HOSTACK 71" Kitchen Pantry

HOSTACK 71" Tall Kitchen Pantry Storage Cabinet Instruction Manual

Model: 71" Kitchen Pantry | Brand: HOSTACK

1. INTRODUCTION

Thank you for choosing the HOSTACK 71" Tall Kitchen Pantry Storage Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new cabinet. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

Your safety and the safety of others are very important. Please read and follow all safety instructions carefully.

- Always follow the assembly instructions carefully to avoid injury.
- Do not exceed the weight limit of **350 lbs (158 kg)** to maintain stability.
- Use appropriate safety gear when assembling the cabinet.
- Keep hands and fingers away from pinch points during assembly and use.
- An anti-tip device is provided for extra safety needs. Ensure it is properly installed to prevent accidental tipping.

3. PARTS LIST AND HARDWARE

Before beginning assembly, ensure all parts and hardware are present and undamaged. Refer to the detailed parts list included in your packaging. If any parts are missing or damaged, please contact customer support immediately.

Typical components include:

- Wooden panels (various sizes for sides, shelves, back, doors, drawer)
- Hardware (screws, dowels, cam locks, hinges, drawer slides, handles)
- Anti-tip kit

4. ASSEMBLY INSTRUCTIONS

Assembly typically requires **two people** and can take approximately **2-4 hours**. Follow the step-by-step instructions provided in your product packaging. Ensure you have a clear, spacious area for assembly.

1. **Unpack and Identify:** Carefully unpack all components and verify against the parts list.
2. **Assemble Base Unit:** Begin by assembling the lower section of the cabinet, attaching side panels to the base and internal shelves.
3. **Assemble Upper Unit:** Construct the upper section, including the top cabinets and open shelving.
4. **Install Drawer:** Assemble the drawer and install the drawer slides into the designated slot.

5. **Attach Doors:** Secure the barn-style doors to both upper and lower cabinet sections using the provided hinges.
6. **Join Sections:** With assistance, carefully lift and align the upper section onto the lower base unit. Secure them together using the specified hardware.
7. **Install Handles:** Attach all black metal handles to the doors and drawer.
8. **Secure Anti-Tip Device:** For safety, attach the anti-tip device to the cabinet and secure it to a wall stud.

Tip: Use a Phillips screwdriver for assembly. An electric drill can speed up the process but use caution to avoid overtightening screws.

5. OPERATING AND USAGE

The HOSTACK pantry cabinet is designed for versatile storage in various rooms.

- **Storage Compartments:** Utilize the 3-tier open shelves for display items or frequently accessed goods. The three enclosed cabinets (two upper, one lower) provide concealed storage.
- **Microwave Stand Area:** The central open compartment is ideal for a microwave, coffee maker, or other small appliances. It features a cable management hole at the back for convenience.
- **Large Drawer:** The easy-glide drawer offers hidden space for utensils, linens, or other small items.
- **Adjustable Shelves:** Some shelves may be adjustable to accommodate items of varying heights. Refer to your specific assembly guide for details on adjusting shelf positions.

6. MAINTENANCE

Proper care will extend the life and appearance of your cabinet.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten as necessary.
- **Weight Distribution:** Distribute weight evenly across shelves and within cabinets to maintain stability and prevent warping.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Wobbly Cabinet:** Ensure all cam locks and screws are fully tightened. Verify the cabinet is on a level surface. Adjust floor glides if present. Ensure the anti-tip device is securely installed.
- **Doors Not Aligning Properly:** Cabinet doors can sometimes become crooked or have uneven gaps. This can be adjusted using the hinges.
 - a. **Adjusting Side-to-Side (Gap Adjustment):** Turn screw C clockwise to reduce the gap between doors or counter-clockwise to increase it.
 - b. **Adjusting Up/Down (Height Adjustment):** Loosen screws A and B, then raise or lower the door until it reaches the desired height. Re-tighten both screws to secure.
 - c. **Adjusting In/Out (Depth Adjustment):** Loosen screw D and push the door in to ensure it is flush with the cabinet frame. Re-tighten screw D.
