This vanity seat features a simple yet solid structure. Assembly can be completed in 5 minutes or less.

Assembly Steps:

1. **Attach Cross Stretcher to X-Legs:** Align the cross stretcher bar with the pre-drilled holes on the X-shaped metal legs. Insert the two M6*30 screws and tighten them partially (about 70%) using the provided Allen wrench. Do not fully tighten yet to allow for adjustment.
2. **Attach Seat to Legs:** Place the upholstered saddle seat upside down. Position the assembled X-legs and cross stretcher onto the underside of the seat, aligning the four holes on the top of the X-legs with the corresponding holes on the seat base. Insert the four M6*20 screws and tighten them partially.
3. **Final Tightening and Stability Check:** Once all screws are in place, fully tighten all six screws (two M6*30 and four M6*20) until secure. Ensure the adjustable leveling feet are twisted on completely. Place the stool upright and check for stability. Adjust the leveling feet as needed to ensure the stool sits evenly on the floor.
