Wildgame Innovations VU60

WILDGAME INNOVATIONS Trail Pad Swipe VU60 SD Card Viewer

User Manual

1. Introduction

The Wildgame Innovations Trail Pad Swipe SD card reader is designed to provide quick and easy review of images and videos directly from your hunting camera. This handheld media viewer eliminates the need for immediate downloads, allowing you to get the full story from your trail camera while in the field. Its compact and lightweight design, coupled with heavy-duty, water-resistant housing, makes it ideal for outdoor use.

2. Product Features

- **Handheld Media Viewer:** Designed for convenient in-field use.
- **Compact & Lightweight:** Easy to carry and transport.
- **Durable Construction:** Features heavy-duty, water-resistant housing.
- **4.3" Touch Screen:** Intuitive display for viewing photos and videos.
- **Push-Button Navigation:** Provides alternative control alongside the touch screen.
- **Zoom In/Out Functionality:** Allows detailed inspection of images.
- **Auxiliary & USB Ports:** For connecting to computers or TVs (cords not included).
- **SD Card Compatibility:** Supports SD cards up to 32 GB (not included).
- **File Management:** Easily organize and delete files directly on the device.

3. Package Contents

- WILDGAME INNOVATIONS Trail Pad Swipe VU60 SD Card Reader

Note: 4 AAA batteries and an SD card (up to 32 GB) are required and not included. Auxiliary and USB cords are also not included.

4. Setup

4.1 Battery Installation

1. Locate the battery compartment on the back of the device.
2. Open the battery compartment cover.
3. Insert 4 AAA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely.

4.2 SD Card Insertion

1. Locate the SD card slot on the side of the device.
2. Insert your trail camera's SD card (up to 32 GB) into the slot until it clicks into place. Ensure the card is inserted with the correct orientation.

5. Operating Instructions

5.1 Power On/Off

- To power on the device, press and hold the power button located on the front panel until the screen illuminates.
- To power off, press and hold the power button again until the screen shuts down.

5.2 Navigation

- The device features a **touch screen** for direct interaction with menu options and files.
- Alternatively, use the **directional arrows** and **OK button** on the right side of the device to navigate through menus and select options.
- The **Menu button** will return you to the previous screen or the main menu.

5.3 Viewing Photos and Videos

1. From the main menu, select **"Photo"** to view images or **"Video"** to view video files.
2. Use the touch screen or directional arrows to scroll through your files.
3. Tap or press OK to select a file for full-screen viewing.
4. While viewing an image, use the touch screen to **zoom in or out** for detailed inspection.
5. For videos, ensure headphones are connected to the 3.5mm jack if audio is desired, as the device does not have an internal speaker.

5.4 Deleting Files

- While viewing a file, press the **Delete button** (trash can icon) to remove it from the SD card. Confirm deletion when prompted.

5.5 Connecting to External Devices

- **USB Port:** Connect the device to a computer using a compatible USB cable (not included) to transfer files.
- **Auxiliary Port:** Connect to a TV or other display device using an auxiliary cable (not included) for larger screen viewing.

6. Media Integration

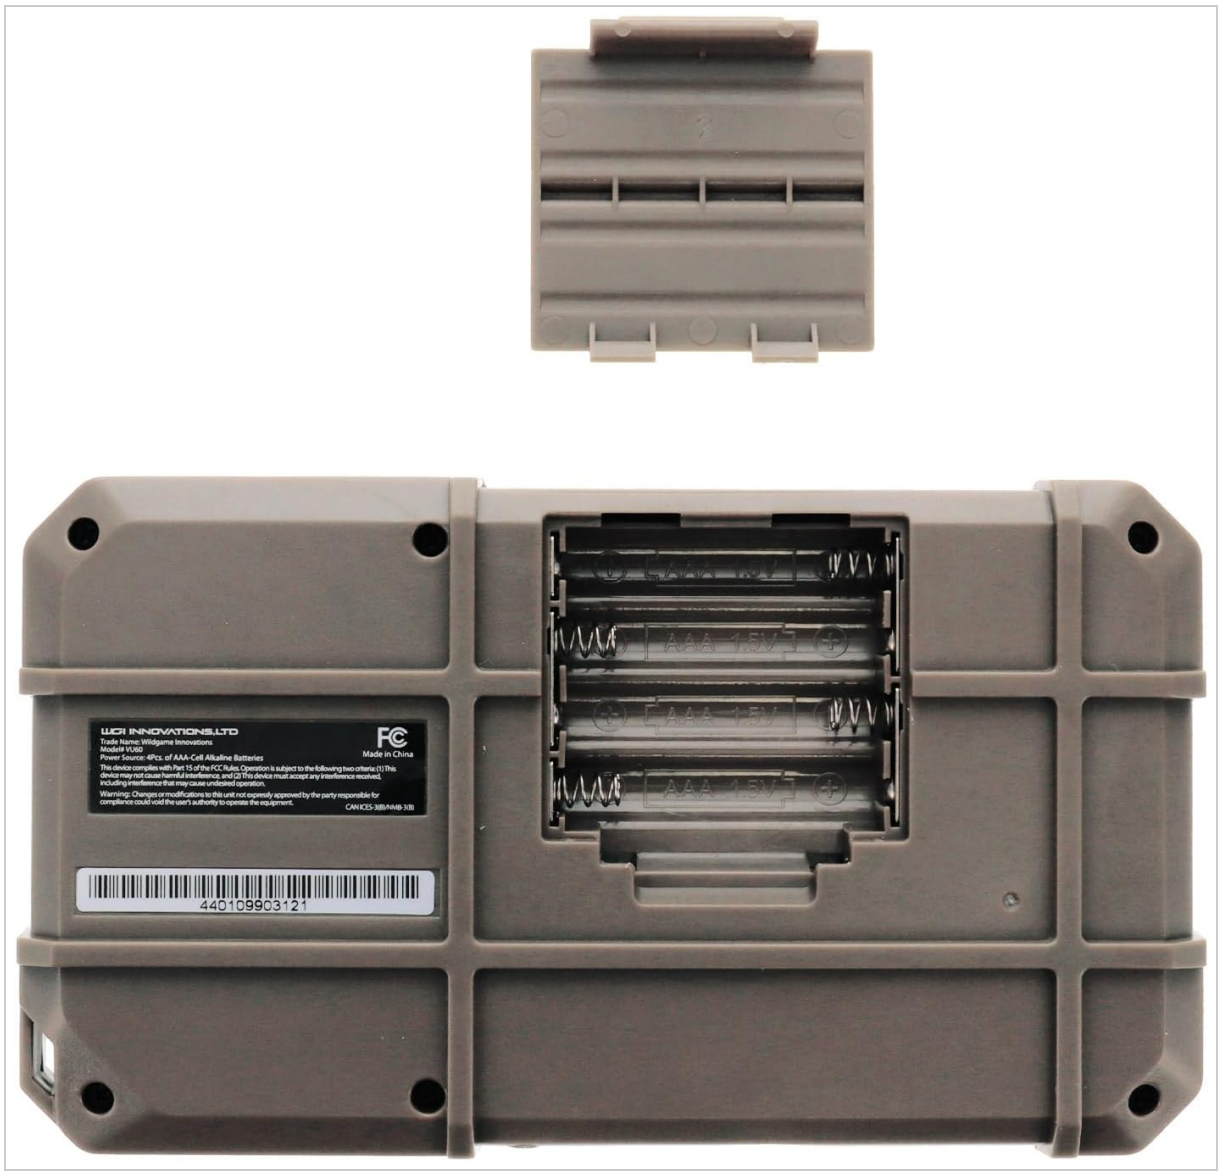

6.1 Product Images

Front view of the Trail Pad Swipe VU60, showcasing its 4.3-inch touch screen with a deer image and the 'NEW SWIPE FUNCTION' overlay. The control buttons are visible on the right side.

Side view of the Trail Pad Swipe VU60, highlighting the SD card slot, USB port, and 3.5mm auxiliary port for external connections.

Rear view of the Trail Pad Swipe VU60 with the battery compartment open, showing the slots for 4 AAA batteries. Product information and serial number are also visible.

6.2 Official Product Videos

No official product videos from the seller are available for embedding at this time.

7. Maintenance

7.1 Cleaning

- Wipe the device with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure the screen is clean for optimal touch response and viewing clarity.

7.2 Storage

- When not in use for extended periods, remove the batteries to prevent leakage and damage.
- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

8. Troubleshooting

8.1 Device Does Not Power On

- Check if the batteries are inserted correctly with the proper polarity.

- Replace old or depleted batteries with fresh AAA batteries.
- Ensure the power button is pressed and held for a few seconds until the screen illuminates.

8.2 "No File" Message Appears

- Ensure an SD card is properly inserted into the SD card slot.
- Verify that the SD card contains compatible photo or video files (e.g., JPEG for photos, AVI/MP4 for videos, depending on your trail camera's output).
- Try re-inserting the SD card.
- Test the SD card in another compatible device to ensure it is not corrupted.

8.3 Screen Unresponsive or Frozen

- Remove and re-insert the batteries to perform a hard reset.
- Ensure the screen is clean and free of debris.
