Livpure GLO PRO++

Livpure GLO PRO++ RO+UV+UF Water Purifier User Manual

Model: GLO PRO++

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Livpure GLO PRO++ RO+UV+UF Water Purifier. Please read these instructions carefully before using the appliance and retain them for future reference.

2. SAFETY INSTRUCTIONS

Observe the following safety precautions to prevent injury or damage to the appliance:

- Ensure the power supply matches the specifications indicated on the product label.
- Do not operate the purifier with a damaged power cord or plug.
- Keep the appliance away from direct sunlight, heat sources, and flammable materials.
- Do not immerse the appliance in water or spray water directly onto it.
- Only use genuine Livpure replacement parts and filters.
- Children should be supervised to ensure they do not play with the appliance.
- For installation and major servicing, contact authorized service personnel.

3. PRODUCT OVERVIEW

The Livpure GLO PRO++ is an advanced water purification system designed to provide clean and safe drinking water through a multi-stage purification process.

Key Features

- **2X Power Filters:** Designed to last up to 2 years, subject to input water TDS less than 1500 ppm and a purification capacity of 14,000 litres.

- **7-Stage Advanced Purification:** Includes Sediment Filter, Pre-activated Carbon Absorber, Anti-Scalant Cartridge, RO Membrane, UV Disinfection, Ultra Filtration, and Silver Impregnated Post Carbon Filter.
- **Post Carbon Filter:** Enhances water taste by removing unpleasant odors and prevents bacterial regrowth with silver impregnation.
- **UV Disinfection:** Utilizes ultraviolet radiation to disinfect water from bacteria, viruses, and protozoa without altering taste or odor.
- **Suitable for various water sources:** Effective for borewell, tanker, and municipal water with TDS up to 1500 ppm.
- **8 Litre Storage Capacity:** Provides ample purified water storage.

Product Components

The purifier comes with the main unit, an installation kit, and a user manual cum warranty card.

4. INSTALLATION GUIDE

The Livpure GLO PRO++ is designed for wall-mount installation. Professional installation is recommended and often included with the purchase.

Before Installation

- Choose a suitable location near a water inlet and an electrical outlet.
- Ensure the wall can support the weight of the purifier when full (approximately 15 kg).
- Maintain adequate space around the unit for ventilation and maintenance access.

Installation Steps (Professional Service Recommended)

1. Mount the purifier securely on the wall using the provided installation kit.
2. Connect the raw water inlet to the purifier.
3. Connect the drain line to a suitable drainage point.
4. Ensure all connections are tight to prevent leaks.

5. Plug the power cord into a grounded electrical outlet.

Livpure

UV-UF Purification

It disinfects the water from harmful bacteria, viruses, and protozoa

LED Indicators

It comes with LED Indications to provide clear and convenient status updates

Image: Diagram showing the dimensions of the Livpure GLO PRO++ water purifier: 500mm height, 290mm width, and 256mm depth.

5. OPERATING INSTRUCTIONS

First Use

1. After installation, open the raw water inlet valve.
2. Turn on the power supply to the purifier.
3. Allow the storage tank to fill completely. The purification process will start automatically.
4. For the first use, drain the first two full tanks of purified water. This flushes out any residual impurities from new filters and membranes.

Daily Operation

- The purifier operates automatically. It will start purifying water when the tank level drops and stop when it's full.

- To dispense water, use the tap located at the front of the unit.

LED Indicators

The Livpure GLO PRO++ features LED indicators to provide clear status updates:

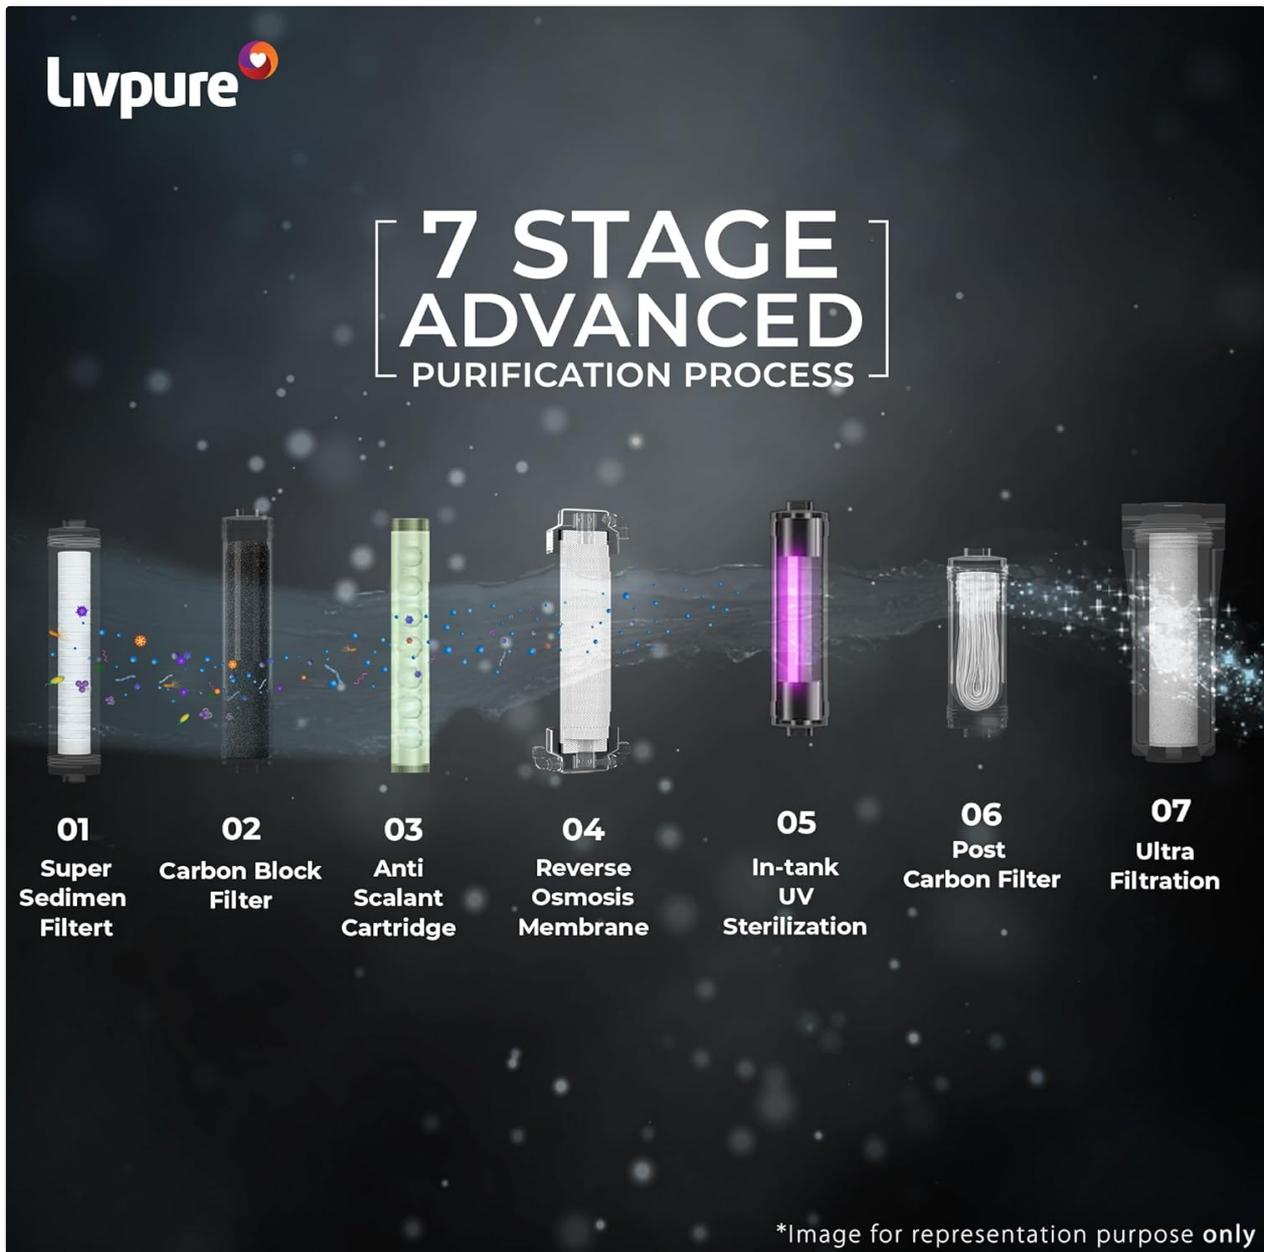

Image: Close-up of the Livpure GLO PRO++ LED indicators, showing power, purification, and tank full status. Also illustrates the UV-UF purification process.

- **Power Indicator:** Illuminates when the unit is powered on.
- **Purification Indicator:** Illuminates during the purification process.
- **Tank Full Indicator:** Illuminates when the purified water storage tank is full.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your water purifier.

Filter Replacement

- The 2X Power Filters are designed to last up to 2 years under specified conditions (TDS < 1500 ppm,

14,000 litres purification capacity).

- It is crucial to replace filters at recommended intervals to maintain water quality.
- Contact authorized Livpure service for filter replacement to ensure proper installation and use of genuine parts.

Cleaning

- Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Periodically clean the water dispensing tap.
- The internal storage tank should be cleaned by authorized service personnel during scheduled maintenance.

Storage

- If the purifier will not be used for an extended period, turn off the water supply and power.
- Drain the water from the storage tank.
- When resuming use, follow the 'First Use' instructions, including draining the initial tanks of water.

7. TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions. For problems not listed or if issues persist, contact customer support.

Problem	Possible Cause	Solution
No water dispensed	No power; Water inlet closed; Tank empty	Check power connection; Open inlet valve; Wait for tank to fill
Slow water flow	Clogged filters; Low water pressure	Contact service for filter inspection/replacement; Check household water pressure
Unpleasant taste/odor	Expired post-carbon filter; Contaminated tank	Contact service for filter replacement/tank cleaning
Water leakage	Loose connections; Damaged components	Turn off water supply and power immediately; Contact service
Purifier not turning on	No power; Faulty power cord/switch	Check power outlet and connections; Contact service

8. SPECIFICATIONS

Feature	Detail
Brand	Livpure
Model Name	GLO PRO++
Purification Technology	RO+UV+UF
Purification Stages	7 Stages

Feature	Detail
Special Features	Reduce TDS, Taste Enhancer, UV Disinfection
Product Dimensions (L x W x H)	29L x 25.6W x 50.5H Centimeters
Installation Type	Wall Mount
Power Source	Corded Electric
Item Weight	7.4 Kilograms
Capacity	8 Litres
Maximum Flow Rate	15 Liters Per Hour
Supported Water TDS Level (Max)	1500 PPM
Filter Life Cycle	2 Years (under specified conditions)
Material	Plastic
Included Components	Product, Installation Kit, User Manual Cum Warranty Card

9. WARRANTY AND SUPPORT

Warranty Information

Your Livpure GLO PRO++ Water Purifier comes with a comprehensive service plan. This includes:

- Free installation.
- 2 free services (filters included) for the first two years.
- Unlimited repair visits for the first year.
- EU Spare Part Availability Duration: 2 Years.

Please refer to the 'User Manual Cum Warranty Card' included with your product for detailed terms and conditions.
