syvio Hand Juicer1

Syvio Portable Blender User Manual

Model: Hand Juicer1

1. INTRODUCTION

Thank you for choosing the Syvio Portable Blender. This compact and powerful device is designed for convenient preparation of fresh juices, smoothies, and milkshakes on the go. Its USB rechargeable battery and robust blade system make it an ideal companion for a healthy lifestyle.

Please read this manual carefully before using the product to ensure safe and optimal performance. Keep this manual for future reference.

Safety Information

- Always ensure the juicer cup is securely attached to the base and the safety lock is engaged before operation.
- Do not immerse the motor base in water or any other liquid.
- Keep hands and utensils out of the blender cup during operation.
- Do not blend hot liquids.
- Keep out of reach of children.
- Use only the provided USB charging cable.
- Do not operate the blender when empty.

2. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Syvio Portable Blender:

- **Blender Base (Motor Unit):** Contains the motor, battery, and control buttons.
- **Juicer Cup:** Made of food-grade PC material, BPA-free.
- **Blade Assembly:** Features 10 (or 12, depending on model variant) 304 stainless steel blades for efficient blending.
- **Lid with Handle:** Securely seals the cup and provides portability.
- **USB Charging Cable:** For recharging the internal battery.

3. SETUP AND FIRST USE

Before using your Syvio Portable Blender for the first time, follow these steps:

1. **Charge the Battery:** Connect the USB charging cable to the charging port on the blender base and to a USB power source (e.g., power bank, AC adapter, computer USB port). The indicator light will show charging status. A full charge can provide power for approximately 20 cups of juice.
2. **Clean Components:** Disassemble the juicer cup, blade assembly, and lid. Wash these parts with warm soapy water. Rinse thoroughly and dry completely. **Do not wash the blender base.**
3. **Assemble the Blender:** Place the blade assembly securely onto the juicer cup. Then, align the juicer cup with the blender base and twist clockwise until it clicks into place, ensuring the safety lock is engaged.

4. OPERATING INSTRUCTIONS

Follow these steps to prepare your favorite beverages:

1. **Prepare Ingredients:** Cut fruits and vegetables into small pieces (approximately 1-2 cm). Harder ingredients like carrots or ice cubes should be cut into even smaller pieces.
2. **Add Ingredients:** Place the prepared ingredients into the juicer cup. Do not fill beyond 80% of the cup's capacity.
3. **Add Liquid:** Add an appropriate amount of liquid (water, milk, yogurt, etc.) to facilitate blending.

4. **Secure Lid:** Place the lid firmly onto the juicer cup and ensure it is sealed.
5. **Start Blending:** Invert the blender (cup facing down) and press the power button on the base to start blending. The blender features a powerful motor with a speed of up to 18000rpm.
6. **Blend Until Smooth:** Gently shake the blender during operation to ensure all ingredients are evenly blended. Blend until desired consistency is achieved.
7. **Stop Blending:** Press the power button again to stop the blending process.
8. **Enjoy:** Open the lid and pour your fresh beverage.

Image: The Syvio Portable Blender, purple in color, positioned on a wooden kitchen counter. Fresh strawberries, blueberries, and other fruits are scattered around, and a circular graphic indicates a 500ml capacity, highlighting its compact size and suitability for single servings.

5. MAINTENANCE AND CLEANING

Proper cleaning and maintenance will extend the life of your blender:

1. **Immediate Cleaning:** Clean the blender immediately after each use to prevent food residue from drying and sticking.
2. **Disassemble:** Separate the juicer cup, blade assembly, and lid from the motor base.
3. **Wash Cup and Lid:** Wash the juicer cup and lid with warm water and a mild dish soap. A bottle brush may be helpful for thorough cleaning.
4. **Clean Blade Assembly:** Carefully clean the blade assembly. Be extremely cautious as the blades are sharp. You can also add a small amount of water and a drop of soap to the cup, reattach the blade and base, and pulse briefly for quick cleaning. Rinse thoroughly.
5. **Clean Motor Base:** Wipe the exterior of the motor base with a damp cloth. **Never submerge the motor base in water.**
6. **Dry and Store:** Ensure all parts are completely dry before reassembling or storing. Store the blender in a clean, dry place away from direct sunlight.

6. TROUBLESHOOTING

If you encounter any issues with your Syvio Portable Blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Low battery.	Charge the blender fully.
	Juicer cup not properly assembled/safety lock not engaged.	Ensure the cup is twisted securely onto the base until it clicks.
Ingredients not blending smoothly.	Too little liquid.	Add more liquid to the mixture.
	Ingredients are too large or too many.	Cut ingredients into smaller pieces. Do not overfill the cup.
Blender leaks during operation.	Lid not securely fastened.	Ensure the lid is tightly screwed onto the juicer cup.
	Juicer cup not properly attached to base.	Verify the cup is securely twisted onto the base.
