Livatro LVCUCM001

Livatro Carpet and Sofa Cleaner (Model LVCUCM001) Instruction Manual

Your guide to effective and easy cleaning

1. Introduction

Thank you for choosing the Livatro Carpet and Sofa Cleaner, Model LVCUCM001. This versatile appliance is designed for deep cleaning of carpets, sofas, upholstery, and car interiors. With its powerful spray, scrub, and suction capabilities, it effectively removes stubborn stains and dirt, leaving your fabrics fresh and clean. Please read this manual thoroughly before first use to ensure safe and optimal operation.

2. Safety Instructions

- Always unplug the appliance from the power outlet before cleaning or performing maintenance.
- Do not immerse the appliance in water or other liquids.
- Keep the appliance away from children and pets.
- Use only recommended cleaning solutions. Do not use flammable or corrosive liquids.
- Ensure all tanks and attachments are securely in place before operation.
- Do not operate the appliance if the power cord or plug is damaged.
- Avoid spraying directly onto electrical outlets or components.

3. Product Overview

Key Features:

- **3-in-1 Cleaning System:** Combines spraying, scrubbing (up to 38,000 RPM), and powerful 16 kPa suction for deep cleaning.
- **Dual Tank System:** Separate 2.3L clean water tank and 1.3L dirty water tank prevent cross-contamination.

- **Self-Cleaning Function:** One-button hose self-cleaning to prevent blockages and odors.
- **Lightweight & Portable:** Weighs approximately 3.8 kg for easy transport.
- **Extended Reach:** 5m power cord and 1.28m flexible hose provide a 6.3m cleaning radius.
- **Professional Brush Set:** Includes a multi-function brush and an angled crevice tool for various surfaces.

Components:

The Livatro Carpet and Sofa Cleaner comes with the main unit, a flexible hose, a standard brush head, an angled crevice tool, and a self-cleaning brush attachment.

4. Setup

1. **Unpack the Appliance:** Carefully remove all components from the packaging.
2. **Fill the Clean Water Tank:** Remove the clean water tank (2.3L capacity) from the main unit. Fill it with clean water and an appropriate cleaning solution (mix according to solution instructions, typically 1:30 ratio). Securely close the tank and place it back into the main unit.
3. **Attach the Hose and Brush:** Connect the flexible hose to the designated port on the main unit. Select the appropriate brush attachment (standard or angled) for your cleaning task and securely attach it to the end of the hose.
4. **Power Connection:** Plug the power cord into a suitable electrical outlet.

5. Operating Instructions

1. **Pre-treatment (Optional):** For heavily soiled areas, you may pre-spray the cleaning solution onto the stain and let it sit for a few minutes before proceeding.
2. **Start Cleaning:** Turn on the appliance. Hold the brush attachment firmly against the surface to be cleaned. Press the spray trigger to release the cleaning solution.
3. **Scrub and Extract:** Move the brush attachment slowly over the soiled area, allowing the rotating brush to agitate the fibers and the powerful suction to extract the dirty solution. Overlap passes slightly to ensure thorough cleaning.
4. **Repeat if Necessary:** For stubborn stains, repeat the spray, scrub, and extract process until the stain is removed.
5. **Empty Dirty Water Tank:** Monitor the dirty water tank. When it reaches its maximum fill line or when cleaning is complete, turn off the appliance and empty the dirty water tank.

6. Maintenance

1. **Empty and Rinse Dirty Water Tank:** After each use, remove the dirty water tank, empty its contents, and rinse it thoroughly with clean water.
2. **Clean Brush Attachments:** Detach the brush head from the hose. Rinse the brush and nozzle under running water to remove any debris or residue.
3. **Hose Self-Cleaning:** To clean the internal hose, attach the self-cleaning brush attachment to the hose. Place the attachment into the designated self-cleaning port on the main unit. Press the self-cleaning button to flush the hose with clean water.
4. **Storage:** Once all components are clean and dry, wrap the power cord around the designated storage hooks and store

the hose and attachments neatly. The compact design allows for easy storage.
