4. Setup

The Veout portable monitor supports plug-and-play functionality, requiring no driver installation for most devices.

4.1. Connecting to a Device

1. USB-C Connection (Single Cable):

- Connect one end of the USB-C to USB-C cable to a full-function USB-C port on your laptop, smartphone, or other compatible device.
- Connect the other end of the USB-C to USB-C cable to one of the full-function USB-C ports on the portable monitor.
- This connection provides video, audio, and power to the monitor.

2. HDMI Connection (Requires Additional Power):

- Connect one end of the Mini-HDMI to HDMI cable to the Mini-HDMI port on the monitor.
- Connect the other end of the Mini-HDMI to HDMI cable to the HDMI port on your device.
- For power, connect the USB-A to USB-C cable or a USB-C to USB-C cable from your device's

USB port or a power adapter (not included) to one of the monitor's USB-C ports.

4.2. Positioning the Monitor

Deploy the integrated kickstand to position the monitor on a flat surface. Adjust the angle for optimal viewing. The monitor can be used in both landscape and portrait orientations.

5. Operating Instructions

5.1. Display Modes

When connected to a computer, you can configure the display mode through your operating system's display settings:

- **Copy Mode (Mirror Display):** Duplicates your primary screen's content onto the portable monitor. Useful for presentations or sharing content.
- **Extended Mode:** Extends your desktop across both screens, providing additional workspace for multitasking.
- **Second Screen Only Mode:** Displays content only on the portable monitor, with the primary device's screen turned off.

5.2. Adjusting Settings

The monitor features an intuitive control mechanism for quick adjustments:

- **Brightness Adjustment:** Scroll the control wheel up or down to instantly adjust screen brightness.
- **Volume Adjustment:** Scroll the control wheel up or down to instantly adjust speaker volume.
- **OSD Menu:** Press the control wheel or designated button to access the On-Screen Display menu for advanced settings like color, contrast, and input source selection.

5.3. Eye Care Technology

The monitor incorporates advanced eye-care technology designed to reduce blue light emission and screen flicker, promoting comfortable viewing during extended use.

6. Maintenance

To maintain your monitor's performance and appearance, follow these guidelines:

- **Cleaning the Screen:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, lightly dampen the cloth with water or a screen-cleaning solution. Avoid harsh chemicals or abrasive

materials.

- **Cleaning the Casing:** Use a soft, dry cloth to clean the monitor's casing.
- **Storage:** When not in use, store the monitor in a cool, dry place, preferably in its original packaging or a protective sleeve.
- **Avoid Liquids:** Do not expose the monitor to excessive moisture or spill liquids directly onto it.

7. Troubleshooting

If you encounter issues with your monitor, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No display/"No Signal" message	Incorrect cable connection, insufficient power, incorrect input source.	Ensure cables are securely connected. If using HDMI, ensure a separate power source is connected to the monitor's USB-C port. Check your device's display settings to ensure the monitor is detected and enabled. Select the correct input source via the OSD menu.
Flickering screen	Loose cable connection, incompatible resolution/refresh rate, power fluctuations.	Reconnect cables. Adjust display resolution or refresh rate on your connected device. Ensure stable power supply.
No sound from monitor speakers	Monitor volume too low, incorrect audio output selected on device.	Increase monitor volume using the control wheel. On your connected device, ensure the portable monitor is selected as the audio output device.
Monitor not powering on	No power supply, faulty cable.	Ensure the monitor is receiving power via a USB-C connection from a compatible device or power adapter. Try a different USB-C cable.
