PENUIO 5-in-1 Hairstyler Pro

PENUIO 3-in-1 Hot Air Styler Instruction Manual

Model: 5-in-1 Hairstyler Pro

1. INTRODUCTION

Thank you for choosing the PENUIO 3-in-1 Hot Air Styler. This versatile styling system is designed to dry, curl, volumize, and straighten your hair with ease, offering salon-quality results at home. It features three interchangeable heads to cater to various styling needs. Please read this manual thoroughly before use to ensure safe and effective operation.

2. IMPORTANT SAFETY INFORMATION

To reduce the risk of electric shock, burns, fire, or injury, always follow these basic safety precautions:

- **DANGER:** Keep out of reach of children.
- **WARNING:** Do not use near water. Do not use while bathing.
- **CAUTION:** Be cautious of overheating. Always unplug the appliance immediately after use.
- The appliance is equipped with an ALCI (Appliance Leakage Current Interrupter) safety plug, which automatically cuts power during water exposure. Test the ALCI before each use as per instructions.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked.

3. PRODUCT COMPONENTS

Your PENUIO 3-in-1 Hot Air Styler includes the following components:

- **Main Unit:** The core device with power and control buttons.
- **Concentrator Nozzle:** For precise drying and airflow control.
- **Round Brush:** For creating voluminous curls and adding body.
- **Paddle Brush:** For achieving smooth, sleek, and frizz-free straight styles.

4. SETUP

Follow these steps to attach and detach the styling heads:

1. **Select an attachment:** Choose the desired styling head (concentrator, round brush, or paddle brush).
2. **Align and Insert:** Align the two arrows on the attachment with the corresponding marks on the main unit. Insert the attachment firmly until it clicks into place.
3. **To Remove:** Hold down the release button located on the main unit and gently twist and pull the attachment away.

HAIRSTYLER CHANGE PARTS PROCESS

Step 1: Select a styling attachment

Step 2: Align the two arrows, then insert the attachment to install

Step 3: Hold down the release button and turn the attachment

Step 4: Remove the attachment for disassembly

5. OPERATING INSTRUCTIONS

Ensure your hair is damp, not soaking wet, for best results. Plug the ALCI safety plug into a standard electrical outlet.

Power and Temperature Settings

The styler features a power switch and a temperature/speed control button. It offers 3 speed settings and 3 heat settings (Low, Medium, High) to suit different hair types and desired styles. Adjust settings using the thumb-friendly buttons for one-handed operation.

Using the Attachments

- **Concentrator Nozzle (Drying):** Use this attachment to quickly dry your hair. Direct the airflow from roots to ends.
- **Round Brush (Curling & Volumizing):** For curls, take a section of damp hair and wrap it around the brush. Hold for a few seconds, then release. For volume, lift hair at the roots and brush outwards.
- **Paddle Brush (Straightening & Smoothing):** For sleek styles, brush sections of damp hair from roots to ends. The even airflow helps detangle and reduce frizz.

The advanced airflow engineering ensures even heat distribution at a healthier 212°F (100°C), reducing heat stress and preventing breakage.

6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your styler.

Cleaning

- Always unplug the appliance and allow it to cool completely before cleaning.
- Wipe the main unit and attachments with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Regularly remove any hair or debris from the brush bristles and the air intake filter at the bottom of the main unit to maintain optimal airflow.

Storage

Store the appliance in a cool, dry place. Do not hang it by the power cord. Ensure the cord is not twisted or kinked during storage.

7. TROUBLESHOOTING

If you encounter any issues with your PENUIO 3-in-1 Hot Air Styler, please refer to the following common solutions:

- **Appliance not turning on:** Ensure the power cord is securely plugged into a working electrical outlet. Check the ALCI safety plug and press the "RESET" button if it has tripped.
- **Low airflow or reduced performance:** Check the air intake filter for blockages (e.g., lint, hair) and clean it if necessary. Ensure attachments are securely fastened.
- **Overheating:** If the appliance overheats, it may automatically shut off. Unplug it and allow it to cool down for several minutes before resuming use. Ensure air vents are not blocked.
- **Attachments not staying on:** Ensure the attachment is aligned correctly and pushed firmly until it clicks into place.

If the problem persists, please contact customer support.
