5. MAINTENANCE

Proper care will ensure the longevity and appearance of your Smuxee Walnut Sideboard Cabinet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the walnut finish.
- **Spills:** Immediately wipe up any spills to prevent water damage or staining, as the MDF wood is water-resistant but not waterproof.
- **Dusting:** Regularly dust with a dry, soft cloth.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Retighten if necessary.
- **Sunlight:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration of the wood finish.

6. TROUBLESHOOTING

If you encounter any issues with your cabinet, refer to the following common solutions:

Problem	Possible Cause	Solution
Cabinet is wobbly/unstable	Loose hardware; uneven floor	Ensure all screws are tightened. Adjust floor levelers on feet if applicable, or place shims under feet.
Doors do not align properly	Hinges not adjusted correctly; cabinet not level	Adjust the screws on the hinges to align the doors. Ensure the cabinet is on a level surface.
Magnetic catch not holding doors closed	Magnetic catch misaligned or loose	Check if the magnetic catch and its strike plate are aligned. Tighten any loose screws.

If these solutions do not resolve the issue, please contact Smuxee customer support for further assistance.
