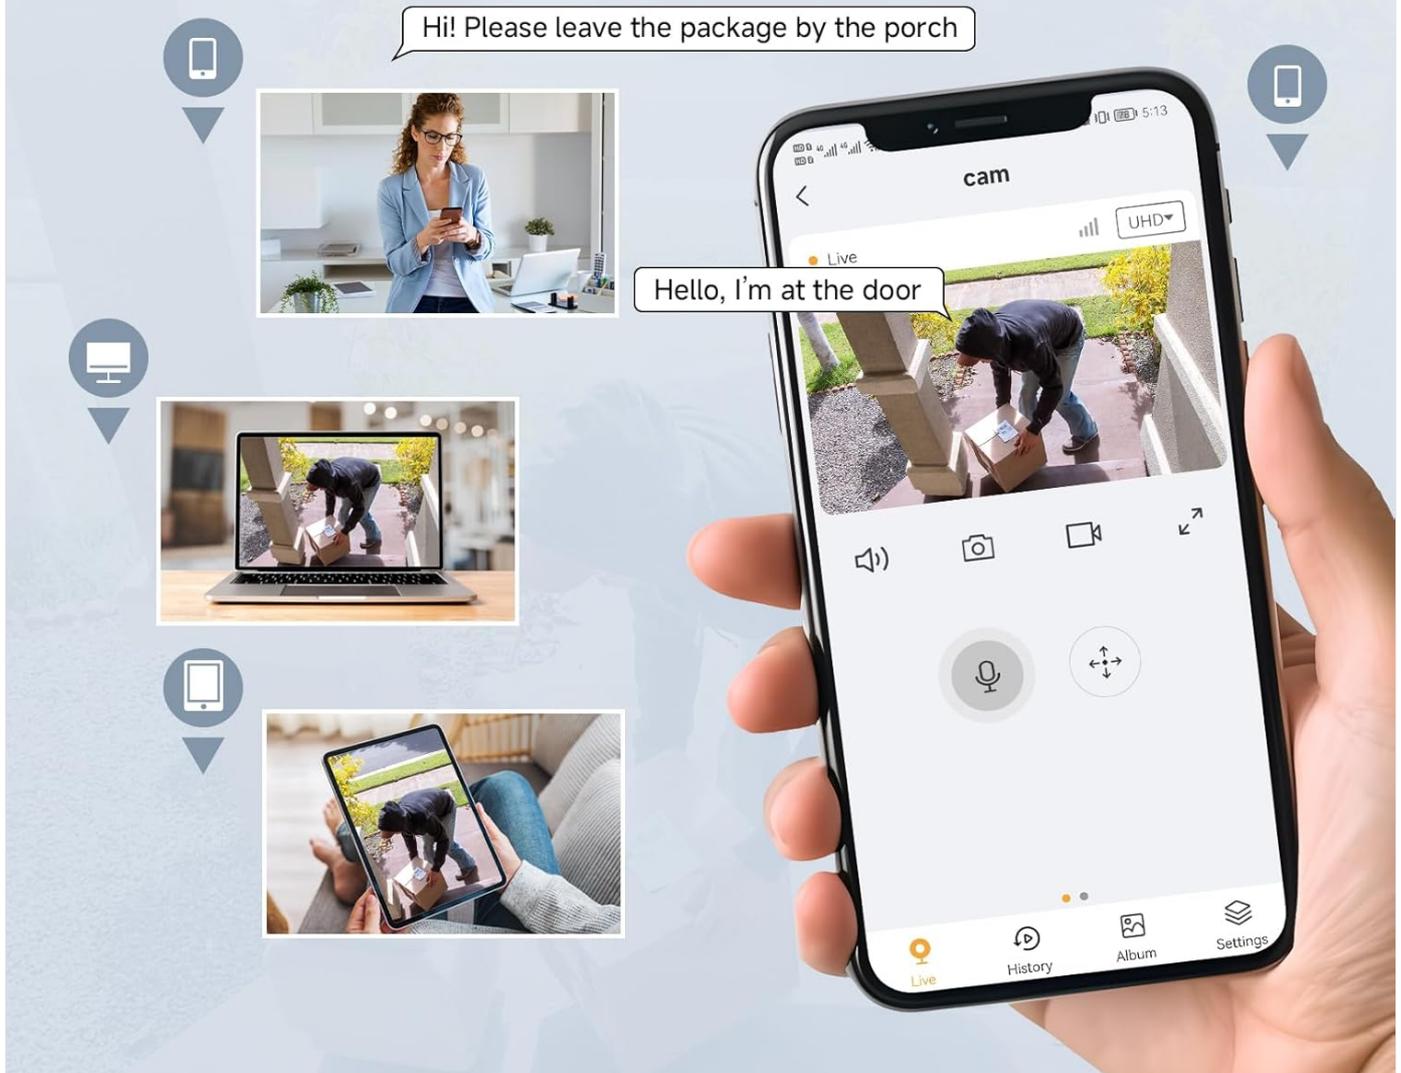

Image: Full-color night vision in action.

5. Storage Options

Recordings can be stored locally on a MicroSD card (up to 256GB, not included) or via optional cloud storage services (free 30-day trial, then monthly plans apply). All data is secured with AES-128 encryption.

Image: Dual storage options: Cloud and MicroSD card.

6. Voice Control Integration

The camera is compatible with Amazon Alexa and Google Assistant. Use voice commands to view the live feed on compatible smart displays.

MAINTENANCE

1. Battery and Solar Charging

The camera's 5200mAh battery, combined with the 3W solar panel, provides continuous power. Ensure the solar panel is clean and free from obstructions to maximize charging efficiency. Under normal usage, the battery can last up to 180 days on a single charge without solar input.

2. Weather Resistance

The camera has an IP65 weatherproof rating, making it resistant to rain, snow, and dust. Regularly check the camera and solar panel for any debris or dirt that might affect performance, especially after severe weather conditions.

3. Software Updates

Periodically check the Arenti App for firmware updates to ensure optimal performance, security, and access to new features.

TROUBLESHOOTING

- **Camera Offline:** Ensure the camera is charged and the solar panel is receiving sunlight. Verify your Wi-Fi connection is stable and the camera is within range of your 2.4GHz router.
- **Motion Detection Issues:** Adjust the detection sensitivity in the Arenti App. Ensure there are no obstructions blocking the camera's view.
- **Poor Video Quality:** Check your Wi-Fi signal strength. Ensure the camera lens is clean.
- **Battery Not Charging:** Confirm the solar panel is correctly connected and positioned to receive direct sunlight. Check the charging cable for damage.
- **App Connectivity Problems:** Restart the Arenti App and your smartphone. Ensure the app is updated to the latest version.
